Willamette Alumni and Bearcats Play Tonight

Stars which glittered in the basketball firmament several seasons ago will again cross the horizon when the Willamette university Bearcats and a picked Alumni basketball team meet on the new gymnasium court tonight. Fitting ceremonies, extremely short in nature, will officially dedicate the new building. The game is slated to begin promptly at 7:45 o'clock.

Among well known players who were seen in action in 1920-'21 will be Jackson, Rarey, Wapato, Nichols, a three-letter man Davies and Sparks. Coach Guy L. Rathbun and his team returned yesterday morning from Walla Walla where the Bearcats were defeated 30 to 29 by Whitman.

Washington Junior High Wins From McKinley Team

PEACE CAUSE BEING HELPED BY COOLIDGE

(Continued from page 1) City of giving up the long standing "capitulations" or else having no treaty at all and no protection for American interests in that country.

"In these circumstances," he said, "the only practicable course was to negotiate a treaty as with a fully sovereign state. If such a treaty falls short of expectations, especially in that it acquiesces in the abrogation of the capitulations, it should not be forgotten that the only way to maintain the capitulations was to fight for them.

Concession Granted "At no stage in the negotiations was the American position determined by the so-called Chester concession. This had been granted before negotiations of our treaty with Turkey had begun. This government took no part in securing it; this government made no barter of any of its rights for this or any other concession." Mr. Hughes also touched briefly upon the status of negotiations respecting mandated territories, the unofficial American financial commission to Persia and the re-

Boy Scout Plan Wins LEBANON, Jan. 23.—It was unanimously voted to accept the four county-four department organization plan for Boy Scouts at the get-together of the representatives of county Scout organizations, held last evening at the hotel in Lebanon. The four counties which will be banded together in this organization in future are: Linn, Marion, Benton, and Polk.

The four departments are: education, camping, finance, and field. Each department will have a chairman and four assistants as outlined in the plans last night.

Marion, Polk, and Benton county scouts have perfected their own organizations and are waiting for Linn county before a general meeting of the council will be called.

A council, representing the whole organization, will be made up of the president, secretaries and heads of departments, and the scout executive for the four is to be selected by this group. Ben Barteche of Albany was appointed chairman of the nominating committee, composed of C. C. Snyder of Brownsville, S. Landstrom of Lebanon, and Dr. J. H. Robnett of Albany. Dr. Robnett was elected president of the Linn county council and Clem Irvine of Lebanon, secretary.

Creamery is Successful

MARSHFIELD, Jan. 23.—Following the payment of a \$27,000 mortgage, the Coos Bay Mutual Creamery company now stands on a firm financial basis, according to a report made this morning during a meeting of the stockholders and directors. Total sales for the year amount to \$315,686.74, making this year's business the best in the company's history by far.

Recovery of the company in such short time is regarded as remarkable by the stockholders for shortly over two years ago the recognition of the Egyptian government: With relation to Greece, he said, the situation had now "materially changed" there and that it was hoped the elections held in December would result in establishment "of a government which will enable this government to extend formal recognition."

books showed a deficit of \$87. Nine local men raised \$27,000 on their notes to finance the company and since that time it has made a steady increase. Credit for the showing is given to the efficient management of Joe Larson and to the board of directors.

Want Prune Lands Reduced

ROSEBURG, Jan. 23.—That prune orchards in Douglas county are assessed at a figure much greater than their earning power, and should be lowered in valuation to conform to their production value, is the belief of the executive committee of the Douglas County Farm bureau who have appointed a committee to make an investigation and take up this matter with the county assessor and the county court.

Prune lands, it is claimed, are now assessed at a figure higher than almost any other class of land in the county. With the prune market in its present condition prune lands are a liability rather than an asset.

"We have no objection to making to paying high taxes on these lands, when the orchard product is bringing a high price," Mr. Hercher, chairman of the committee stated. "When prunes
