Leo Bayman's beautiful conception of radio is being reproduced in newspapers and magazines throughout the country. "The swiftness of thought," used to signify incredible speed but radio so

far outstrips our conceptions of speed that it would seem impossible to personify it. That is what Bayman has done however. One night when he was listening to radio broadcasting, the picture came to him of Radio flying from continent to continent and since he is a sculptor he has been able to preserve his vision in marble.

In radio circles a real friend is one who can look at a fellow's new set without bragging about how much better his own is; who can build a receiver in order to try out a new circuit; without boring his acquaintances to death during the process; and thirdly one whose care in manipulating his own set, so that it will not re-

radiate, is NOT exceeded by his peevishness when he finds a concert spoiled by the re-radiation of a neighbor's set.

Radio engineering offers a fascinating field for students at this time. A young man who is studious and persistent as well as enterprising can go as far as he likes, it would seem. Theoretical as well as practical knowledge is necessary to one who expects to climb to the top of the mast for radio stations are becoming a maze of technical complexities. With the bay five-wattor grown to a twenty-thousand-wattor, one can perhaps imagine what the rest of the apparatus must be doing in order to keep up with this growth in power tubes.

As an indication of the almost incredible increase of interest in radio during the past three years, the circulation figures of Radio News, one of the many good radio magazines, are of considerable interest. These publishers have a circulation of 300,000 a month. Stacking these magazines flat, one on top of the other, they figure that 300,000 copies would make a pile as high as seven Woolworth buildings placed on top of each other and then would overtop the

buildings by 700 feet. It takes 175 tons of paper for each issue.

Romance is not supposed to be found in a government dictionary. There must be a mistake somewhere for the call letters assigned to the sending station on board the Bowdoin of the McMillan expedition, are WNP. "Wireless—North Pole." To go back only a couple of grandfathers age when the banks of the Hudson were lined with spectators watching the Clermont making its famous voyage at a clip of five miles an hour talk of Wireless North Pole would have been sufficient reason for throwing the speaker into a padded cell.

The "Rolls-Royce of Radio," as Mr. Armstrong its inventor designates the superheterodyne receiving set, is bound to take a high, if not the highest place in the radio field. There are many inquiries made concerning the new Radio Corporation sets of this type that have been advertised for some time though so far, these sets are not on the market. As they require neither aerial nor ground it is expected that they will be favorites with those who desire the best in receiving sets.

Following Hazeltine's Neutrodyne circuit and Armstrong's Superheterodyne, a whole flock of "dynes" have appeared, a new one being immediately followed by a newer one. Each has its enthusiastic admirers.

We often wonder why Jiggs doesn't get Maggie a radio set. He appears to be overlooking his one GREAT opportunity.

Kay and Sharkey Will Play for Award Today

Rain or shine, the championship of the Illihee country club will be contested for by G. O. Sharkey and Ercel Kay, survivors of the semi-finals in the Washington tournament for the Anderson & Brown trophy when they meet on the Illihee golf links today. It is expected that they will be accompanied by a large gallery, as both are golfers of excellent ability.

All the fairways and greens are in splendid condition as a result of the warm days and recent showers and the entire course is covered with a luxuriant growth of grass. It is reported by Fred A. Williams, chairman of the tournament committee. The fairways and greens have been worked upon during the week and placed in fine condition.

While the date of the return tournament with the Tualatin Country club has not been definitely set, it is expected that this will be staged April 13. Mr. Williams said yesterday. In addition efforts are being made for interclub matches with other organizations in the Willamette valley.

Humor and Emotion Mingle in Pickford Film Now at Oregon

To retain the Mary Pickford poise and personality throughout the entirety of "Rosita," which is the bill at the Oregon theater today and tomorrow, and portray the highly emotional role of dramatic intensity is one of the greatest accomplishments ever demanded of any actress. And Mary Pickford does this fully in the production. The retention of her personality was accomplished through the strength of Miss Pickford's remarkable sense of humor, which has enabled her to enact heart-rending scenes of emotionalism, then, to relieve the tension created, immediately present a humorous touch to bring forth a smile.

The description of one scene between Rosita (Mary Pickford) and the King (Holbrook Blinn), during the making of "Rosita," may suffice to present the humorous side of a dramatic scene.

