ROYAL ANNES ARE FEW ON MARKET

Most of This Variety Sold
—Buyers Asking for
Fancy Quality

There are few Royal Anne cherries in this district which have not been sold from the indications of buyers who are trying to purchase lots of this variety. Harry Methleson, northwest manager of the fruit department of Libby, McNeil & Libby, and George Gibson, who represents a Dallas concern, have both searched in vain about Salem for a sufficient amount to fill the orders required by the firms they represent.

There are still large lots of seconds on the market but the buyers are chiefly asking for the fancy fruit and are finding difficulty in locating it. It was said here yesterday that the Libby firm is short 300 tons of the fruit, but

will continue to look for the fancy fruit to fill their pack. Young & Wells, Spokane fruit buyers, yesterday shipped out a car of Bings, said to be the first fresh fruit shipment of this variety ever shipped from here in a carload lot. They plan to send out three more cars of Bings, and if the experiment proves successful will fill similar orders in Lamberts. Altogether more than 25 carloads will be shipped from this district by this one firm alone, which is paying 5 cents cash.

The Eugene association, according to word received here, has emphatically denied that Hunt Brothers have bought 400 tons of cherries from that cooperative. There had been a rumor circulating that the local canners were buying such an order from the Eugene men.

Big deliveries are being made daily to all the canneries and picking is being continued as fast as the cherries can be brought in.

FRUITS FILLING LOCAL MARKETS

Summer Season Products
Much in Demand By Salem Residents

The markets are more and more filling with the fruits and vegetables associated especially with the summer season. For the breakfast table, delicious cantaloupes and honey dew melons are available, together with a favored variety of Florida grape fruit.

Among the vegetables an especially firm variety of early cabbage is in the stalls, together with new cauliflower, onions, cucumbers, asparagus and young turnips and all seasonable vegetables.

Loganberries, red raspberries, and, of course, strawberries, are plentiful now for a variety of shortcakes.

Bing cherries, however, are the newest addition to the fruit market, appearing dark and firm and without cracks.

4-L BAND PLAYS
SILVERTON, Or., June 19.—(Special to The Statesman.)—The 4-L band of Silvertion furnished music at the formal opening of Wilhoit springs Sunday, June 15. Many Silvertion people picnicked at the springs during the day. Dance music was played by the Sam Ness orchestra.

OPTIMISM GAINING SAYS BRADSTREET'S

Trade and Crops Reported
Irregular But Class of Reports
Improving

NEW YORK, June 20.—Bradstreet's tomorrow will say: "Trade and crop advices are irregular but there is more optimism apparent, with the long expected break in the unseasonable cool weather and the rise in western grain markets. There has come in most areas a gain in crop conditions and a slightly better class of reports as to retail buying. Some of the ground lost by crops has been regained, but the season is still late with emphasis especially placed on the backwardness of corn. Reflection of the poor wheat crop report of June 1 was had in a rise of about 16 cents in wheat and smaller gains in corn, oats and wheat, buying of those staples slightly above those ruling a year ago. One-fourth of the advance was lost later on re-leasing. Wheat prices have been indications of smaller yields. Weekly bank clearings, \$8,904,409,000."

WHEAT MARKET HAS A SETBACK

Advancing Price Drops Back
When Liverpool Exchange
Is Bearish

CHICAGO, June 20.—Wheat averaged lower in price today, but was rallying at the last. Word of liberal export buying at Winnipeg helped to offset a sharp decline at Liverpool and the breaking of the hot wave in the southwest. Wheat closing quotations here were unsettled at 1-4c net lower to 5-8c advance, July \$1.14 5-8 to \$1.14 2-4, and September \$1.16 3-8 to \$1.16 1-2, with corn at 1-4c off to 1-2c gain, oats a shade to 1-4c up, and provisions showing 2c to 5 @ 7c drop.

With lower temperatures and rains in the southwest and with Liverpool quotations down, the wheat market here underwent a material setback early, then rallied to a little above yesterday's finish, and later fluctuated nervously within the previous range. Much of the demand on the declines came from new buyers, who apparently acted on opinions that the bearish reaction had gone far enough. On the other hand, crops reports were that the spring territory were favorable, and the winter crop was making progress in Kansas as well as in Oklahoma and Texas.

Estimates were current that 1,000,000 bushels of wheat for shipment to Europe had been purchased at Winnipeg. There was also considerable replacement of speculative lines here which had been sold out at recent higher figures. Reports, however, that a big combination of elevator interests had been effected was an unsettling influence as the day came to an end.

