Contracts are Let for Dallas School Building

General contract for the new school building in Dallas was let this week to the Wagle-Shattuck construction company for \$57,155 with Rich & Ellis, of Dallas, receiving the contract for heating and plumbing for \$10,474.30.

The building will be constructed of hollow tile and reinforced concrete and is expected to be ready by September. Freeman & Struble, Salem architects, designed the building. There was \$79,000 available for the building and the remainder over the total contract price of \$67,629.30 will be spent for equipment and furnishings. The heating plant, in the old grade building will be installed.

Through the omission of an auditorium which in no way affects the construction of the building, there was a difference of \$1184.59 between the plans of the architects and the contracts. Ways of raising the money for construction of the auditorium are expected to be presented in the near future.
