CHAIN STORES TAKE OPTION ON PRUNES

Oregon Growers Given Order for Distribution Through-out System

One of the largest chain store systems in the country, operating 9000 branch houses throughout the United States, has taken options on sufficient quantities of carload shipments of 40-50 Oregon prunes at 6 1/4 cents a pound to distribute throughout the system, according to an announcement made at the offices of the Oregon Growers Cooperative association yesterday upon receipt of word from Robert C. Paulus, general manager, who is now in New York City. Under the terms of the option the chain stores will retail the fruit throughout their organization at three pounds for 25 cents.

"The Oregon Growers have been endeavoring to get prunes to the consumer at a reasonable retail price," Mr. Newhouse, acting general manager, said yesterday. "Through the present deal we believe we are making progress toward the solution of the problem that has confronted the organization. Prunes have not been moving to consumers because they have had too high a retail price in the east, which has been out of proportion to the amount received by the grower for his fruit. This option means that Oregon prunes will receive a wide distribution in the avenues of retail consumption and one of the most extensive ever accorded Oregon fruit."

The chain stores which have an option upon the Oregon Growers product throughout the east, middle west and south, fairly covering this vast territory. The deal is expected to be of great assistance in cleaning up the present season's crop and to clear the way for the 1924 crop.

Denial that the Growers had sold prunes for less than the 6 1/2 cent option price was made by Mr. Newhouse.

TAX REVISION IS BEING CONTINUED

(Continued from page 1)

Plan compromise fixes a maximum surtax rate at 37 1/2 per cent instead of 44 per cent now in the bill, and decreases the normal rate on incomes below \$4,000 to 2 per cent, the rate now in the bill but would make it 6 per cent above that amount. It would allow no increased exemptions.

However, both Representative Garner of Texas, leader in the democratic tax fight, and Representative Nelson of Wisconsin, republican insurgent spokesman, insisted the compromise will not be adopted.

WANT VOTE TUESDAY

Delay already encountered in the debate on numerous minor amendments few of which were up for a final vote by next Tuesday.

An effort to reach the estate taxes late today was blocked when Representative Jones, democrat, Texas, made a point of no quorum after losing a vote on an amendment to limit to two instead of four years the period within which additional taxes may be assessed by the government.

Estate taxes will probably be taken up tomorrow. Representative Frear has served notice also that tomorrow he will propose reenactment of the excess profits tax.

DEMOCRATS HAPPY

TOPEKA, Kans., Feb. 22.—(By The Associated Press.)—Harmony was restored to the democratic fold in Kansas tonight after the appearance of a breach in the statewide meeting earlier in the day that presaged an open fight between the forces of Governor J. M. Davis and Sam Amidon, democratic national committee leader of the McAdoo supporters in Kansas.

Following Governor Davis' address at tonight's annual dinner of the Kansas democratic club, a resolution was adopted absolving Mr. McAdoo "from all taint of the recent oil scandal," and giving Governor Davis the unqualified support of Kansas as a candidate for the democratic nomination for president.

The successful plane wing is convex on both sides; but that is also true of the successful business man.

Bachelors to Get Dope On How to Pick Wives

NEW YORK, Feb. 22.—Bachelors will be taught how to select the right kind of wives in a six weeks' course at the Brooklyn YMCA, Carroll M. Gibney, director of educational activities, announced today.

The course will give the single man, Gibney said, a knowledge of the economic, physiological or psychological aspects of marriage as well as training in the care and education of children.

Earnest scholars only are eligible for the instructions.

OFFICERS PUZZLED

CLEARWATER, Fla., Feb. 22.—While officers watching Frank McDowell, 19, confessed slayer of his mother, father and two sisters, asserted their belief that the youth was simulating insanity in an effort to escape the consequences of his crimes, McDowell advanced the theory of a "Dr. Jekyll and Mr. Hyde" dual personality as the basis for the murders. Asserting his remorse, he declared he had "never planned any killings at all."

STRA WHAT BLAMED

ST. LOUIS, Feb. 22.—Hay fever and asthma patients who are at a loss to explain the regular recurrence of their ailment, may find that the source of their troubles lies in a panama hat, a watermelon, duck feather or other things not commonly known as disease carriers. In explaining how the sensitiveness which produces such ailments varies, Dr. W. W. Duke of Kansas City, Mo., addressing the closing session of American congress on internal medicine here today, enumerated many possible sources of irritation, and advised physicians to experiment with the patient afflicted.

