A Quality Repainting Job Will Make Your Car Look Like New

Our Paint Department is specializing in the Lacquer Permanent Finish.

This finish is equal to an Enamel finish in lasting qualities and is applied in much less time than the old paint job.

It will not fade—ocean air will not affect it. It can not be scratched easily. In short, it is the most ideal finish to be found.

We also paint and varnish cars if you desire this class of work. Come in and see some of our finished work. It speaks for itself.
