OUT OF THE MUD AND DUST

Oregon is on the way to the time when she will be up out of the mud in the rainy

And away from the dust in the dry season On the best program ever adopted in the world's history-

And Marion county is ahead of all the counties on this coast, if not in the whole country, on the same program, with her paved market roads.

In Oregon, the men who use the paved highways with automotive vehicles, and who buy gasoline, pay for the roads; will pay for them-

And in Marion county we have the same program, with the additional item of a little direct taxation that goes for permanent roads instead of for summer fallowing dirt roads.

It is a great program. We are on our way.

DID YOU KNOW that the main repair and storage plant and testing and blueprint outfits and principal offices of the State Highway Commission are located in Salem; that this forms a basic industry for Salem, keeping here or reporting here at all times a large and increasing force of skilled men; that the Oregon system for building paved highways is the best ever devised, making for permanency; that the building and repairing of paved highways will go on through all the years of the future; gradually bringing to this heart and center of the system larger activities in many, many ways? (And, also, Marion county's paving and repair plants are in Salem, and growing).

**Next Week's Slogan** SUBJECT IS BROCCOLI, POULTRY, ETC.

On the Roosevelt Coast Highway in northern Tilla mook County at a point where the Highway follows closely the short line of the Pacific Ocean.

From War Department

An immense amount of equip- lars. nent has been received from the federal government under its policy of allotting to the states all surplus war materials and equipment that were suitable for road improvement purposes.

An endless variety of things has been received, the most important It would take all the space of an ordinary sized newspaper to enumerate the articles that have come necessary to have proper shop fa- work. E. F. Halik is master from the war department. The list would include almost everything used in the world war, in

> The state highway department now has on hand 280 trucks of all sizes, and 40 tractors, and numerous cars used for business purposes by the employees; mostly

> Some of the trucks, and other pieces of equipment have been received in the past few weeks. Road machinery has been received from Uncle Sam, running all the way from a light pump on up to a 20 ton crane.

The cost to the equipment department of the state highway department of the various pieces of machinery received from the federal government will run around 20 per cent of the original costs; the 20 per cent representing transportation and repair costs, in bringing the articles here and whipping them into shape for the various uses on our highways, in construction and repair work.

The original cost to the government of all this stuff ran up to around \$2,000,000; perhaps towards \$3,000,000.

Wiping It All Out

is gradually wiping out the whole cost of all this equipment and all Schucking, B. O., clerk; Fowle, the cost of these shops and their Hayward, clerk: Woods, George; machinery; by rental and repair clerk; Mercer, F. E., clerk; Reed values on the various pieces of Ruth I., clerk; Currie, Mabel, highway work. The slate will soon be clean.

Miscellaneous Items neer, in charge of the equipment department, is proud of the shops and the work under his direction. He takes pride in the improve-

Where such work does not inter-

fere with the regular work, the county court has assisted the var- used at Mt. Angel, having comious cities and towns with their paving work that was being done under ordinances, the cities doing the grading and the county doing the paving work at cost; thus many thousands of dollars have been saved for the taxpayers in such towns. The 1924 Program

The 1924 program calls for the completion of the work and will require the operation of four paving plants, one located at Salem, one at Stayton, one at Scollard and one at St. Paul-work being done on the Rosedale road, the Pratum road, the Coor road, the Macleary road, the Feeb'e minded institution road, the road east of Shaw, the Stayton and Mehama road, the Stayton and Marion road, the Turner and Marion road, the Woodburn and St. Paul road, the Hubbard and Meedy road, the Aurora an Donald road.

Besides work connecting up in Aumsville, Turner and St. Paul. paving work in which the county will assist the towns and cities by doing the paving at cost.

Such work will also be done in Salem, Stayton and Woodburn. Owns Much Equipment

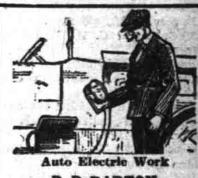

The county owns 30 trucks, large tractors, 10 steam rollers, 10 rock crushers and many graders, scarifiers, land levellers, and many smaller classes of equipment. Such of these as need renairs were brought into the county shops at the close of the working season last fall and have been overhauled repaired and put in good working shape for the spring work, which will commence in .earnest about the first of April.

All steam boilers owned by the

cific highway by the state nor the bureau of labor and any necessary paving in cities done under their repairs made in accordance with their instructions. Plant at St. Paul
