EDITORIALS OF THE PEOPLE

TO MR CARVER
Scotts Mills, Ore.,
June 10, 1924.

I ask space in your paper to say a few words in reply, and to ask one Mr. Will Carver, who, on the 4th of this month had an article asking to have the Statesman to make some corrections regarding the controversy going on between union labor and the Salem restaurants. First, what business is it to the state officials and union labor to say who the restaurant keepers of Salem employ. Where do the officials or union labor get their authority to dictate to those employers who they shall and shall not employ. The whole history of organized labor is paved with Death and Desolation, their whole motive and purpose is force and course. They have always favored crime—they have always stood ready to commit it if their demands, whether right or wrong were not approved. They are the enemies of law and order. They have always demanded. Our jails should be emptied and their occupants allowed to go forth and commit crime. Their president tells them to pay no attention to courts or law. "To Hell With the Public," is their slogan. They endorse the Soviet government of Russia whose spies are here among us trying through union labor to destroy our government—the best on earth. The one that pays the best wages in the world and in the money that is worth two cents on the dollars the world over. Should their motives and policies be adopted we would be in anarchy and chaos in 60 days they done every thing to hamper us doing the worlds war by refusing to furnish coal and to cork our ships so we could get out boys food and also to get them over there were sleeping all the time in our shop yards they could drive 3670 rivets in 8 hours in a race but when they were doing for \$4.25 for 8 hours time not work for they never worked 8. They only drove 7 and 8 hundred rivets I know this I worked 9 months for William Cornfoot owner and manager of the Albion hatip yard Portland I know just how much they done there is only one man in the USA that gets a full 8 hours work out of the union men and that is Henry Ford when they don't deliver the goods they have a vacation that has no return to Fords Works. Many other firms pay just as much as Henry does but they are too easy.

No man has any lawful right to say to me if you don't pay me so much I won't work for you nor allow any one else to. Neither has any employe the right to say if you don't work for so much I won't employ you nor allow any one else to. Both of those propositions are wrong they are always clamoring against capital, what would they do if it were not for capital Sam Gompers says we must watch the man with the hoe or we will loose our constitutional

rights why—were it not—for the farmers the only real labora in our land those slackers would starve. No farmer was ever caught—with his pockets filled with rocks and a gun concealed on their person with a stick of dynamite in one hand and a cap and fuse in the other hunting some man that wants to work so they can stone him or shoot him for hunting for some bridge or other valuable property to blow up this is organized labor and I demand any one to refute it. Ever employer in this country has a right to employ who he pleases he don't have to wait till union labor tells him who to employ or that they will let him hire nonunion men when he cannot get union men. Members of organized labor have been declared outlaws by their own officials as in the case of the striking switchmen and printers of N. Y. City, a judge in Canada said union labor had no standing in his court as they were out laws they oppose prohibition when John Barleycorn is their worst menace they vote as a rule the Dem. ticket—so Europe can send her pauper made goods here and cause our factories to shut down throw them out of work. As a rule they pay very little taxes if any. I heard many of them say they had never paid a cent of taxes in their lives and then 30 and 50 years old they done every thing to injure our boys went so far as to admit them into their organization in many places as in Detroit and Port Smith and Cleveland they done all they could to help clear those

murderous IWW who shot down our boys who offered their lives for the safety of their country while those slacking animals were destroying sawmills and every thing else they could one member of union labor from Seattle addressed a union meeting in Portland asking for funds for the widows and children of those Centralia murderers and said had it not been for the union labor jury those murders would be hung. With such a true history short as it is the facts why should union labor be allowed to dictate to law abiding citizens what they shall do if those restaurants are violating the law furnish the facts and evidence and have them prosecuted that is the proper way to do. I have went in a strike several times but it was a simple strike I just walked up—got my pay and walked off about my business and let some other fellow have the job that did not suit me no words to it no rocks no dynamite just walked off.

For a Clean Paper
Dear Editor Oregon Statesman:
May we plead for a cleaner paper? We are (as a family) shocked at the illustrated advertisements it brings; especially such showing people stabbing each other, and nude women dancing, which latter is certainly offensive to pure womankind.

We are sorry that the same paper which so beautifully gave us extracts of Mrs. Domarest's fine sermons, will continue to dish out

to us these unclean things. We advertise for the Devil anyway. We all know that the movies and theaters are one of his strongest tools by which he is raising our nation; educating its people from mere childhood for everything that is vile and criminal. We should remember there is a judgment day fast coming down the road.

Yours for a clean paper,
Respectfully,
Mrs. Joel Springer and family.

Need for School Director
Editor Statesman:
Voters of this school district should jump at the chance to get a man like Frank Neer to serve as a member of the board of education. He is a graduate of OAC and was instructor in the university of California. He is a man of clean moral character, has a great deal of business ability and progressive ideas. Election Monday, 2 to 7 o'clock.

The World's Greatest Moving Picture Director

—ART HOKUM is the super genius behind "MINUTE MOVIES," Ed Wheelan's great movies on paper which are appearing daily in The Oregon Statesman.

The secret of ART HOKUM'S magnificent artistry lies largely in his trick hat—a combination cap and Fedora with detachable brim—which is the envy of all the worthwhile directors of Follywood. He simply can't work without it. It somehow inspires him—moves his brain to greater and finer accomplishments.

Perhaps you remember when he appeared years and years ago in "Way Down East Lynne." Little did it seem then he was destined to become one of the screen's greatest directors.

He helps put the thrills and smiles in "MINUTE MOVIES," and when you become one of the millions of fan followers of his feature in The Statesman, just thank ART HOKUM.
