

GRAY BELLE GETS BIG BOOST IN PACIFIC NORTHWEST HOTEL NEWS; PRAISE ACCORDED

(From Northwest Hotel News) This good to eat to live and to enjoy good eats while you live. But that is not all. It is also good to eat amid pleasant surroundings where you are sure to meet some of your friends and receive a friendly hello from the proprietor.

decorative panels in variegated colors featuring the golden pheasant in its native beauty and its tropical surroundings. Across the front window is a deep valance caught up in loops with silk tassels and fringe and elaborate heavy lace curtains hang at the side windows, while another wrought iron flower box and stand is placed at this end of the room.

tribes and knows their children by their first names. It was just about nine years ago that Mr. Belle opened the Gray Belle in conjunction with a partner, since bought out by him, whose name was Gray. For several years he has had Mr. and Mrs. N. S. Smith to manage the place for him, and they have taken complete charge. Mr. Belle finds plenty to do around his place, for it is a big one and a busy one.

This restriction. Such a change might mean that ship owners would hire their operators on a basis of price rather than competency. That would almost surely be the tendency among the less responsible owners, whereas when it comes to picking up distress signals no radio man can have too much training and knowledge.

CITY NEWS IN BRIEF

(Continued from page 5)

Burglars Visit Physician

Prowlers who entered the office of Dr. William B. Mott in the Bank of Commerce building Friday night in search of narcotics found only two grains of cocaine to pay for their troubles. The robbery was discovered Saturday morning by the janitor, who notified Dr. Mott. The desk was ransacked but with the exception of 40 cents in change in a stamp drawer and a pair of small pliers, nothing was taken. An excellent imprint of a hand was found on a desk in the outer office and photographs of this will be taken. Entrance to the private office was made by using a "jimmie" on the door. As Dr. Mott does not keep any narcotics in his office, he is anxious to notify the general public of this fact in order to minimize the destruction to his fixtures. The office was robbed in a similar manner about three years ago. No other physicians reported a burglary to the police with the exception of Dr. Mott.

Freshman Glee Announced

Interest in the Freshman glee, an annual event at Willamette university, is keen. The event will be staged at the armory Saturday, April 5. The entire balcony will be open to the public while the lower floor is to be reserved. These reserved seats may be obtained from students attending the university. Songs of various classes will be sung and some keen competition is promised.

Nurse Won't Cost Much

That a Marion county health nurse will not prove burdensome to taxpayers is the contention of Mrs. Richard Cartwright, prominent club woman, who bases her opinion upon some interesting figures. The total valuation of the county is \$43,120,124, and the health nurse has a salary of \$1,800 a year. This is only 4 1/2 cents on every \$1,000. Mrs. Cartwright points out. The annual meeting and election of officers by the Marion County Health association will be held at an all-day meeting beginning at 10:30 o'clock Thursday, April 3. The meeting will be held at the Chamber of Commerce.

Camp Destroyed

Camp No 2 of the Spaulding & Miami Lumber company, near Grand Ronde, was destroyed by fire late Friday night, according to men returning from there yesterday.

Archbishops Hayes and Mundelein Leaving for Rome To Be Elevated To Cardinalate March 24

This photograph of Archbishop Patrick J. Hayes of New York (at right) and Archbishop George W. Mundelein of Chicago was made as they were sailing from New York on board the steamship Berengaria. Several thousand clergy and laymen were at the ship to bid the prelates Godspeed.

Veterans to Meet

The Marion County Veterans' association will meet Thursday at Woodburn.

PERSONALS

Al Bentz of Mt. Angel was in the city yesterday. George Griffith was in Albany Saturday attending a meeting of the state executive committee of the American legion. Mr. Griffith is vice commander of the state department.

Salem Annual to Enter

The annual staff of the Salem high school is asked to enter its annual in the Beaver annual contest for the best high school yearbook in the state. Members of Sigma Delta Chi, professional journalistic fraternity at Oregon Agricultural college, staged the contest last spring and so much interest was shown that it was decided to make the contest an annual affair. Last year a silver loving cup was awarded the Clifton of Salem high school, winner of first place, and five honorable mentions were named. This year, to give the smaller high schools a better chance in the competition two cups will be given, one to the annual judged to be the best published in a high school of less than 350 registrants, and the other for the winner in the larger division.

