**BUILDING TOPIC  
OF McCULLOCH**

Bridge Engineer of State  
Highway Department Ad-  
dresses Kiwanians

Employing the Kiwanis club slogan of "We Build" as a text, C. M. McCulloch, bridge engineer for the state highway department gave a talk at the Kiwanis club luncheon Tuesday. Mr. McCulloch is a member of the organization. In prefacing his remarks Mr. McCulloch stated that on account of his profession he had a particular interest in the slogan.

"Building consists of other than material things," the speaker said. "The ultimate aim is not only better business, community and conditions, for upon this foundation only a building is unshakable. The structure should be founded upon an abiding faith, in the broadest sense. The greatest component of this is the stones of opportunity which is always knocking. The statement that opportunity knocks but once is one of the greatest fallacies in the world."

That opportunities present themselves constantly was demonstrated by the speaker by the many little acts that can be done during the day that will tend to make the other fellow feel better. A cheerful word, praise of deeds and work and appreciation and recognition for things that have been accomplished, he said.

"Do not be afraid of peddling a little judicious 'bull,'" Mr. McCulloch said, in closing. "Outline the program for the day upon arising in the morning and conduct your business in such a manner that no opportunity for personal contact may be neglected. Look back at night and see if you are better and the world is better for your having lived that day."

Mrs. Ward Willis Long was the soloist of the day, accompanied by Miss Ina Claire Love with a violin obligato, and Prof. Frank Launer at the piano. The reward of merit was given to Oliver Myers and was the gift of Harry Weiss. The reward was a ticket for "The Fool," at the Grand theater Tuesday night.

**Good Year Is Enjoyed  
By Presbyterian Church**

Authorisation of a committee on finances to proceed at once upon plans for raising \$100,000 for a new church building, with construction work to begin as soon as \$60,000 has been received, was effected at the annual meeting of

SOMETHING IS DUTY."**

the congregation of the First Presbyterian church Monday night. There was a large attendance, many coming for the dinner at 6:30 o'clock and remaining through the business session.

Reports from all the auxiliaries of the church were given and were the most promising in the history of the church, according to Rev. Ward Willis Long, pastor.

"It was the greatest year in the history of the church," Rev. Mr. Long declared. "Never have the number of organizations been as large and never have there been so many in these organizations. Gifts outside Salem approximated \$4,000, while the report from the Sunday school department showed an enrollment of 567. The same is all paid for and the board of trustees has around \$1,000 left over. The Ladies' Aid reported that they had raised more than \$1,000 for the building fund."

**POET IS VISITOR**

NEW YORK, April 1.—Dr. Robert Bridges, 80 year old poet laureate to His Majesty King George V of England, arrived on the Celtic today for his first visit of America.

The only race that seems to set a livelier pace in spite of a muddy track is a political race.

**TREE PLANTING  
ON HIGHWAYS**

Sherman, Columbia River  
and Pacific Routes to Be  
Shady Avenues

Tree planting along the public highways of Oregon has been inaugurated, and will be started on a big scale this season along the Sherman, the Columbia river and the Pacific highways, according to Roy A. Klein, state highway engineer.

Friday, April 4, has been made tree-planting day in Sherman county, and on that day trees will be planted along Sherman highway. Delegations will start from each town at 8 o'clock a. m. and the women will take lunches which will be served at De Moss park at noon, and speaking and community singing will also be held there.

Along the Columbia river highway there is a general tree-planting movement from Pendleton to The Dalles, according to a letter received by Mr. Klein, from Sam Boardman of Boardman. Dr. J. W. Donnelly will handle the details. W. W. Wilson, living three miles west of Rufus, will plant a mile of trees along his place. Organizations at Irrigon, Umatilla, Hermiston, Stanfield, Echo and Pendleton are behind the movement.

Along the Pacific highway the War Mothers of Portland and Salem have asked the approval of the highway commission to plant trees, and this will be given. These will be a memorial to the men who lost their lives in the World war.

**GOLF WINNERS  
ARE BANQUETED**

Kay and His Cohorts Hosts  
to Sharkey's Bunch at  
Dinner Last Night

Forty members of the Illihee Country club who participated in the captains' tournament last Sunday, and officials, dined at the Gray Belle last night at the expense of the losers, G. P. Sharkey and his team were the winners from the team captained by Ercei Kay. Fred A. Williams presided as toastmaster for the dinner.

Qualifying rounds for the "Good Friday" trophy will begin next Saturday and continue through the week, it was announced by Mr. Williams. This trophy has been offered by the Gray Belle, through Claude Belle. Several tournaments have been arranged for the latter part of this month and April, chief of these being a match with Albany, late this month; matches with Corvallis and Eugene; a return tournament with the Tualatin Country Club here; the ladies' championship for the Pomeroy & Keene trophy and the start of play for the directors' trophy and the presidents' trophy, which all begin next month.

