Sleeveless Shirt Found at Eugene to Be Compared With Sleeve Here

Comparison of a sleeveless shirt found in the cell of W. A. Anderson, one of three convicts who escaped from the prison brickyard Thursday night, with a sleeveless shirt found at Eugene in an effort to establish connections between the convict and the robbery of a Eugene store, will be made as soon as the shirt arrives, it was said last night by Warden A. M. Dalrymple, who has requested that the shirt be forwarded to Salem. The shirt was discarded in the Green-Merrill clothing store, which lost a complete outfit of clothing. A few dollars were also stolen from the cash register. Additional clues leading the officers to believe that the convicts were responsible for the Eugene robbery was the report that an Overland automobile had been stolen from that city.

Little credence is given here to the theory that Burns and Anderson were responsible for the robbery of the Hauser Brothers sporting goods store Thursday night. It was pointed out yesterday that Burns, who was sentenced to serve 15 years from Marion county, was familiar to all the police and sheriff's officers, besides being known by others in Salem. Because of this it was thought unlikely that he would risk capture by remaining in this vicinity.

J. S. Murray, chief clerk at the prison, and finger print expert, after comparing finger prints obtained at Hauser Brothers with those of the missing convicts, announced yesterday that they did not tally. Three clear prints were found from which the comparison could be made. Photographs of the finger prints are being made to enable Mr. Murray to make a more accurate comparison.

Holstein-Freisian Men Hold Picnic on July 17

Members of the Marion county Holstein-Freisian Breeders' association will hold their annual picnic Thursday, July 17, at the Frank Durbin stock farm, about two miles and a half east of Salem on the Turner road. A feature of the picnic will be a stock judging contest by calf club members from Marion and Polk counties. There are 96 members of calf clubs in the two counties.

Mr. Myers, northwest field man for the association, and Mr. Cooper, editor of the Calf Club Journal, published by the association, will be the principal speakers. Officers of the association are H. W. Cooley of Jefferson, president; Eugene Finlay of Jefferson, secretary; Ernest Werner, Silverton, vice president, and C. J. Burnling, Silverton, A. H. Thurston, Macleay, A. W. Kline and Frank A. Durbin, directors.

New Method Removes Wrinkles in 15 Minutes

A veritable wonder-worker for wrinkled and flabby faces is a simple, harmless application made by mixing a spoonful of powdered tartrook with a spoonful of lemon juice. Not only does it quickly smooth out the wrinkles and age lines—before one's very eyes—but it has a stimulating influence upon the weakened and relaxed underlying tissues. The mixture is spread over the face with the fingertips, and in less than fifteen minutes the mirror shows that a "most marvelous transformation has taken place. When the substance is washed off the average face actually looks ten or fifteen years younger.

The results are far better than those obtainable from the most expert massaging—and the cost is less than three cents a treatment! Powdered tartrook can be obtained from any druggist.—Adv.
