AMERICAN NAVY BELOW JAPANESE

Water Forces Declared Sadly Deficient in Time of Pacific Emergency

NEW YORK, June 3.—Rear Admiral Bradley A. Fiske, retired, in a letter to Secretary of the Navy Wilbur which he made public tonight called attention to the present comparative strength of the American and Japanese fleets for operations in Far Eastern waters, which he said was gravely misunderstood by the public.
"Possibly, if our people were told the truth about the naval situation they would not be as indifferent as they are to the diplomatic situation," the letter said.
"Of course, I do not mean to suggest," said the rear admiral, "that war is even possible; but nevertheless it may be pointed out that the Japanese and the Americans have taken attitudes that are irresponsible and that the Japanese have virtually broken off diplomatic relations giving their ambassador a 'vacation,' such attitudes and acts have usually preceded wars though they have not always been followed by wars."
Though the American people imagine, he said, that as a result of the naval treaty the United States fleet is superior to the Japanese navy in the ratio of five to three. "This is the reverse of the truth.
Even if the American navy were superior in capital ships, he asserted, it is far from being superior in that ratio in active personnel and it is far "inferior" in reserves.
"If Japan should go to the extreme of taking the Philippine islands and thus force us into war," the letter added, "we should find ourselves in a deplorable condition because of the lack of trained men, as well as of other requisites."

AMERICAN RUGBY TEAM IS BOOED AND MOBBED BY PARIS SPECTATORS AS IT BEATS FRENCH OLYMPIC TEAM

American players were hissed throughout a match in which the French team was beaten 17 to 3 at the Colombes Stadium, Paris. Several fights took place in the stands and altogether it was the most unsportsmanlike demonstration ever witnessed at an international sporting event. This photograph was made during an earlier Olympic Games match in which the team from the United States beat the Rumanians 37 to 6.

the possibility of any of the witnesses changing their stories later. Should they do so, he said, they will be charged with perjury and prosecuted.
The ransom letter addressed to Jacob Franks which was found yesterday in a Michigan Central steamer in New York arrived here today and the authorities said the aepwritting in this letter and in the first letter received by Franks the day after his son vanished, tallied in every detail.
The second letter directed to Franks to board a Michigan Central train, go to the back platform and toss the money out after passing a large black water tower on the east side of the track. The message was placed in a folder, rack in the car and was signed "George Johnson" the name used by Leopold and Loeb in their ransom negotiations. On the chance that some one else might find the note, there was an inscription on the outside of the envelope directing a chance finder to leave it alone and adding that the note was very important to the person to whom it was addressed.
