## PRUNE UNITS TO BE CONSIDERED

Question of Local Organizations Comes Up After Exchange Plans

Following the formation of plans for the Northwest Prune exchange to market the crop of Oregon and a part of southern Washington to the extent of about 35,000,000 pounds, the question of individual community units, under this program, is to be actively considered.

Organization under the Oregon Growers' Cooperative Prune association is to be considered at a series of meetings next week in Douglas county. They were at Oakland and Yoncalla Monday and will be at Melrose and Umpqua today. Riddle and Canyonville Wednesday, Myrtle Creek Thursday, Looking Glass Friday and at Roseburg Saturday.

This plan calls for formation of a state-wide group to handle packing and sales. But the cooperative will become a part of the Northwest Exchange, so that both the individual community units and the cooperative itself will have the advantage of the joint selling plan, according to the program as now outlined.

In the last two weeks three conferences have been held here between Oregon and Clark county, Washington, representatives, together with marketing representatives of the chamber of commerce and agricultural college. From the differing views, due to different conditions, it was found that many difficulties would attend an attempt to unite the entire industry into one producing unit.

Organization of county or community units to handle the packing, under systematized supervision of a central group which would take charge of marketing and advertising was suggested.

The new immigration quotas are proposed to be based on the 1890 census. That is for the purpose of letting in the northern Europeans as fast as they want to come, if sound and sane and safe; but to exclude in large part the southern Europeans. The latter did not come in great hordes till after 1890.

## J. C. PENNEY CO. CELEBRATES ITS 22ND BIRTHDAY

Twenty-two years of service to the public was completed by the J. C. Penney company on Saturday, (April 12.) The company was founded in 1902 at a small mining camp in Wyoming and has grown to the indisputable position of the world's largest chain department store organization.

It was fitting that the company should give recognition to its birthday in some way and decided that the better way was to give another community the advantage and pleasure of economical shopping which this and several hundred other communities have been enjoying.

Hamilton, Missouri, was decided upon to be the home of the new store. It is interesting to note that Mr. J. C. Penney, whose name this great national institution bears, was born in Hamilton where, after the usual public school training, he secured his first mercantile experience in the same building and the very room where he now is opening store No. 500 in the great chain.

Associated with Mr. Penney in the ownership of the Hamilton store are 14 men all of whom were born in this Missourian town, and are now connected with the company as stockholders and managers in other places.

The store opening was the occasion of an enthusiastic homecoming, and was attended by Mr. Penney, Mr. J. M. McDonald and others of the company.

An announcement is made that nearly 100 additional stores will be added to this organization during the present year.

Another interesting announcement was that made the other day by Manager D. B. Jarman of the local store, to the effect that recently the company drew its check for over \$2,000,000 to the order of a single manufacturer of shoes. This colossal payment indicates something of the quality of different lines of goods required by this large combination of retail establishments.—Adv.

## Music Lecture Heard At Kiwanis Luncheon

Music is as much an art as poetry, painting and sculpture, and all are closely allied, according to Mrs. Harry Stiles, who spoke at the Kiwanis club Tuesday in observance of the national "Music week" movement. Music possesses all the characteristics and personality of the composer and if a

person understands music at all, these are easily recognized, she said. While in the past students have been urged to study abroad, America is beginning to pass foreign countries in its music. An excellent musical program was given by the Polymymnal sextette, which sang "Sweet and Low," and "Croon, Croon, Underneath the Moon." In addition to two encores. The personnel of the sextette was Mrs. Carlton Smith, Miss Gussie Niles, Mrs. Ira Darby, Miss Eva Ferree, Mrs. George Allen and Dr. Angle McCulloch. Mrs. Harry Stiles was the accompanist. In addition to this Mrs. Smith sang a solo. The attendance prize for the day was offered by Oliver Myers, and was won by W. W. Chadwick.

## 60 YEARS OLD LIKE BOY AGAIN

Elderly Man Describes Effect of Using Korex

"I was so disgusted with life in general, when I started taking Korex compound," says Wilfred Chadwick of Lawrence, Massachusetts, "that I did not care whether I cured or killed me. In four days life had resumed its cheerful aspect and work was easy to do once more. Two months after, at a veterans' picnic, I was able to do some stunts on a trapeze, and climbed the bar six times. Now I feel like a 16 year old."

Many other wonderful reports have been made by users of Korex concerning relief from premature old age, rapid decline, low activity, poor circulation, aching muscles and weakness after the flu. Those who wish to try Korex compound may now get it in Capital Drug Store at 405 State street, Salem, Or. This announcement comes from the American distributors of Korex compound, 546 Melton Bldg. Kansas City, Mo. Just ask for Korex.

**Hop Contracts Are Made By Brokers of Salem**

Five hundred bales of 1924 hops at 20 cents a pound for the London market is reported by Durbin & Cornoyer, local hop brokers, pointing to activity upon the part of hop buyers. Louis Lachmund has contracted with D. P. McCarty, of Independence for the next three years at a price of 21 cents.

Strauss & Co., of London, are in the market, buying on a three year basis including 1924, paying 20, 19 and 18 cents for the respective years on a four year basis, paying 17 cents for the fourth year.

Hops in Mission bottom are looking fine at present, according to Ed Biehn, of the Oregon Growers, who looked over the territory Sunday. Tying is nearly completed at present and some of the hops are between a foot and 18 inches from the ground.

All of the dried loganberries will soon be moved

All of the dried loganberries on hand will be moved before the new crop is ready, according to John H. Race, of the Oregon Growers. He also believes that the fruit will be selling at an advance over present prices before the pack is moved out of the present holders hands. He bases his opinion upon

the fact that there is a good demand for the fruit at present, while the prunes are also moving. Mr. Race recently spent several weeks on a selling trip through the middle west and Canada.
