POINCARE ATTACKS NEW PROPOSAL IN SENATE

Former Premier Declares Germany Must Pay Before Ruhr Evacuation

LONDON, July 10 .- (By The Associated Press.)-The British premier, Ramsay MacDonald, made a statement in the house of commons today explaining his recent visit to Paris and his discussion with M. Herriot, the French premier, on the reparations situation. It is evident from this statement that Mr. MacDonald has gone a long way to allay and meet French resentments and susceptibilities even to the extent of temporarily giving up some of Poincarist bloc in the French senate. Belgium and Japan to attend an inter allied conference, the British government proposed that in the event of a German default, the matter might be referred to the league of nations of The Hague arbitration tribunal, thus lifting it out of the hands of the reparation commission.

It was this prospect that caused so much resentment in France and gave M. Poincare a weapon with which to attack Premier Herriot.

The British prime minister's statment shows that idea of reference to the league of nations of The Hague had been dropped and that in its stead an endeavor was being made to secure American help for such arbitration duties.
