Timely Facts for the Home Owner BUILD YOUR HOUSE RIGHT AND SAVE ON THE UPKEEP

ARCHITECTS and builders all over the country are now urging more than ever before that the family about to build a home give special attention to the beginning to the use of materials that are not only attractive but durable as well. A new house built with roof, flashings, gutters and plumbing that cannot withstand the inroads of rust looks just as well in the beginning in its bright new paint but in a few years it must be rebuilt, part by part, to save it from utter destruction. When built with the counsel of experts who know how, and of materials that time and the elements cannot effect, it is permanent—really a home.

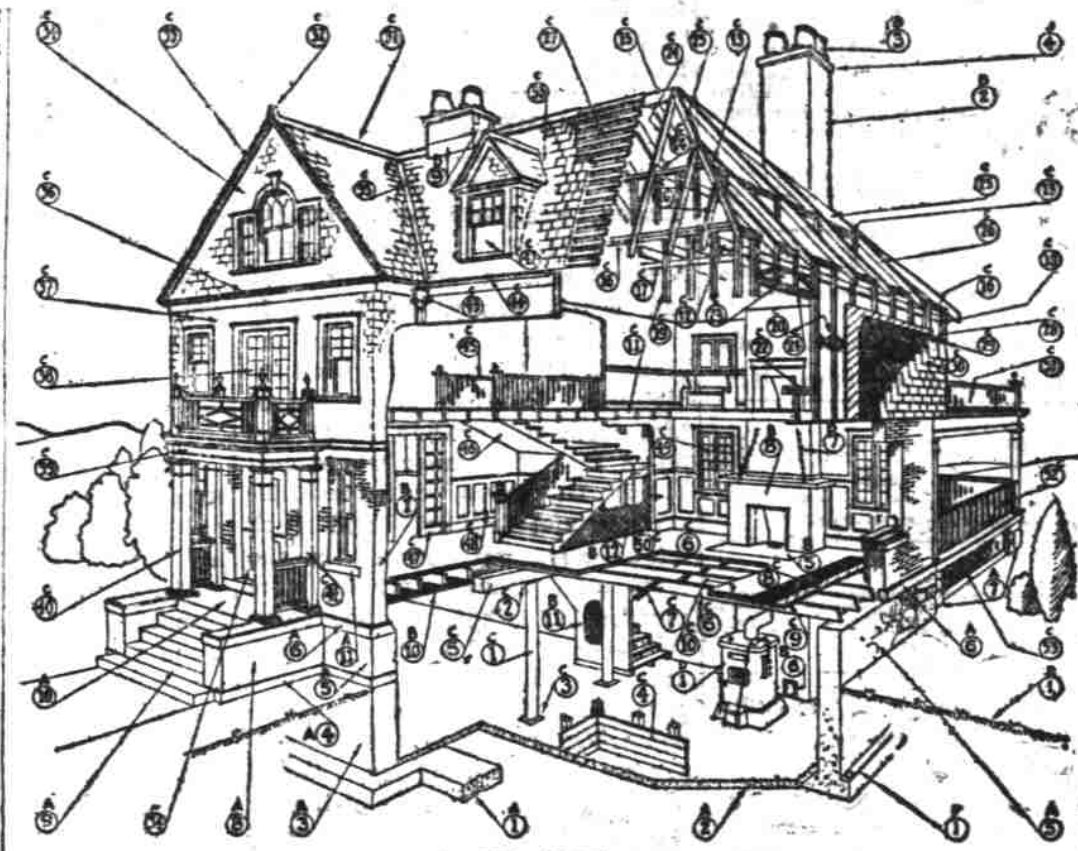

Here is the usual way each dollar spent in building a house is utilized:

- 26.1 cents for Masonry
- 23.1 cents for Carpentry
- 8.7 cents for Heating
- 6.5 cents for Painting
- 6.0 cents for Electrical work
- 6.0 cents for Plumbing
- 3.5 cents for Sheet Metal Work
- 2.9 cents for Roofing
- 1.2 cents for Hardware

200.0 cents = 1 Dollar

Arrange with the architect or builder exactly what you want before you begin, then there will be no heartburnings over the added cost of extras. And when your architect specifies copper flashings and leaders and brass plumbing pipe and hardware etc., remember that he is trying to build a home that will resist the elements and will not rust out and have to be rebuilt in a few years.

It matters less what type you

Porter Art Exhibit Is Seen By Silvertonians

SILVERTON, Or., March 29.—(Special to The Statesman).—Attracting a great deal of attention at Silverton was the Porter art exhibit given at the Eugene Field auditorium Thursday afternoon and evening. The auditorium was transformed into a studio by means of rugs, tables, chairs, day-ports and a profusion of spring flowers. On display were 150

prints of the famed paintings and art treasures of the world.

A short program was given at each showing. During the afternoon this consisted mostly of selections by the school children. Interpretations were made of many of the more important pictures, the stories and myths they suggested were told, and something of the artist and his life work given. The group of living pictures given both in the afternoon and evening was a particularly attractive feature of the exhibit.

In this little Dorothy Hood as "Baby Stuart," was very popular with those present. Other pictures in the living group were "The Age of Innocence," by Geraldine Gates; "The Dutch Flower Girl," by Margaret Keene; "The Gleaners," by Margaret Ross, Margaret LaMer and Mary Watson, and "The Song of the Lark" by Regina Newsbaum.

The evening program consisted of a piano selection by Miss Kathleen Booth; quartet by A. Borvick, O. Borvick, Jonah Hyberg and Tom Kaarhus, with Miss Marie Corhouse as accompanist; a musical reading by Mrs. Dorothy Fisher, a group of three songs sung by Mrs. S. E. Richardson and Tom Kaarhus, with Mrs. Gordon McCall as accompanist; violin solo by Miss Clara Durkee; a reading by Mrs. William McNeil.

A sum of \$50 was raised with which to buy pictures for the Eugene Field building. Mrs. C. W. Keene selected "The Dance of the Nymphs," by Corot, to present to the school.
