NEW YORK, Dec. 25 .- A New fear's shakeup in the organization of the New York Athletic com mission boxing control today was forecast Monday when it became known definitely that William Muldoon, chairman of the commission for the past two years would retire from office when his

term expires January 1. Besides Muldoon, two other oficials of the commission are stated to relinquish their posts, it was said authoritatively. One is renk Dwyer of Geneva, who with fuldoon and Frank E. bower of brooklyn, composed the actual mission. The others John Vanderbush of Schenectady, a ty commissioner.

Muldoon has had a stormy canated the ring game often came inder the fire of critics, who accused him of overstepping his authority. Among these decisions, one barring a proposed Jack Dempsey-Harry Wills heavyweight championship match and another bout a year ago prohibiting Dempsey from engaging in any title contests here, were promin-

Muldoon also figured in deprivng several world's champions of title recognition in New York state at various times for failure times to accept challenges.

Field Goal in First Quarter Decides Winner to Christmas Contest

We Can't Run Away

Why not take advantage of that fact?

FEW DAYS AGO a woman asked our assistance in repairing a certain electric appliance.

It was an inferior appliance. It had been sold to her by a salesman who burst into town, "worked fast" and disappeared.

There was no one to reimburse her, no one to make proper adjustment.

A local merchant would not have sold her that inferior appliance. This company— which submits all types of appliances to care-ful tests—would not have sold her that appliance.

And if we had, by error, she could have found us—like your other local merchants right here in town, ready and willing to rectify that error.

If you haven't an electric vacuum cleaner, you aren't taking full advantage of your electric service. Let's bring a Eureka vacuum cleaner to your home and show you how it saves your time, your strength, your health. No obligation whatsoever for the demonstra-

will be dependent upon the general condition of the players after the long jaunt, the coaches said

There Is, Also, Non-Detonating Gasoline

Note this important difference in the way gasolines explode. One kind explodes instantaneously-detonates. It depends upon a single crash to pound the piston

Compression is limited by the tendency of such gasoline to explode prematurely. This means loss of power and efficiency.

It means increased vibration also, thus more wear and tear. Some explosives would work this way on guns, to the ruination of the guns.

The Prolonged Thrust

Union Gasoline explodes in a different way-like smokeless powder in big guns-with a progressive and sustained explosion—non-detonating.

It thrusts the piston down with a powerful but continuous impulse.

This permits higher compression, for, as authorities know, compression is limited by the tendency of a gasoline to detonate. So more power and higher efficiency result from Union Non-Detonating Gasoline. Smokeless powder is used in big guns bebecause it doesn't detonate and its better power carries the projectiles farther.

Snap In The Pickup

This increased smoother power in motors means more speed and a stronger rush in the pickup. You find more power on the hills -a new "lift" -with no "knock-

ing" due to gasoline. The sustained impulse reduces vibration, which means less wear

And the higher, all-'round efficiency means increased fuel

So Union Non-Detonating Gasoline affects your car in several desirable and important ways.

Union is always uniform. It doesn't disintegrate, thus doesn't deteriorate in storage. All the power that is put into it at the Union plants is delivered when you want it in your car.
