R-A-D-I-O

By F. S. BARTON You have noticed that the air has been full of "Roses of Picardy" lately? One patriotic citizen unclamped his earphones to ask -how about Oregon roses?

Radio dead spots will soon be

Radio is all right of course but -if it were not for his huge radio audiences, George Olsen and his orchestra from Portland would not be so besieged and beset by irate Oregonians denouncing them for allowing themselves to be advertised as a Ziegfield attraction brought to New York from California. Mr. Olsen has a perfect right to sue his employers for libel and slander, we hope he doesn't let them off too easily. Meanwhile this popular orchestra leader seems quite upset by the avalanche of remonstrances from his radio friends and has insisted that the advertising be changed to name wo compartments, and illuminative | Oregon as his home state, where ever such a change can be made.

extinct, or-if our wires appear crossed-let us put it this way; the deadest spot in the United States is now alive and listening to everything from bedtime stories to the last request number on the dance program. The February Radio Broadcast contains an account of how Mr. Marksheffel brought the first radio program to Bright Angel Point on the north rim of the Grand Canyon. The government as well as private individuals had failed to get results at this point chiefly because the static drowned out the broadcasting but Mr. Marksheffel turned the trick with his big spiderweb aerial and special apparatus.

Some one wrote recently about the latest "ingrowing" circuit. He

more Ford cars and trucks were produced last year than the previous year, an increase of over 50 per cent.

In spite of this tremendous increase in production, it was impossible to meet delivery requirements during the spring and summer months when orders for 350,000 Ford Cars and Trucks could not be filled.

This year winter buying for immediate delivery has been more active than ever before—and in addition 200,000 orders have already been booked through the Ford Weekly Purchase Plan for spring delivery.

These facts clearly indicate that the demand during this spring and summer will be far greater than ever, and that orders should be placed immediately with Ford Dealers as a means of protection against delay in securing your Ford Car or Truck or Fordson Tractor.

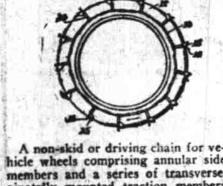

Ford Motor Company

A small deposit down, with easy payments of the balance arranged, or your enrollment under the Ford Weekly Purchase Plan, will put your order on the preferred list for spring delivery,
