Eyes Scientifically Corrected
There are thousands of pairs of correctly fitted glasses in and around Salem. I know they are correctly fitted, for I did the work myself. There is no guesswork about it!
I have been fitting glasses for more than a third of a century, and I take pride in fitting each and every pair correctly.
The necessary skill to achieve such results can be acquired only by years of close study and active, practical experience. In fact, scientific knowledge of the highest order is required to recognize and properly correct defects of vision.
I DO NOT BELONG TO ANY COMBINE
If you are in need of optical service or advice of any kind, come in and see me. I am always pleased to be of service to you. My prices are very reasonable for the materials and services given. I guarantee satisfaction in every respect. If glasses do not give satisfaction, they will be changed free for a period of one year. Phone 723. 210-11 United States Bank Building.
DR. MENDELSON

Pierce as a member of the supreme court to succeed Justice L. T. Harris, resigned, will not take the oath of office until about January 15, when he is to assume the duties of the bench, according to the judge himself, who was here to spend Christmas with relatives.

Clemency Power Denied— I. H. Van Winkle, attorney general, has written an opinion in reply to an inquiry by George H. Cleaver, state prohibition commissioner, holding that no court, municipal or otherwise, has a right under the Oregon laws to grant pardons, remit fines or suspend jail sentences. Clemency of this kind extended by a municipal court in Portland is said to have given rise to the question.

Construction Stops Service— In reply to a complaint of the people of Oretown and Neakowin at the telephone service of the Cloverdale Telephone company, Walter J. Mead, manager of the telephone company, writes the public service commission that the cause of the poor service is that the Warren Construction company which is doing road construction work in that district, has torn out the lines. It is necessary for the present, says Mr. Mead, to string the wires on trees, snags, fence posts or any other temporary convenience in lieu of the poles that have been taken out.