Rosita's voice is heard outside the door of the set, the door is opened. In dashes a beautiful young woman, her eyes blazing, her form aquiver with emotion. You feel the verve, the warmth, the high passion of her. Can this be Mary Pickford? You are electrified—thrilled by her dynamic anger. Chills run up and down the spine as she takes the jewels from her neck and throws them on the floor before the King. Next moment you feel the tears starting, as she pleads with the King for the life of her lover. The scene is over. A hushed awe of suppressed emotion prevails. But Mary Pickford would not be Mary Pickford without humor, too. She steals back into the set and, child-like, picks up the jewels she has so recklessly thrown on the floor. Just that human touch—that bit of humor had every one laughing—a laugh relieving the emotional strain.

BITS FOR BREAKFAST

Do you attend church?

The current Salem Chamber of Commerce Bulletin says the main question of the hundreds of inquiries coming to this organization are two leading ones: "Has Salem good schools?" "Is Salem a strong church city?" The folks thinking of coming west wanting to know if Salem is the right kind of place to bring their children—

So the pastors of 31 churches in Salem were sent a questionnaire, resulting in the information that the average total attendance at their churches is: Morning, 5,410; evening, 3,235; Sunday school, 4,188. The conclusion of the secretary is that of those over the age of 21 in Salem, 35 1/2 per cent attend church. Perhaps there are New England cities the size of Salem that in this respect make a better showing. But likely there are none west of the Rockies.

All the "whippers" or little threshers, nine or ten of them, will be going at the state flax plant by Wednesday; going night and day, and setting the seed ready for the farmers to sow.

One farmer over in the Dallas section has already been sowing flax. He has been using the pedigree seed, certified to by the Canadian government authorities. After this year, there will be an entirely new strain of seed in the Salem district—supposed to yield a longer fiber and more of it to the ton of straw.

Salem has been having a building boom for several years, and some people have thought each year of this would be the last. But the 1924 building record will be the greatest in the history of the city. And there is every prospect that this will be the story of every twelve months, for years to come.

According to that Washington telegraph code, "Apples are the designation for Secretary Fall. According to popular conception, an apple in the Garden of Eden was to blame for the original fall. Yes, we have no apples today

For the pleasure of Mrs. Asahel Bush, who returned last month from Paris, and of Miss Elizabeth Lord who arrived home from California recently, Mrs. William Burghardt, Jr., entertained charmingly at luncheon. Covers were placed for Mrs. Bush, Miss Lord, Miss Mabel Withycombe of Portland, Mrs. Clifford Brown, Mrs. Fred Thielsen and the hostess, Mrs. William Burghardt, Jr.

BOARD SUSPENDS INCREASED FARES

The public service commission yesterday suspended, pending a hearing and formal investigation the proposed increased streetcar fares of the Southern Pacific company in Salem and Eugene, which were to become effective April 22. The general increase attempted by the company was from 6 to 7 cents. The date of the hearing has not yet been fixed.

The suspension by the commission was on its own motion, although petitions are said to have been started yesterday by Fred W. Jobelman of Salem, to be presented to the city council demanding a hearing in the case. Jobelman asserts that the company is making money in Salem, but losing in Eugene, and that the proposed increase is an attempt to have the people of Salem assist in making up the losses at Eugene. Jobelman also filed a protest with the commission.

FAMOUS KOREX COMPOUND SENSATIONAL DISCOVERY NOW OBTAINABLE AT THE

Capital Drug Store

405 State Street

Salem, Oregon

Long Sought and Veritable Fountain of Youth Affirm Many Who Have Tested It—Enthusiastic Users Say Amazing Invigorating Effects Often Experienced in a Few Days

USED BY THOUSANDS THE WORLD OVER

SAYS RESULTS ARE WONDERFUL

Well-Known Drug Importer Adds His Praise to Statements Made Concerning Korex Compound.

Tacoma, Washington—"The quickest and most effective invigorator of its kind I have ever heard of in all my experience as a retail and wholesale druggist and drug importer," said George Todd, president of the Crown Drug Co., when asked for his opinion of the much-talked-of Korex compound. "My interest in the compound was aroused early last year," he says, "when I began reading statements and reports from all parts of the country about remarkable restorations to health and vigor reported by those who tested it."

