Japanese Forces in Korea To Be Heavily Reinforced

TOKIO, June 5.—Increase of the Japanese garrison in Korea from two divisions to three is under consideration by the high authorities of the army, according to the vernacular press.

This reinforcement, it is understood, is contemplated as a result of recommendations of Admiral Baron Minoru Saito, governor-general of Korea, who has represented conditions in the peninsula as demanding increase of Japanese military strength. Difficulties of patrolling the northern border of Korea against incursions by insurgent Koreans or Chinese bandits and the topographical handicaps under which the garrison works, are given as reasons for the requested increase.

One in Every 200 Britishers Called Mentally Deficient

LONDON, June 18.—(Mail.)—More than 150,000 persons in Great Britain, or one in every 200, are mentally deficient, Minister of Health Wheatley declared in an address at a conference here. Referring to the number of such persons confined in prisons for various offenses, he said that he had wondered "whether the person who sent the mentally defective person to be punished for something which he did, and could not avoid doing, was not himself a fit subject for care."

"If a person is not gifted by God with the power of resisting evil," the minister concluded, "it is a question whether we, who have been gifted with that power, are entitled to punish that person in the light of our understanding."

Nest of Human Derelicts Found By Raiding Police

BERLIN, June 16.—(Mail.)—A recent police raid upon the public "Asyium for the Shelterless," corresponding somewhat to the American rescue missions except that it is a municipal institution, yielded some unusual results.

It was found that among those raided were 1,204 men and 76 women and girls who had nothing on their persons to identify them. In Germany and other European countries one is expected at all times to carry some paper of identification, and its absence is enough to arouse the suspicions of the police.

These 1,280 persons were held for further investigation, and the following facts developed: For 157 of the men search warrants have been out some time; they were wanted for theft, burglary, murder or swindling. In the case of 22 it developed that they had forged papers. Three men reported dead were discovered hale and hearty. Among these was a 27 year old shopkeeper whose business had gone bankrupt, and who then had to live off his aged father. When the latter was dismissed from civil service as part of the economy program of the government, the young man disappeared and left word that he had committed suicide.

VISIT THE NEWPORT BEACHES

And use this road log. It will tell you the exact condition of the highway from Salem to Newport

LEAVING Salem you follow the Pacific Highway which is 18 miles from Salem, then on to Albany 10 miles farther. This portion of the trip is all on paving and the streets of the towns are plainly marked with highway signs so you cannot miss the road.

The bridge at Albany is closed, so you turn to the left at the foot of the bridge and take the east side route to Corvallis, 37 miles from Salem. This is an excellent gravel road.

Follow the Newport highway signs out of Corvallis and you will find a gravel road taking you into Philomath, 45.5 miles from Salem.

POLLYANNA CAFE
Philomath, Oregon.

After leaving Philomath the road is slightly rough for the first few miles but one is comfortable at a speed of about 25 miles. About 12 miles from Philomath proceed more carefully, as there is a rock crusher and a bridge under construction, both requiring short detours of a few feet on a rather narrow road.

After these detours the road is excellent and fairly straight into Eddyville, which 75.1 miles from Salem. This portion of the road follows in succession the Marys, Little Elk, and Yaquina rivers. Anyone wishing to tarry and fish for a short time shoud stop and ask Mr. Mauch, proprietor of the service station and store in Eddyville to direct them as there is excellent fishing.

Eddyville, Oregon
The halfway station between Corvallis and Newport

From Eddyville to Toledo which is 93.2 miles from Salem, the highway is freshly graveled and a wonderfully scenic trip. The fact that there are numerous curves and rather heavy traffic requires that you exercise caution.

On reaching the outskirts of Newport, if you wish to go to Agate Beach turn to the right at the first service station that you reach and follow the plank road for three miles. If you wish to go to Nye Beach follow the highway into town until you reach the stage terminal, 100 miles from Salem, then turn to the right and follow the planking, or if you wish to go to the downtown section turn to the left at the terminal and follow the planking.

MAIL RECORD CLAIMED FOR HUGO STINNES

BERLIN, June 17.—(Mail.)—The claim has been made by German newspapers that the late Hugo Stinnes received more mail on a daily average than any other individual in the world. Figures were not given.

Italian newspapers, however, contend that the Pope receives more letters and newspapers than any person in Europe, it being estimated that his daily mail averages something like 27,000 pieces.