Candidate for Sheriff

Frank W. Covey of Woodburn yesterday filed his declaration of intention to be a candidate for the Democratic nomination for sheriff. He is the first to come out for sheriff on the Democratic side, although Oscar D. Bower and Ralph Thompson are both con-

H. Henderson at 1340 Madison street. His daughter, Mrs. H. C. Long, is also stopping over a few days in Salem on her way home back east. H. M. Levy is spending the week end in Portland. After being away from his office nearly all week on account of a cold which settled in one of his eyes, Dr. H. H. Olinger is expected back at his office tomorrow. O. H. Hording, debate coach at

Salem high school, returned from Eugene yesterday after acting as one of the judges in the University of Oregon-University of Washington debate, which was won by the latter by a unanimous decision. Nick Krebs was in Salem yesterday from Woodburn. Mr. and Mrs. Al Krause will motor to Portland today to attend a wedding of Mrs. Krause's sister. They will be accompanied by Leonard Krause and wife of Toledo, Burlington, who has been spend-

ishment known as the Gray Belle, the house with the friendly smile. In fact, this place would be a credit to a city of any size, for it is fully equipped to render the best cuisine to its patrons in an unassuming way that wins the confidence and good will.

toned cadet blue is used for all the woodwork with over glazing of olive green. Provides Variety in Service A part of the Gray Belle the casual passerby does not see is the Peacock Room, where the Salem women hold forth with their teas and other functions, lending a colorful atmosphere to the cosmopolitan establishment.

farming land. Many hotel men make the drive to Salem for an outing and invariably stop at the Gray Belle for luncheon or dinner and a friendly word with Mr. Belle and the Smiths.

The combined seating capacity of the Gray Belle, with its three divisions, is 250 persons. Entering the new dining room, the pleasing effect of the decorator's art meets the eye. On the wall opposite the entrance is a large mirror with leaded divisions and ornamental rosettes at the intersections. Below a handsome metal flow box with potted plants is supported by an iron stand with decorative scroll work, and on either side are torchieres with a cluster of candle lights equipped with parchment cylinder shades. The bracket lights and the two chandeliers are all in decorative wrought iron, equipped with bright red candles and parchment shades that throw a warm coloring on the tables and throughout the spacious room.

Nothing as yet has been said of the man who is responsible for this modern catering establishment. It is Claude Belle, a young man, an out-door man and a lover of the great mountains to the eastward. He has two consuming vocations, fishing and motoring. He knows the streams of Oregon almost from E to Election and back again. He has established friendly relations with several fish

The heart of the Gray Belle, the kitchen, is described by the Oregon Statesman, Salem, as being a plant of the latest design, sanitary and completely equipped with the best labor-saving machines. This kitchen is worthy of special mention, both in design and equipment. Its floor is of a composition material, impervious to moisture, fireproof and easy to keep clean. Space is provided for a refrigeration plant, a bakery where all pastries are prepared, a candy shop for the making of the Gray Belle sweets, locker rooms and rest rooms for the employees.

RADIO

By F. S. BARTON The total radio business in the United States for 1923 is estimated at 150 millions. Hold on, hold on, don't go off like a skyrocket after some of that business

until you add up the huge number of concerns that went broke. Then cast your eye over the long list of dealers and small manufacturers who have to put a minus sign before the figures that represent their net profits. Oh well, if you are still a chronic optimist, then go ahead and get it out of your system.

At present there is considerable agitation for and against doing away with the government requirement of licenses for radio operators. For broadcasting stations the need of licensed operators is not so apparent but it appears hardly conceivable that ship operators should not be subject to

"Fishing for the big fellows"—how those words of sonny's carried dad back to the dewy morning when the sun flashed its first rays on innumerable tiny weeds starring the grass along the path that led to the pasture; to the pasture bars where one let down the lowest one, then crawled the wait can in hand, after setting, snobbly fishpole carefully over on the far side; to the wood lot, the hill path and finally the deep, dark pool by the rock under the alder clump. Sonny never noticed how busy dad was, remembering, Sonny went right on telling the other fellow how he got in three regular eastern stations and one—I bet you it was New York, maybe! Only of course somebody had to batt in right then?

The development of trade terms is curious and often interesting. "Liquid Spaghetti" would probably catch the eye of a home-keeper at once. It is not a food, however. The small tubing made of rubber or other insulating material and used commonly for wiring radio sets is called spaghetti because of its appearance. Now along comes the Kellogg Switchboard & Supply company and makes a liquid insulation. No other word is needed to describe the product but in the last three years the radio public responds to the word "spaghetti" with a mental concept of radio and so the word connotes so much that it is retained in designating the new product.
