FATHER OF NATION LAUDED BY PIERCE
Governor Tells Lions Club of Characteristics of George Washington

"This is a day of significance, for 192 years ago today there occurred the birth of George Washington, who in later life advocated a policy of square and equal justice and absolute honesty in public affairs," declared Governor Walter M. Pierce, in speaking upon the life and characteristics of the Father of His Country at the Lions club luncheon Friday. Governor Pierce did not deliver an address but gave an informal talk upon the first president of the nation that was thoroughly enjoyed by all.

"It was courage and common sense that made him the hero of his early military expeditions," the governor continued. "It was through his foresight and character that there resulted the birth of a free country."

In commenting upon the Revolutionary war, Governor Pierce pointed out and explained why it was not a popular war. None of the wealthy people welcomed the conflict and it was decided by traders and ship owners because of business reasons. The conflict was characterized as a war of factions. Even in England there was an element of sympathy for the colonists and the idea that a nation could govern itself, existing down through ages, made the English anxious to see the test put into actual practice. Governor Pierce declared Governor Pierce contrasted the Revolutionary war to the world war, which saw one man out of every 25 population in the service. During the initial struggle the percentage was one man in 100 population. England had to resort to Hessians, which were hired to fight her battles.

"The real general is he who can fight and lose and then gather his remnants together and fight again," Governor Pierce said in closing. "This trait was possessed by Washington. He was not a partisan and though a sepiatistocrat by birth and made a wealthy man through marriage, he placed the ablest men in his cabinet regardless of party affiliations. His policy almost shames us in these disgraceful days in which we live and present conditions at Washington. George Washington was the most marvelous man who has appeared upon the earth since Jesus Christ. Truly he was 'first in war, first in peace and first in the hearts of his countrymen'."

Leslie Springer was the soloist at the luncheon, singing "My Own United States," with Miss Betty Bedford as accompanist. C. K. Logan presided as chairman of the day.

Fruit Trees Blooming
EUGENE, Feb. 22.—Early fruit trees are blossoming in Eugene. The mild weather of the past few weeks has caused the buds to swell rapidly and on at least one tree in the city, and perhaps others, the blossoms have appeared.

Elmer McBe, who lives on Washington street between 20th and 21st avenues, has a red plum tree that always blossoms early and now contains hundreds of white blossoms, the first of which appeared during the early part of this week.

Buds on nearly all kinds of trees are further advanced at the present time than they have been at this time of year for a number of years past.

FORCE LOCKS ON TUT'S TOMB TO GET INSIDE

LUXOR, Feb. 22.—(By the Associated Press).—After remaining closed nine days, the tomb of Tutankhamen was forcibly opened today by the Egyptian government. A guard of soldiers was drawn up and many tourists were present.

The minister of works yesterday ordered Pierre Lacau of the Egyptian antiquities department to open the tomb today and great excitement prevailed at Luxor. It was known to everyone that Howard Carter, representing the Carnarvon expedition, would not surrender the keys to the locks which secured the doors of the tomb, and that the government officials must, therefore, cut the locks to gain entrance.

Mr. Carter not having replied within the 48 hours specified to the ultimatum of the government, the cabinet cancelled the license originally granted to Lord Carnarvon and ordered the re-opening of the tomb immediately as it was feared that great damage might result through the ropes breaking and allowing the heavy granite lid, suspended over the sarcophagus, to fall, and perhaps irreparably damage the magnificent gold covered coffin within.

Locks Sawed Off.
M. Lacau, accompanied by M. Englebach, inspector of antiquities of upper Egypt, the governor of Kenah province, the mayor of Luxor, the chief of police of the district and native workmen with chisels, crowbars and hack saws, arrived at the tomb at 2:30 o'clock this afternoon. The workmen sawed off the locks of the outer and inner doors, thus permitting entrance to the tomb.

The electric lights were turned on and a careful inspection showed that no damage had been done. After covering several of the objects to prevent dust settling, the top of the sarcophagus was covered with thin boards, supports were placed under the lid, and new locks were attached to the doors, which were again closed.

The party then went to the tomb of Set II, which is being used as a laboratory and storehouse for the objects taken from the tomb. Here also the locks were removed and pieces of the shrine, which were more or less exposed to the weather, were employed in protective covers.

Carter Not Present.
Neither Carter nor any member of his staff was present. It is understood he has placed the matter in the hands of the courts to determine his rights, until which time nothing inside the tomb can be removed.

The tomb will be closed after

the public view, which it is expected the government will permit during the next few days, when about 2,000 persons will be permitted.

In the event of the failure of the government to adjust its difficulties with Carter it considers antiquity department capable of completing the work.

NEGRO EX-CONVICT AGAIN IN TROUBLE

Geo. Smith, Released From Prison Tuesday, Arrested for Crime

Willingness upon the part of Paul Johnson to dress and cooperate with the police resulted in the arrest early Friday morning of George Smith, colored, after the dark-skinned individual had attempted to rob his home. Mr. Johnson, a local merchant, lives at 455 South High. Mr. Johnson saw the man leave, got his automobile, notified the police and took up the search with Patrolman Walter Thompson, who made the arrest when Smith was found near Twelfth and State. The negro attempted to ride himself of a watch he had stolen from the home of N. L. Gamble, 1791 Lee. The watch was found by a street car motorman after Officer Thompson had inquired for the lost timepiece.

Smith was out of the state prison less than 60 hours before he was placed in the city jail on a charge of burglary. He was released from the penitentiary Tuesday after being confined to the institution since April 9, 1919, when he was received on a charge of burglary from Umatilla county. The colored man is a graduate of three penal institutions, having served time at Walla Walla, Wash., and Deer Lodge, Mont., prior to "doing time" in Oregon. Prior to this he was an inmate of Washington state reform school. Smith will probably be arraigned today. John H. Carson, district attorney, said Friday he would be charged with burglary.

Canby Fruit Growers to Construct New Cannery

Construction of a cannery at Canby will proceed, it was decided at a recent meeting of the fruit growers of that district. While the building will be constructed it will not be equipped this year, the fruit men having decided to build as fast as they can pay for the developments.

Strawberries will be barreled in the new building this season and the future cannery will be put to similar uses this year. It is expected the cannery will be in full operation next year. Until the cannery is operating, fruit in the district will be handled by the cannery at Carver.
