SANTIAM ROADWAY HAS INSPECTION

T. P. Flynn Looks Into Lotz-Larsen Road—Government May Aid

More than usual activity is obtaining in the Santiam river country, especially on the Little North Fork, where the Lotz-Larsen Mining company and other mine operators are busy speeding on to a place of production.

Several efforts have been made by different people during the past few years to solve the transportation problem.

A thrill of hope and enthusiasm was given those close in on the situation Tuesday, when the government forestry service sent T. P. Flynn of the Oregon-Washington district into the Santiam country with instructions to inspect the present road and place estimates on the cost of a road that would not only act as a safety road for fire protection on the forest reserve in the mountains back of the Lotz-Larsen mine, but one that would be of real service to the mine operators in the mineral district of the Little North Fork of the Santiam.

It is pointed out that under present and future methods of operating that fully 75 per cent of the results of the Santiam mining industry will be spent in the valley towns. Already with operations no larger than they are, the Lotz-Larsen company is spending hundreds of dollars every month in Salem, and other of the valley towns, it is claimed, in the way of supplies, labor, and other expenses.

The Loggers connected for five hits during the game, scoring three runs in the first inning on no hits. The Guards men annexed their five tallies in the second frame, when 10 men went to bat. Owing to Biddie Bishop being in Portland, Wilkie, of the Senators, umpired.
