ADVANCE SCORED ON STOCK MARKET

Call Money Rules at Four Per Cent—Outside Loans Obtainable Lower

NEW YORK, Jan. 25.—Speculators for the advance maintained control of today's stock market despite the attempt of bear operators to unsettle the list by heavy offerings of a number of the motor and chemical shares and such specialties as Famous Players and United States cast iron pipe. Prices were churned about considerably in the early dealings but a broad forward movement set in near the close, under the leadership of United States steel common, which touched 194 1/8, the highest price since last spring, and nearly three points above yesterday's close. High priced specialties again developed marked buoyancy. General electric touched 221 7/8, the highest price in more than 20 years, closing slightly below that figure for a net gain of 8 points. Corn products established a record high for all time at 183, up 4 1/4, as against the year's low of 152 3/8. American can established a record high at 111 3/4, closing at a net gain of nearly 2 points.

Operators on the long side of the market found little difficulty in obtaining funds to finance their operations. Call money again ruled at four per cent, but "out-

side loans" were reported to have been made as low as 3 1/2. Commission houses reported an increase in public participation but thus far the buying from this source has been of a rather cautious character.

Buying of the steel shares was influenced by reports of increased operations of the principal companies and the favorable interpretation made by market observers of the preliminary annual report to the Bethlehem Steel corporation.

Oils were helped by the announcement of a further increase in Pennsylvania crude prices, the Pan-American issues, which have been under considerable pressure lately as a result of the Mexican revolution and the disclosures before the senate committee investigating naval oil reserve leases, snapped back about two points each, while Sinclair moved up nearly a point.

Strength of the sugar shares was based on the improved trade outlook. Cuba cane preferred developing considerable activity on the belief that early action will be taken to wipe out part of the nineteen per cent accumulation of back dividends.

Railroad shares lagged behind the general list until just before the close when heavy buying set in for a scattered assortment of issues. Southern railway climbed more than two points to 44, a record high.

Call money steady at 4 per cent. Brokers continue to bid 4 1/2 per cent for all maturities in the time money market with some 20 to 30 day loans made at that figure. Bankers are asking 4 3/4 for the longer dates. The commercial paper market was quiet with rates unchanged. Foreign exchange rates held steady in quiet trading. Demand sterling again was quoted around 4.22 and French francs moved around 4.48c. Japanese yen dropped about 15 points to 44.75c but other currencies showed only nominal changes.

PROFIT TAKING IS NOTED ON MARKET

Reports of Increased Rural Offerings in Various Sections Cause

CHICAGO, Jan. 25.—Heavy profit-taking sales on future delivery contracts here and reports various sections of the country gave the corn market today something of a setback. The result was that corn, wheat and oats all closed unsettled, corn 3/4 to 3/8c lower; May, 80 to 80 1/2c, with wheat 1/4 to 1/2c down; May, \$1.09 and July \$1.07 1/2, and oats varying from 5/8c decline to 3/8c advance. Provisions finished unchanged to 1/8c down.

The stubbornness with which the corn market absorbed profit-taking sales led to a conclusion in some quarters that a broader buying demand was apparent than had been generally supposed. On the other hand, for the first time in quite a while the primary receipts of corn were larger than was the case a year ago, and there was much interest shown in the fact that a leading trader here who has been talking bullish for weeks went over today to the bear side. Other authorities, however, expressed the opinion that reaction was transient and was to have been expected in view of numerous uptrends of late.

Bulls in the corn market pointed out that although there had been some increase in country offerings and of reassignment notices the grain was largely going to south-western markets which were outside Chicago.

It was contended also that from present prospects the winter accumulation of corn at Chicago and at other visible supply centers would be the smallest in years.

Wheat was weakened by reports that France had cancelled some small purchases. Seaboard clearances, though, were large, more than 1,000,000 bushels, chiefly Canadian grown.

Selling by packers and commission houses eased provisions.

ELECTED 1924 CAPTAIN

Edmund B. (Whitney) Taylor of Lima, Ohio, 19 years old and the youngest player on the Annapolis football team, was elected captain of the Navy team for this year.

Bible Mission Purchases New School in Minnesota

EUGENE, Or., Jan. 25.—The International Bible mission, an Oregon corporation composed largely of those interested in the Eugene Bible university, a school maintained here, by the Christian or Disciple denomination, today announced the purchase of the grounds and buildings of the Minneapolis Bible school at Minneapolis, Minn., an institution similar to the one here.

Dr. E. C. Sanderson, president of the Eugene Bible university and head of the International Bible mission, closed the deal today, according to a telegram received from him at Minneapolis.

The Minnesota school was established 12 years ago.

A normal man is one who wonders iritably what became of last month's income.

Trying to keep up with the neighbors is a fine way to get behind.