PLAN DRIVE

YAKIMA, Feb. 22.—Plans for a sugar beet drive to sign up 1,000 acres in and around Yakima were launched tonight at a conference held between officials of the Utah-Idaho sugar beet company and the commercial clubs of Yakima and Toppenish. On Monday committees of three, composed of a land owner, a successful beet grower and a company expert will start a canvas of land owners. Returns to growers should be \$9 a ton next season, including the base price of \$6 a ton and a bonus of \$3 a ton, according to Paul Kirker, manager of the Toppenish plant. In 1923, growers averaged \$8.19 a ton.

"DARK HORSES" WIN

ASHTON, Idaho, Feb. 22.—Favorites gave place to dark horses in the Ashton dog 25-mile derby today. Oleott Zarn, 16, "The Kid," with an exhausted dog huddled in his sledge, swung down the hill and across the line the winner, forcing the veterans of the sport to be content with lesser honors.

The Montreal leaderless string came in a good fourth, thanks to the driving power of "Shorty" Russick, and the willingness of the dogs. "Smoky" Gaston, last year's champion, was forced to third, while Warren Cordingly placed next behind "The Kid." The winner's time was 2 hours, 22 minutes and 40 seconds.

The winter resorts have delightful golf courses for those who don't mind playing in mittens.

The ultra-conservatives in England are beginning to fear their worst hopes won't be realized.

Lionel Barrymore follows up his splendid characterization as Prince Lubimov in "Enemies of Women" with a clever portrayal of a vibrant American aviator in "Unsettling Eyes." Cosmopolitan's spectacular melodrama of life in the Canadian Rockies.

COLLEGE IS HOST FOR HIGH SCHOOLS

OAC Entertains Students From 111 Towns at Big Conference

CORVALLIS, Or., Feb. 22.—With a registration of 832 students and faculty members from 111 high schools of various parts of Oregon, a state educational conference and exposition opened at Oregon agricultural college here today.

Sessions will continue tomorrow and it was expected that the registration will be increased for the second day.

The conference was opened by Dr. W. J. Kerr, president of the college. Thomas Merkle Clark, dean of men at the University of Illinois, and Dr. Glenadine Snow, physician to women at the Michigan state normal, gave the main addresses.

ROAD TAX CUT

YAKIMA, Feb. 22.—In response to demands for tax reduction Yakima county will spend \$221,024 less for road work in 1924 than in 1923 according to a program for 25 miles of graveling and 1 1/2 miles of paving outlined by the county engineer today. The total budget is \$473,810 to be spent by the county, including new construction maintenance and one new steel bridge. Most of the new construction is in "feeder" roads into farming districts with only one short paving job near Selah.

STRIKE UNSETTLED

LONDON, Feb. 22.—(By the A. P.)—The confidence felt yesterday of an early settlement of the dock strike changed to renewed apprehension today when it was learned that the decision whether to accept the terms which the employers offered had to be referred to the strikers them-

Various Countries Seek To Reverse Hours of Labor

GENEVA, Feb. 6 (Mail).—Official statements issued recently by the international labor bureau showed the tendency in various countries to revise the hours of labor. It was noted that in Belgium a bill has been introduced to amend the existing eight-hour law limiting the restriction to actual hours of actual work.

In Germany, it is pointed out, the eight-hour day remains in principle, but provision is made for exceptions, and in some industries, notably in the Ruhr, a prolongation of hours of work is already in operation or on the point of acceptance, despite some opposition by the workers. In Denmark, the question of slightly increasing the hours of work is being discussed.

On the other hand, says the labor office, word comes from Bulgaria that the government is gradually extending the application of the eight-hour law.

SWIMMERS CUT ICE TO RACE

WARSAW, Feb. 5 (Mail).—W. Trat, police inspector of Warsaw, defeated W. Olaszewski, Warsaw correspondent of the Chicago Tribune, in a 25-yard swimming race recently. The contest took place in the frozen Vistula, the ice of which had to be cut for the race. The thermometer registered four degrees below freezing. Mr. Trat covered the distance in 15 seconds, half a second ahead of his opponent.
