### IKEY WHITE HAS NEW FISH BAIT

#### Uses Mentholatum—Says Fish Can Smell It Thru the Water

Camp life on the Trask river is still being hugely enjoyed, and is educational as well as recreational, according to a letter received from Jack Harbison. The letter, as written, is as follows:

"The famous bird man, Mr. Elliott, of Portland, came to camp yesterday. He is going to take the boys out on a bird study hike

today. He has already discovered about 15 kinds of birds around here and us kids hardly see one or two. He will give six lectures while in camp on bird life.

"We have just discovered how Ed Cross catches so many fish. He baits the hook and smears it with mentholatum. He says it is so strong that they smell it thru the water and they cry to get hooked."

"Tomorrow we are taking a hike over bark-shanty trail. It is a good long hike and we will be gone all day and take our dinners. Whenever we go on a hike through the woods we go in single file and one leader goes ahead and the other leader brings up the tail. They do this so nobody will get lost or fall by the wayside. Nearly all the kids are going on this hike to get ready for the big hike up to the summit."

"This afternoon the six baseball teams will play. The game will be between the Kiwanis and the Rotarians."

"If you do not get our letters every day, remember we are quite a ways from civilization and can only send the mail in some days by fishermen and fire patrolmen."

"Ikey White has a little boat and makes him look tough like a prize fighter. Rev. Cook of Stayton is officer of the day and he certainly makes the kids hop around."

"It will soon be time for tent inspection so I will have to hurry as I don't want to be hot-handed. We had a dandy dinner and we had to stop Hob Boardman's eating because we were afraid he would bust. There goes the whistle now—so long."

taking care of the packing. It is expected that five carloads will be moved daily this coming week, as the fruit is reported to be ripening rapidly.

### Yakima Prune Shipper Is Wrathful Over Local Prices

Prices paid to prune growers for the fresh product in the Willamette valley and in the Salem district in particular is creating havoc with the eastern markets and both the fruit from the Yakima district and the local district, according to a telephone call received in Salem from one of their big shippers in the Yakima section.

This shipper declared that there was no call for the low price paid here, pointing out that the growers were being offered \$20 a ton while the dealers are paying \$70 a ton up north. Because of this, he said, eastern buyers are being led to believe there is something wrong with the fruit this year.

### SARATOGA SPRINGS, N. Y., AUG. 8.—"I'll fool them all; I'll ride again," was Jockey Earl Sande's remark when told late yesterday that his riding days were over.

### SANDE AFFIRMS HE WILL RIDE AGAIN

SARATOGA SPRINGS, N. Y., Aug. 8.—"I'll fool them all; I'll ride again," was Jockey Earl Sande's remark when told late yesterday that his riding days were over. Sande was injured in a race Wednesday and is in a hospital here, resting comfortably, his physicians say.

An X-ray of the broken leg reveals a clean break a little above the knee and another clean break six inches higher. Above the upper break there is a splintered condition. The hip joint is uninjured, however.

Sande was put under ether and Dr. James Russell of the Roosevelt hospital, New York City, manipulated the injured parts into place and after two hours of delicate work the whole leg was encased in splints.

A weight of 16 pounds was attached to prevent shortening of the leg as it heals.

### BUSINESS SAID TO BE EXPANDING

Dun's Reports That Trend Is Toward an Increase in Many Basic Lines

NEW YORK, Aug. 8.—Dun's tomorrow will say: "The trend toward business expansion, although not general, is distinct. Gains made in July, which marked the turning point in several basic lines, have been extended in certain instances and the strengthening of confidence is an important phase. Reflection of the better sentiment and a change from the previous attitude is seen to widen the scope of operations, more inclination being shown to make advance commitments. The condition has not developed where buying, as a whole, runs beyond present or yearly needs, but in a number of cases more consideration is being given to forward requirements, and it is of significance that there has been some ordering of steel for the fourth quarter. Output of that material, despite the handicap of hot weather, has risen a little and it seems not unlikely that the low level in pig iron production has been passed. Weekly bank clearings, \$8,075,454,000."

### DAVIS IS READY FOR NOTIFICATION

Nominee Leaves for Clarksburg Where He Will Deliver Address

NEW YORK, Aug. 8.—John W. Davis set forth tonight upon the greatest political adventures that can come to an American.

Accompanied by Mrs. Davis and his personal staff, he left here for Clarksburg, W. Va., his old home town, where on Monday night he will have conferred officially what he has referred to as rumors that he has been selected to carry the standard of the democratic party in the presidential campaign.

Beyond the address with which he will accept the mandate of the New York convention, Mr. Davis has no speaking engagements, but it was announced today at his headquarters here that he will make his second set speech of the campaign within two weeks.
