Science Hall Flooded—
The fact that water pipes in Science hall at Willamette university had been burst by ice caused by the recent cold weather was not discovered until about two days after it happened, and the result was, according to reports yesterday that, the hall was flooded by about 3000 gallons of water. Considerable damage was done, and some of the students' records were well-nigh ruined. The hall was not in use during the holiday vacation period which explains the fact that the burst pipes were not discovered sooner.

Crew to Mine—
A. C. Larsen, associate with H. H. Lotz in the Lotz-Larsen Mining company, operating mines in the Santiam mining district, stopped for a few hours in Salem today, as he was enroute to the mines with a crew of men to start immediate operation of the property. Several of the crew are Salem men, and for the most part men who are familiar with mining. This is one of the first services that a mining company can give its supporters—that is employment. Within the week the mill at the mine will be crushing out real values and the actual process of mining will be a reality. Mr. Lotz, in an interview Saturday, said that it was his plan to drive the present tunnel in several hundred feet farther on the Minnie E. ledge thereby opening up more and larger deposits of ore, which is known to exist just ahead of the present breast. Machinery is being purchased by Lotz as the occasion arises and gradually the needed equipment is being placed in mill and mine.

Kryptoks

Bifocal wearers are appreciating more and more the superiority of Kryptoks. Modern eyeglass efficiency demands appearance as well as comfort in two-sight glasses. Ordinary bifocals, with the lines or humps on their lens surfaces, are unsightly and do not measure up to present-day standards of popular taste and refinement. Kryptok Glasses, by invisibly combining two sights in a single pair of lenses, remove the popular objection to double-vision glasses. In this respect their merit is unique.

I DO NOT BELONG TO ANY COMBINE

moved his family to Silvertown last week and will make this his home. He is located in the home formerly occupied by Rev. Henriksen and says that for the present he will make his home there. Mrs. Nelson's health was the reason for their moving west and since living in Gresham her health has been much improved. They are both members of the Lutheran church and have always been active in church and civic work.—Silvertown Tribune.

Stage Catches Afire—
A Eugene-Salem stage, parked on Seventh avenue west, just west of Olive street, caught fire Friday afternoon at 1:45 o'clock. The stage had come into Eugene at 10:30 o'clock that morning, and had been parked since that time.

The fire, which evidently caught from the heater, burned a hole in the upholstery at the top of the car, damaged the front seat to quite an extent, and burned quite a bit of the wooden framework under the front seat at the left side of the car. The blaze was extinguished when the smoke was sighted and fire extinguishers were brought into play.—Eugene Guard.
