BIBLE THOUGHT AND PRAYER

Prepared by Radio BIBLE SERVICE Bureau, Cincinnati, Ohio. If parents will have their children memorize the daily Bible selections, t will prove a priceless heritage to them in after years.

August 10, 1924 THE LORD IS GOOD:-Serve the Lord with gladness: come before His presence with singing. For the Lord is good: his mercy is and his truth endureth to all generations .- Psalm everlasting: 100:2.5.

PRAYER :- Our Father, we know that Thou are good, and that Thou art more willing to give us Thy Spirit than an earthly parent is to give good gifts unto his children.

A DISTINCTION THAT IS A DISGRACE

Of all the great nations of the world only Great Britain and the United States fail to produce their sugar at home-

The former because of her free trade proclivities, and the farmers and organizations and inlatter because of the absence of a fixed governmental policy dividuals in twenty-eight western concerning domestic sugar production. and southern states have carried

Prior to the World war, Great Britain was satisfied to on a long fight to eliminate the import a million and a half tons of sugar a year from coun- extra / charge. "Pittsburg plus" trics which were able to produce it more cheaply than it could grew out of the old steel "pools." be produced at home. They had one beet sugar factory which It was firmly established about in recounting their lives toward was a virtual failure because of the fact that the internal reve- 1904. The industry regarded it as the end of the journey, but integnue or excise tax levied on home produced sugar was equal to a traditional custom. The steel the import duty, and hence domestic sugar enjoyed no protec- magnates reasoned that since tion. But the World war showed Great Britain the folly of Pittsburg was the biggest producdepending upon other countries for her sugar supplytion center the "toll" was essen-

And now she has reversed her sugar policy, with a view to building up a great home industry-

And under this new policy the Kelham plant, now in operation, has been organized with 500,000 pounds capital, of which the British government subscribed half and guaranteed 5 per cent interest for ten years on the remaining half which was taken by the public. The government also loaned the company 125,000 pounds on second mortgage; and the government also abolished the excise tax on sugar, thus according the industry a protection of two and a half cents a pound, the full amount of the import duty which it collects on imported sugar. Also, experiments are being conducted in various portions of England and a number of new plants are contemplated.

Beets grown in Great Britain are of a higher purity and found that the illegal practice sugar content than beets grown on the continent, and as the added \$30,000,000 yearly to the tonnage per acre is also greater, if the present fiscal policy is cost of steel products used by continued the United Kingdom soon should be independent of farmers of eleven western states.

by the dominant position of United The young man or the old man States Steel in the industry." It who mopes and laments his lack of apportunity can only blame himself. The lack, if a man is honest, and most men are honest, is in ossession of the peculiar faculty Of every 100 users of rolled steel 75 are farmers. Farms absorb three-sevenths of all the steel and iron made. Because most farm implements are made far from Pittsburg the extra charge hits the stinct.

HOOVER TALKS FAIR

It is refreshing to hear a man like Secretary Hoover talk about disarmament. The reaction on the

defense day certainly has shown to the country that the people are determined against warlike measures.

A defense program would have been a dismal failure except for show him a mountain. He looks the fact that a number of patriots saw where they were drifting and insisted that the program would show America to itself. The program, of course, was conceived by the militarists, but it would have been blown up entirely except for the fact that these friends of American good government took hold of it and guided it into

channels less obnoxious. Secretary Hoover says, there must be universal disarmament. There must be and there will be. American people and the people of the world generally are not only tired of war but they see the futility of it. Its tragedy and expense are felt everywhere and its good effects can be attained with infinitely less pains in other ways.

It is good to see Mr. Hoover line up with the progressive sentiment of the nation.

SERVICE CLUBS AND PROPA-GANDA

tion as

Summer.

bldg.

nings.

