The clever invitations hinted at the original nature of the shower with the many lovely gifts concealed in a red, shingled bird house which the bride-elect at length discovered by following a streamer attached to a little bird perched in the living room.

A mock wedding was a feature of the evening with Miss Edna Jennison the bride and Miss Josephine Bross the groom. have since justified the faith reposed in them by service rendered. That was a triumphant vindication of the tremendous advantage of non-partisan activity adding its great weight to the long chain of evidence as to the values of the policy which the American Federation of Labor has for so many years pursued.

Situation Is Critical
"The political situation at the present moment is extremely critical and those who seek to bring about results most advantageous to all our people will be required to exercise their most careful judgment. We are meeting at a time fortunate for that purpose. All of the political conventions have been held; candidates nominated and their platforms completed. The convention atmosphere has been cleared away and we are in that period of comparative quiet between convention time and time of the actual opening of campaign work.

"We shall seek to take into account all of the facts and to advise the wage earners of our country fairly and intelligently. What final form our action will take in the way of formulating expressions of opinion, I am unable to say. That cannot be said until the action has been taken.

Efforts to Be Determined
"I may add that however careful and painstaking may be our study of the situation, our campaign effort, after our course has been determined, will be as vigorous as possible.

"I think I can say with perfect propriety that we shall endeavor to demonstrate in this campaign that political organizations and politicians generally, individually, as well as in groups, cannot, with impunity defy the great labor movement of our country to refuse adequate and intelligent consideration of the just requirements of the great masses of the people."