In after-dinner speeches, Prof. W. S. Staley urged that everyone catch the 5:30 a. m. spirit; T. B. Gay spoke on "What It Is to Be a Golf Family"; H. H. Jhlinger announced that the greens were being conditioned and that it was possible to have the nine in playing order in another six weeks. Frank Elliott, of the landscape committee, told of setting out natural shrubbery and rees; Chester Cox, head of the handicap committee, suggested that more cards be turned in in

order that a better balanced handicap for each member might be obtained.

Dr. Griffith, credited with No. 3 in one and thus eligible to the "hole in one" club, will have to wait until his witnesses, George Brown, Dr. W. H. Byrd and Frank Elliott have been investigated and their information verified.

J. H. Farrar reported that the club grounds and properties are estimated between \$50,000 and \$75,000, and suggested that if the present membership fee were doubled for one year, the present indebtedness would be cleared up and the club in financial condition to put in an 18 hole course.

G. P. Sharkey, winner of the Washington tournament which began February 2, was officially presented with the Anderson & Brown trophy.

**FLAX THRESHING  
NOW UNDER WAY**

Operation Is Begun Anew  
After Handicap Caused  
By September Fire

Threshing of flax got under way at the state prison yesterday after a lapse of seven months, when the entire flax manufacturing plant, including all machinery and raw material, was destroyed by fire shortly before noon on September 15.

"The conflagration set us back at least seven months," W. W. Crawford, superintendent of the flax mill, said yesterday. "There are at present 1400 tons of raw material that must be got out of the way before the new crop begins to arrive in August. Farmers have already contracted 3,000 acres of flax with the penitentiary and at present we are short about 1,000 bushels of seed. As all the ground must be seeded by the latter part of this month, I expect to put on a night shift immediately in order to thresh sufficient flax to provide the farmers with the necessary seed."

All work is being carried on in the recently completed warehouse where nine machines for threshing have been temporarily installed. These will be moved inside the prison wall to the main manufacturing plant as soon as it is completed, probably in the next two months. After the machinery has been removed the warehouse will be used for its original purpose, that of a storage house only.

The machinery for cleaning the seed and grinding meal is nearly completed and the finishing touches will be made in a few more days. This machine is permanent and will be used in the warehouse after the other equipment is removed.

Of the nine machines in the warehouse, six of these were being operated Tuesday. These have rollers of each side making an equivalent of 12 machines in operation or when all are connected, a total of 18 single machines. Owing to the peculiar nature of the flax it must be passed through the rollers while perfectly flat, the rollers grinding the small pod releasing the seed, which falls on the floor. From there it is picked up and sent through the cleaning machinery. The straw is removed by hand and done up in bundles.

The new warehouse is approximately 80 by 200 feet and is built of brick, manufactured at the prison brickyard. All supporting work is of steel, as are the rafters and roof supports. Fireproof roofing covers the building with the exception of the immediate center, which is covered with glass. This is so designed as not only to permit natural lighting but to provide ventilation. The interior is painted white and is lighted by electricity. There are four sliding iron doors, two on each of the sides. At the north, the main entrance, there are two large double doors of the same construction. The floor is concrete. All of the concrete and brickwork is heavily reinforced with steel, making for a permanent building.

**Schissler Named Coach  
By OAC Board of Regents**

The board of regents of Oregon Agricultural college met here yesterday and elected Paul John Schissler, of Lombard college, Galesburg, Ill., as athletic coach for OAC, and elected W. A. Kearns of Oakland, Cal., as physical director.

Schissler has a record of being defeated only once in three years, and then by Notre Dame, university football team which is one of the Big Ten group, while Lombard is a member of the Minor College conference. Out of 869 points scored in the three years Lombard scored 800 and its opponents 69.

**Willamette Presbytery  
Meets at Independence**

Seven counties are represented at the Willamette Presbytery which opened at Independence Tuesday and which will continue today. H. E. Barrett, superintendent of the First Presbyterian church Sunday school is the official church delegate, while A. O. Condit, Elder A. H. Wyatt and Rev. Ward Willis Long, pastor, are

**Two Six-Hour Shifts Will  
Be in Operation Today**

Beginning yesterday the Spaulding Logging company will operate on a two six-hour shift basis in place of the two eight-hour shifts.

