## FROM SALEM TO TILLAMOOK COUNTY BEACHES

Complete information, giving distances to all points and the road conditions, also giving full information to the pleasure seeker as to where he may find what he wants.

**L**OG as registered by Statesman Scout, distances taken from speedometer readings. Leaving Salem from corner of Commercial and Chemeketa streets and crossing the bridge that spans the Willamette river; entering Polk county and enjoying paved roads as you travel westward, you arrive at Rickreall, which is just 10 miles from Salem.

From Rickreall take the west side Pacific highway and travel north to Amity. This road is all paved with the exception of a quarter mile where the road crosses the Southern Pacific electric line. Amity is 23.4 miles from Salem. At Amity you have your choice of travelling 14 miles by pavement or 6.6 miles by gravel road to Bellevue. If you wish the pavement route, head straight north on the highway from Amity for 6 miles where a paved road forks to the left. Distance from Salem 29.6 miles. From here you travel west for 8 miles to Bellevue. If you wish to take the shorter but gravel road from Amity, turn west and you will find a fair gravel road which will lead you to Bellevue, which is just 20 miles from Salem. This is the more direct route and all distances from Salem to the coast will be figured by this route. From Bellevue to Sheridan a distance of 4.4 miles there is excellent pavement. On entering Sheridan you cannot help but note the sign: "You Name It—We Grow It." Sheridan is 24.4 miles from Salem.

**MUSIC IS AN ESSENTIAL PART OF FARMER'S LIFE**  
That music plays a prominent part in life on the farms in the Middle West is indicated in a survey recently compiled by "Hoard's Dairyman," an agricultural publication with wide circulation. The magazine gathered the statistics from 5000 subscribers in nine leading agricultural states of the Middle West is indicated in a survey that pianos are in 44 per cent of the rural homes in that territory, and that 13 per cent have player pianos and 40 per cent phonographs.  
Other statistics covered in this survey show that 69 per cent of the farms have automobiles, for which 87 per cent paid cash. Thirty-three per cent of the subscribers have typewriters and 45

per cent use printed stationery. Of this number 77 per cent subscribe to one or more magazines. Electric lighting plants were part of the equipment of 20 per cent of the farms. The average monthly cream check of these 5000 farms was \$191.91.  
Another illuminating fact that this survey brought out was that 92 per cent pay bills by check.  
This survey did not include radio statistics, but it is believed that the figures would be very high, as radio is regarded by the farmer not only as a source of entertainment but also a profitable business investment since market reports are regularly sent through the air. In spite of radio, the farmer has not forsaken his piano, player and phonograph. Sales at music stores serving the rural communities in that territory show that

**SWEDISH RADIO NEARLY READY**  
(By Mail)  
GOTHENBURG, Sweden, May 1 —Sweden's transatlantic radio station, one of the largest in Europe, is receiving its finishing touches and will be opened within a few weeks. This station, which is capable of handling messages between Sweden and America in both directions simultaneously, has been in the process of construction for over a year.

People go to a lot of trouble they should keep away from.

**Swedish Mother Watches Progress of Flying Son**

(By Mail)  
STOCKHOLM, April 29.—Sweden's greatest booster for the success of the American round the world flight is a little white-haired old lady in Stockholm, who may be seen any day sitting in an avalanche of newspapers, with a pair of scissors in her hands, and a map of the projected route on the table. Late editions of the dailies come to her as soon as they are off the press, and she scans the cable columns for every scrap of news of the airmen and the progress of their undertaking. At times her eyes grow big with apprehension, but more often they sparkle with vivid satisfaction. It is because the high adventure is hers, too. She is the mother of Lieut. Erik Nelson, the engineer officer of the American round the world flight.  
"We expected Erik to become a sea captain," says the white-haired lady, "but we never dreamed that he would take to the air." Then she tells how Erik in his 'teens

went to sea for a number of years in Swedish and British ships, and how once in a storm off Cape Horn he dived overboard to rescue the mate who had been swept into the sea.

"If he comes back next Christmas," said Mrs. Nelson, with a light of mother love in her eye, "he will see that I had my eye on him all the time he was flying around the world."

Lieut. Nelson went to the United States 15 years ago.
