

Metropolitan Opera Star Endorses Jazz As Educator of Public

Jeanne Gordon, Famous Singer, Points Out Value of Syncopation

New York City.—The public's musical taste has lately been rebelled, declares Miss Jeanne Gordon, Metropolitan Opera star, whom that same public has this year acclaimed. "People want not jazz, as critics say, but only melody," Miss Gordon insists. "Miss Gordon has had a strange and motor-like career. Five years ago she was singing in a Broadway motion picture house. Today she has played some of the most important roles the Metropolitan offers. She has had experience, therefore, with the public's reaction to all types of music. The idea that this is a century of jazz is all wrong," the charming opera singer asserts. "It is only a century of melody. Intellectual music is not making

The Willamette University men's glee club appeared last evening in successful concert at Waller hall, giving in conjunction with the gifted musicians of the Marguerite MacManus quartet a full and varied program of vocal and instrumental numbers in solo and ensemble. The quartet with able discrimination, opened the program with a Dvorak number, giving the "Quartet in F Major, Opus 96," through the allegro and finale movements.

In the first of the glee club number, "Wreck of the Julie Plante," Lloyd Thompson took the incidental solo. Other club numbers included Scott's "The Old Road," two Negro spirituals, "De Gospel Train" and "Heaven, Heaven," both arranged by Burligh; "Who Swallowed Jonah," a Negro folk song, and Mendenhall's ceremonial to Willamette.

Lloyd Thompson's solo, "Rolling Down to Rio" (German) was worthy of the encore demanded. Joe Nee's Scotch songs, which on both tours have been so popularly received were applauded in the same manner last night. Byron Arnold, in his Chopin number, "Etude Opus 10," displayed in a fine manner the extent of his pianistic training. Lloyd Waltz delighted the audience with his "Impersonations." The octet number, "De Sandman," was well given. Albert Warren's cornet solos are enjoyable additions to any program. Last night he gave Yradier's "La Paloma."

The string quartet gave a highly acceptable group of musical numbers in compliment to part two, choosing: (a) "Interlude in Ancient Mode, Op. 15, No. 3," Glazounow (b) "Nocturne," from "Second Quartet in D major," Borodine (c) "The Londonderry Air," (Irish Melody) Bridge (d) "Presto," from "Quartet D. "KEEP YOUNG," SHE SAYS ON 100th BIRTHDAY, AND HAS HER HAIR BOBBED

Mrs. Elizabeth Goodrich, the oldest resident of Monte Bello, Cal., is a staunch supporter of the fad. She does not fear for the future of the "much maligned" modern girl, who she declares, will be young much longer than her grandmother was. To show that she has faith in her doctrine, Mrs. Goodrich had her hair bobbed when she recently celebrated her one hundredth birthday.

A Plain Girl

Who made herself the rage of New York

Before me is my picture as a girl. Few girls would envy me my looks. But I made myself a famous beauty. And I've kept that beauty to a grand old age. I am still on the stage playing young girls' parts, and I still look a girl of 19. I have helped many girls to careers of beauty. To many women I have brought decades of added youth. So I am convinced that millions can attain the benefits I got. I am going to help them do it. Now I am placing at every woman's call the very helps which made me what I am. White Youth Clay. I found my greatest help in clay. Not in the crude and muddy clays so many still employ. My Youth Clay, perfected by French experts, is white and clean and delicate. It is a superclay, based on 26 years of scientific study. No other clay that I know is nearly so efficient. Youth Clay purges the skin of all that clogs or mars it. It brings that rosy afterglow which so amazes and delights. It firms the skin, combats all lines and wrinkles, reduces enlarged pores. Many users, in 20 minutes, seem to drop ten years. No girl or woman who once sees its results will ever go without it. The cost is 50c and \$1. My Youth Cream. My cold-cream is another French creation. I call it My Youth Cream. It contains products of both lemon and strawberry. Also all the best that science knows to foster the fine texture of the skin. You have never known a cold cream to compare with this. I apply it after my clay. Also as

Bethlehem's Faith In Its 70,000 Men Is Justified By Five Years Experience

Clinton Koch, Chairman, Employees' Representatives at Bethlehem Plant

Employee's Representatives At One of Bethlehem's Plants ONE of the most inspiring successes in American industrial relations, and an indication of what the future holds for stable progress along lines of intelligent co-operation between labor and management, has just been disclosed in a survey made of the past five years' experience of the Bethlehem Plan at the widespread plants of the Bethlehem Steel Corporation. Twelve years ago the company employed 11,000 people. At the present time the payroll force is in excess of 70,000. This force is distributed among seven great steel plants in Pennsylvania, New York and Maryland, seven great shipbuilding plants in Massachusetts, Maryland, Delaware, New Jersey and California. The survey brought out the fact that the 13 chairmen of the employees' representative bodies in 13 plants represent a total of 245 years Bethlehem service. This continuity of work in one industry together with the workings of the Bethlehem plan of employee representation has had much to do with the success of the past five years. Under the Bethlehem plan the workers individually and collectively in any plant are encouraged to make their own decisions. It differs from other similar plans in that elected employee representatives operating by themselves in touch through committees with the management, pass on every employment problem not previously settled satisfactorily by the regular plant authorities. For over five years the company has been trusting to the good sense and good faith of large groups of workers, many of them not-English speaking, and with the happiest results. It is the experience that over 88 percent of the employees take part in elections. The way the men who manage the great corporation and the workers who attend to its man-