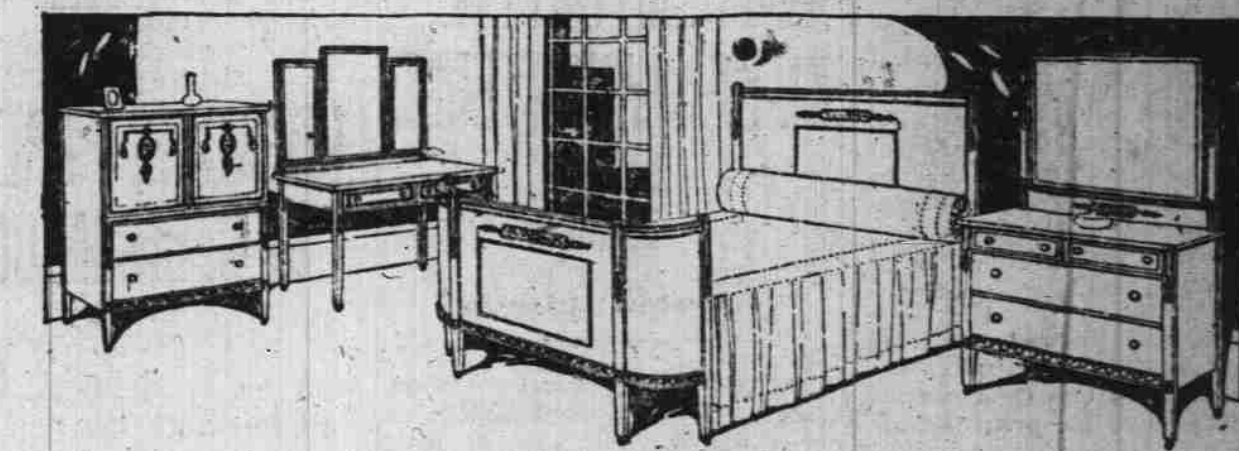

The first shift will begin at 7 o'clock this morning and will close at 1:45 o'clock. Forty-five minutes for lunch and changing of knives and saws will begin at 11 o'clock. The second shift which corresponds to the night shift, will begin at 1:45 o'clock and continue until 8:30 o'clock. A 45-minute period for lunch will begin at 3:45 o'clock.

Either the shifts had to be reduced or else the plant force reduced, according to Oliver Myers, manager, as the depressed condition of the lumber market made it impossible to continue on the old basis. The change is only temporary, he said, and as soon as conditions warrant, the old plan of an eight-hour shift will be returned. Had the length of shifts not been reduced the plant would have been operated on a one-shift basis of eight hours.

**HEALING CREAM  
IS QUICK RELIEF  
FOR HEAD COLDS**

Colds and catarrh yield like magic to soothing, healing antiseptic cream that penetrates through every air passage and relieves swollen, inflamed membranes of nose and throat. Your clogged nostrils open right up and you can breathe freely. Hawking and snuffling stop. Don't stay stuffed up and miserable. Get a small bottle of Ely's Cream Balm from your druggist. Apply a little in the nostrils and get instant relief. Millions endorse this remedy known for more than fifty years.—Adv.

**Bedroom Suite  
And Odd Piece Sale**

If you are thinking of buying a bed room suite or even an odd piece for the bedroom—this year—it will pay you to buy now. We have marked down all dropped patterns without a thought of profit—displayed in our west window are a few of the many values we have to offer you.

**C.S. Hamilton**  
GOOD FURNITURE

**Westinghouse  
Automatic Electric Range**

to be had until April 23 only on  
The Easiest Payment Plan Offered in This City

**\$15 Down**

the balance on easy terms

Why be a slave to a stove when you can have this wonderful electric range installed in your home for only \$15—and pay for it on easy terms?

You needn't envy any women who gain hours of leisure time through an electric range—when you can buy the famous range with the clock on such easy terms.

This offer lasts until April 23, and we hope you will take advantage of it

Come in and see for yourself how convenient, how simple to operate and how economical the Westinghouse is!

You needn't long for an electric range.  
This is the time to buy!

**This Is the Famous Range With the Clock**

It works for you whether you're there to watch it or not. All you have to do is set the alarm and the range automatically starts to cook when you wish it to—and when the roast or whatever you're cooking is done—it automatically stops!

Wouldn't it be fine to awake in the morning and have your cereal or biscuits all cooked—ready to eat? And think of the enjoyment of those afternoons out of doors or at matinees or with friends or shopping and coming home to find your roast or chicken cooked to a queen's taste—brown and juicy!

It is a well-known fact that electrically-roasted meats or fowl retain more of their original juices and do not shrink as much as roasts prepared any other way.

And, last, but not least, isn't it a pleasure to have the air of your kitchen sweet and clean and pure, unscalded by ill smelling fumes, and have your walls stay clean and fresh?

All this is possible with a Westinghouse!

The easy terms of this month's offer should place a Westinghouse in every house.

**FREE—A \$12 Electric Percolator**  
given absolutely free with every Westinghouse installed during this special offer. Come in and let us show you the range and percolator.