**THE LOGANBERRIES
CAME IN TOO FAST**
Starr Fruit Products Co. Had to Holler "Nuff" on the Extras

The loganberries came in too fast yesterday to the Salem cannery of the Starr Fruit Products company. They took a lot of them yesterday, but the growers came offering more than they could handle. So they had to refuse to take any more, outside of their contracted berries.

What will become of the berries not contracted for, and not yet sold, is a problem.

Paying a Half Cent Less
The Raas interests on Ferry street, back of The Statesman office, have taken in 150 tons of cherries this week, and they are running to capacity.

The Statesman of yesterday said a well-posted grower estimated that there will be picked in the immediate Salem district 1500 tons of cherries of the Royal Anne type.

Another good authority said yesterday that there will be more than 3000 tons; perhaps 4000 tons.

The Raas people have quit pick-

ing 5 cents a pound for cherries for barreling. They were buying a lot at 4 1/2 cents a pound yesterday.

It is reported that there are outside buyers looking for cherries here. They have a good chance to get a lot of them at 5 cents a pound.

Beans May Be Used for Making of Sweet Pickles

Try this year using beans for a little known sweet pickle made of very tiny string beans. Pick the beans when not over an inch or an inch and a half in length. Trim off each end. Place in a preserving kettle and cover with sugar in the proportion of one cup of sugar to one of the beans. Then pour on any good vinegar until the beans are covered. Bring quickly to a boil and skim. Then cook slowly, adding whole cloves, a few allspice and a small quantity of stick cinnamon. These spices may be left in the jam with the pickles, or may be skimmed out. The pickle is equally good either way. It is only a question of taste.

DENNY COMPANY WILL BUY HERE

Bing and Lambert Cherries
Wanted By Large Portland
Land Operators

R. R. Hurst, representing Denny & Co. of Portland, fruit and produce distributors, came to Salem yesterday to enter the market for Bing and Lambert cherries. Headquarters was established at the Ryan Fruit company and George Johnson, who has been buying for Baker, Kelly & McLaughlin will buy for Hurst.

Hurst is looking for cherries of high quality that are to be picked with all the stems on them and will pay for such cherries at the highest market price, he declared. Johnson will make the rounds of the orchards to show the growers how they want the cherries picked.

The two are not yet ready to say how big a lot they will purchase in this district, explaining that the amount is dependent upon the quality of the fruit and weather conditions. Hurst is well known in this district as a buyer of celery and lettuce from the Lallah country.

Word was also received here yesterday from Scogbel & Day, New York buyers, that they will likely enter the cherry market from their Portland headquarters within a few days.

Chairman F. W. Mondell Addressing Delegates at Republican National Convention at Cleveland

Frank W. Mondell of Wyoming, permanent chairman of the Republican convention, is shown above addressing the delegates during the second day's session.

LUTHERANS CLOSE EUGENE SESSION

Silvertion Is Selected as
Meeting Place for Con-
vention of 1925

The first state convention of the Lutheran Brotherhood of Oregon, after a three day session at Eugene, came to a close Monday night.

The principal features of the first day were a sermon by Rev. A. S. Nelson, a vocal solo by Prof. Benjamin Edwards, an address of welcome by Dr. E. Thorstenberg of the University of Oregon, which was responded to by Attorney Alf. O. Nelson of Silvertion.

The principal features of the Sunday forenoon and afternoon sessions were a sermon by Rev. Overt Skilbrad of Eugene, an address by Rev. William Schoeler of

business the brotherhood at this convention also adopted its constitution.

Toward the close of the convention on Monday, Attorney Ness of Eugene offered a resolution which was unanimously adopted by the convention by which the Lutheran Brotherhood went on record as being unalterably opposed to the teaching of any form of religion, as well as the teaching of matters anti-religious, in the public schools of the state.

The 1925 state convention of the brotherhood will be held at Silvertion.

Silvertion Cannery Had First Pay Day Wednesday

SILVERTON, Or., June 19.—(Special to The Statesman.)—The Silvertion cannery which has

been in operation a little over two weeks had its first pay day Wednesday, June 18. A few cases of other fruits have been packed but strawberries are still coming in in the largest quantities.

North Dakota Girl Spends Vacation at Silvertion

SILVERTON, Or., June 19.—(Special to The Statesman.)—Miss Irma Boyesen, assistant cashier of the First National bank of Castleton, N. D., is visiting at the L. H. Myers home. Miss Boyesen is on a month's vacation and plans to stay at Silvertion for a week or two longer. She has been assistant cashier of the Castleton bank for the past eight years. Miss Boyesen reports that when she left her home about two weeks ago the lilacs were just beginning to bloom.
