Dirty little fingers that soil white paint

Their marks are quickly removed from woodwork painted with Barreled Sunlight

BARRELED SUNLIGHT is a white paint made by a special process which produces a smooth, lustrous finish that can be washed like tile. Dirt and smudges do not "sink in."

This paint costs less than enamel, requires fewer coats and is much easier to apply. Ideal for any interior surface where light and cleanliness are desired. Comes ready mixed in cans from half-pint to five-gallon size. Can be easily tinted where color is wanted.

Bear in mind that a surface rots or rusts if you do not protect it—and that MARSWELL'S PAINT is the greatest of all protectors.

Also bear in mind that a gallon of Marswell's paint will cover more square feet of surface than any other known brand. Years of experience have conclusively demonstrated that Marswell's paints contain the properties necessary to successfully withstand the peculiar climatic conditions of the Willamette Valley.

We specialize in Marswell's paint because it is the best paint made.
