LIKE A BOY 18 YEARS OLD

Strength and Energy Quickly Restored by Korex Says Engineer

"You have no idea of the condition I was in when I first started taking Korex compound," says B. B. Lewis, 65 year old locomotive engineer of Pace, Florida. "I could only walk a few steps at a time. I was so weak and staggering that my eyesight so bad I could hardly tell a negro from a white man. Five days after taking Korex I was like a boy—18 years old and am improving all the time. My normal activity has been restored," he says.

Those who feel themselves going into a rapid decline, who are growing old too quickly and are suffering from weakness after the flu, aching muscles, stiff joints, lashed vigor and poor circulation, may be interested in knowing that the American distributors of Korex compound, the Melton Laboratories, at 446 Melton Building, Kansas City, Mo., have arranged for korex compound to be sold in Capital Drug Store at 405 State St., Salem, Ore. Thousands the world over are now using the compound. It contains no deleterious, habit-forming drugs.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—near any druggist and a few applications should show you how easily it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength Othine as this strength is sold under guarantee of money back if it fails to remove freckles.—Adv.

THE TEMPESTUOUS ACTION OF THE WATER DOES THE WORK IN THE NEW

Maytag Gyrafoam Washer

THIS new machine gets its name from the gyrating currents of water and soapy foam. It is not like any other type of washer. It is not a dolly machine. It is not a cabinet machine. It is not a vacuum or an oscillator machine. It is not like anything ever built. It is the only absolutely new principle of washing in the past ten years.

It cleans as no other principle can. See how it works. Water alone cleans your clothes. The gyrating currents of water gently flex and work the fabrics until the dirt is loosened. Then the turbulent action of the water carries the dirt free of the clothes.

You can clean a tubfull in half the time. If you want to wash a half tubfull of clothes, you use only a half tub of water. If you want to clean just a few pieces you use just enough water to cover them. And the results are remarkable.

It is beyond our power to describe the action of the water, its washing speed, its thoroughness and the care with which it handles even the most delicate things. You must see it yourself. You must lift up the lid while it is working and SEE the action. Then you will understand.

MODEL 80
GYRAFOAM ELECTRIC WASHER

A Cast Aluminum Tub

The tub of the new Maytag Gyrafoam Washer is made of cast aluminum. It will not rot, rust, corrode, swell, warp or split. It is self-cleaning. It is light, yet has fire-time durability.

The shape of the tub makes it easy to work with. There is no machinery exposed. Everything is housed in. The lid is absolutely free of mechanism or obstructions.

Everyone who has used this new washer says it is the easiest washer to work with they have ever seen.

See a Demonstration—You, Too, Will Marvel!

There is only one way you can realize what a wonderful improvement the new Maytag Gyrafoam Washer is—YOU MUST SEE IT.

You must see the wonderful action of the water. Nothing like it has ever been seen before. You must hear the gurgling, watery, washing sound.

MODEL 92A
For country homes not having electricity the Maytag Gyrafoam Washer is equipped with the famous Maytag Multi Motor which operates on gas or gasoline.