Instrumental in Securing

Mr. Todd makes the statement that when he first asked the American distributors to supply him with Korex compound for his dealers, they were not inclined to grant his request. "I made a special trip all the way to Kansas City, to see the Melton Laboratories, who own the Korex formula," says Mr. Todd, "and convinced them that thousands of weary, prematurely old men and women would welcome such an invigorator for jaded nerves and sluggish circulation of the blood."

"It's now tremendous sale shows that I was right," he says. Mr. Todd was instrumental in bringing Korex compound to Salem, Oregon.

Korex compound may now be had in Salem, Oregon, at the Capital Drug Store.

Exclusive agency has been awarded this store by the Crown Drug Company of Tacoma, Washington, Pacific Coast Distributors of Korex.

All desiring to regain the vigorous and efficient alertness of their earlier years are invited to stop in and ask for full particulars about this wonder compound, which many affirm is the long-sought and veritable Fountain of Youth.

Tested by Thousands

Although never sold locally here before, it has been tested by thousands all over the world, and stories of remarkable rejuvenation as the result of its use have been told by users.

The weak and aged say that the vigor of prime manhood has been restored to them, quick relief from rapid decline has been reported by the prematurely old, sometimes in obstinate cases of years' standing, where all other methods and treatments had failed.

Women Report Relief.

Weary, worn-out women, old before their time, have reported blessed relief from suffering after they had become skeptical and practically lost faith in the efficacy of anything to help them. Because it is especially prepared to have an invigorating natural effect upon the lower spinal nerve centers and blood vessels, thousands have used it for nerve weakness, gland trouble, aching muscles, poor circulation, premature old age and weakness after the flu.

Korex compound is inexpensive and easy to take. It contains no deleterious habit-forming drugs. No operation is required. It is put up in tablet form in compact boxes, easy to carry in the vest pocket. Users say its beneficial effects are quickly experienced and are complete and lasting.

DISCOVERER OF KOREX RELATES ITS HISTORY

Based on Extensive European Medical Practice—Missouri Chemist Early Tested its Merits on Self and Members of His Family.

Kansas City, Mo.—Credit for discovering korex compound goes to H. M. Stunz, a pharmaceutical chemist, connected with the Melton Laboratories here.

Mr. Stunz has spent practically all his life in the drug business and says his original idea of perfecting a real invigorator originated while a student at Kansas University. After leaving college, he continued his research for the proper formula that would have the selective effect necessary to correct overstrained nerves and depleted energy. Finally, he heard of a European ingredient, as yet little known to American physicians, but used quite extensively by specialists on the Continent. The breaking out of the World War at this time cut off his opportunity to secure this potent ingredient.

A Hard Struggle

"Those were dark days," says Mr. Stunz, in commenting upon his early struggles. "My friends laughed at my efforts and pointed out that nothing of the kind had ever succeeded before. But I knew likewise that no formula like mine existed and that Korex compound would be an absolutely different invigorator once I was able to procure the necessary ingredients. "Time has shown I was right. In the early days I experimented with the formula upon myself and members of my own family and watched the results closely. Now my friends and family, as well as thousands of other users, testify that there is nothing like Korex for rebuilding energy and renewing the vital forces."

PRAISED BY CALIFORNIA PHYSICIAN

Declares Korex is Best Invigorator and Rebuilder Known

Commenting upon the many remarkable reports made by users of Korex compound concerning its efficacy, a Los Angeles physician says:

"I have been told of all kinds of capsule and tablet gland cures and all have been condemned, but Korex compound is without fail the best invigorator and rebuilder yet known." Adding to this, he says, "Results from Korex are quickly obtained."

Practitioner 40 Years.

This statement is from an ethical physician of standing in his community, with a practice of 40 years to vouch for his qualifications as an authority. It may interest thousands who would appreciate feeling alert and vigorous again.

Korex compound is neither a cure-all nor a so-called "gland" tablet. Its only claims of merit are the remarkable reports of invigorating results made by those who have tested it. If you think Korex is what you need, be sure to visit the Capital Drug store.

KOREX COMPOUND An Invigorating Tonic in Tablet form