RHUBARB MAKES FIRST SHOWING

Local Markets Showing it in Good Quality and at Reasonable Prices

Rhubarb, plump and crisp, is the newest arrival on the market and as the first hint of coming goodies of the spring is welcomed by the housewife just a bit tired of the winter fruit and vegetables obtainable for so long. The rhubarb is of fine quality and sells for 25c a bunch and is proving more than popular.

Fruits are limited just now to oranges, apples, grape fruits, all of which are just now of splendid quality. There are of course besides the great variety of canned fruits, dried fruits and those preserved in other forms. Vegetables are becoming more numerous each day with the moving northward of the source of supply. Greens are available in increasing supply and include the spinach and mustard greens all of which are very popular.

While radishes are available these are not of the crisp spring variety which will soon make their appearance on local markets. Celery hearts just now are of special good quality and are available in more than the usual quantity.

Each week brings its new additions to the available supply of fresh vegetables and fruit for the family table and as the stock becomes available the Salem markets and grocers provide the desired article.

Oregon Has Twice as Many Deer as Washington State

PORTLAND, Ore., Jan. 25.—Oregon has 20,000 deer in her national forests and there are 25,000 in the forest area of Washington, according to game census figures completed today by officials of the forest service. Washington has 8,000 elk and Oregon has 2,000.

There are 8,000 black or brown bears in Oregon and about 7,000 in Washington is disclosed in the annual census, compiled after estimates from forest rangers and lookouts were received. Washington has approximately 2,000 mountain goats and a few

PRODIGY NOW A CLERK.

At the age of 2 William James Sidis could read and write, at 7 he passed the Harvard medical examinations in anatomy, at 11 he lectured brilliantly on the fourth dimension before a class of Harvard professors, at 25 he is discovered a \$2 a week clerk, earnestly seeking to "put something aside for a rainy day."

mountain sheep. Oregon has practically none of either.

The figures are for 15,000,000 acres of forest land and include the sections where wild animals are found in greatest numbers.

The income tax blanks are being mailed. Insane asylums should be sweeping out padded cells.

When the political pot boils there is always lots of smoke.

Harry Wenderoth Leaves To Be Hospital Manager

Mr. and Mrs. Harry Wenderoth have sold their home on North Winter and expect to leave for North Bend February 1, where Mr. Wenderoth has accepted a position as business manager for a Marshfield hospital. Mr. Wenderoth has been connected with the Ladd & Bush bank for the last 18 years. The hospital is owned by two of Mrs. Wenderoth's brothers. Her parents also reside in that city.

Mr. Wenderoth has been active in Salem otherwise than in business. For several years he has been manager of the Salem baseball team, and it has been largely due to his ability that Salem has turned out a winning team for several seasons.

BANK ELECTS

SILVERTON, Or., Jan. 25.—(Special to The Statesman)—The annual business meeting of the directors of the First National bank of Silverton was held this week with the following results: President, T. P. Risteigen; vice president, Julius Alm; second vice president, T. T. Risteigen; cashier, E. R. Adams; assistant cashier Ida Winslow.

It is hard to grasp an opportunity with both hands in your pockets.

Yakima Truck Driver Suffers Cracked Skull

YAKIMA, Jan. 25.—Caught under a heavy gravel truck when it went over a steep grade on the Naches-Tieton road 12 miles from Yakima, Frank B. Higley of Yakima, 35, driver of the machine sustained a cracked skull which may prove fatal. Higley was a county road work-

er and was sanding this dangerous spot on the road when an accident had occurred two days ago. Late tonight he was still unconscious after an operation to remove pressure on his brain from his crushed skull.

LUMBER MEN CLAIM 1923 GOOD YEAR

(Continued from page 1.)

"Perfect coordination of all our transportation equipment, highway, waterway and railway, is especially vital to the Pacific coast which must ship its surplus product to far distant markets."

A. C. Dixon, retiring president of the association in an address stressed the question of reforestation as one the United States, generally, and the Pacific coast must face immediately.

Getting up before hubby is a fine way to keep in pocket change.

Bill Hayward to Begin Track Training Today

EUGENE, Or., Jan. 25.—Track work in competition events will start in earnest tomorrow at the University of Oregon, according to announcement today by Bill Hayward, track coach, and will continue every Saturday until the final grid starts for conference matches in the spring. The team will largely be picked from the men who compete in these events, said Hayward, and men reporting after this week will not be placed on the squad. The results of the competitive meets will give the trainer a definite opinion as to the individual merits of the men and he will be able to pick his teams accordingly, he said.

Piggly Wiggly

Is the most systematic method of food distribution yet conceived. Unnecessary waste and careless methods have been eliminated and this savings is passed on to the consumer. The thrifty housewife recognizes and appreciates the real service of Piggly Wiggly—that of making it possible for her dollar to perform its full duty. Food constitutes the largest single item of expense under necessities—it is in this item that the greatest saving or the greatest waste may occur.