A good many people have wondered why the service clubs which do such wonderful work do not have have any better standing before the general public. The rea-

son is apparent to those who have studied the situation at all. Service clubs have lent themselves unconsciously in most cases to propaganda against the people. For instance, if a man against the

income tax is going out and talking to these service clubs the public has an idea that this means that they are committed to these things and naturally the members are held responsible.

Great things as they are doing in other lines, all these service clubs are harmful in politics. They are so often used to further the schemes of the special interests and are set down as the stool pigeons of privilege.

BETWEEN THE EYES The defamers of Oregon are getting a good many blows between the eyes. Here is another one. In the current issue of the C that enables some men to decide gon Magazine Warren Gilbert d wisely in business, other men just cusses Oregon in a very intellige as smart, just as capable in every manner. Here is just one s way lack this judgment. We call tence: "West of the Mississipi it business ability. It is an in- day according to a map recen published in Washington, D. farmer hardest. the world for its sugar supply-

Thus leaving to the United States the questionable distincion of being the only great nation in the world which does not produce all its sugar at home-

distinction that is a disgrace.

We consume in the United States annually about four and a alf millions of tons of sugar, and we produce about two milions of tons of it in American territory, including Hawaii, Porto Rico and the Philippines. The sugar produced in our plus" the Pennsylvania city will insular possessions is cane sugar, and we produce cane sugar give way to Gary or some other also in Louisiana and Texas, and the rest of our supply is from midwest locality as a steel center. ugar beets, grown and manufactured principally in the Rocky untain and Pacific coast states. We have 106 beet sugar factories in the United States, all in our mountain and Pacific coast states excepting 36, made up of 17 in Michigan, five each in Nebraska, Ohio and Wisconsin, and one each in Illinois, Indiana, Kansas and Minnesota. There are 19 in Utah, 18 in shall vote. We notice one paper Colorado, 13 in California, and nine in Idaho.

Washington has three, with sugar beets produced sufficient this. to keep only one on full time, and Oregon has none.

The only safety of this republic We can produce our whole supply of sugar in our own erritory; even in continental United States. President Hard- is for everybody to vote. At the ng said so. Secretary Herbert Hover has said so, and others present time less than 50 per cent in high authority have made the statement, and it has never voted at the last presidential elecbeen denied. the vote out. Not to control it,

"A business administration at Washington would bring about but to have a representative vote this consummation devoutly to be desired, and of vast benefit cast on every public question. to all classes of our people, and do it in short order.

S. Stanwood Menken, president If we grew and manufactured our whole sugar supply, and of the National Security league, effectually prevented trust agreements in constraint of trade, sugar prices to our consumers would always be reasonable; on of the voters qualified actually an average comparatively much lower than they have been in voted in the last senatorial electhe past ten year period; that is, compared with other commodity prices-

And this would be a good thing for the legitimate sugar manufacturing industry. It needs stabilization more than any their franchise. They elected men will vote the communist ticket. other one thing. Gambling in sugar and cornering the foreign to fill the highest positions in the supply, and combinations in this country to raise prices, are gift of the voter. all demoralizing to the industry. These practices in the long the radicals now in the upper and run penalize both the legitimate sugar manufacturers and the lower houses of congress were sent buying public. there by less than 30 per cent of

Cane sugar manufacturing should be vastly increased in the voters in their respective dis-Louisiana and Texas and other southern states, and the beet sugar factories ought to be multiplied all over the country, with a number in the Willamette valley; the first one at Salem. This can be done. It would be good business. It should be done. It would all come about quickly with such a business administration at Washington as would please and benefit the great majority of the people of the United States.

TO LIVE LONG, KEEP YOUR MIND ACTIVE

Amable Maille Saint-Prix, dean of the newspaper men of France, died recently in his 104th year. In January of this ear, less than a month before his 103rd birthday anniversary, the part of the voter are set forth he wrote the last of a series of articles which had been appearing regularly. He had been actively engaged in his profession up to that time.

A French newspaper, commenting on that achievement, aserts that the way to stay young is to keep thinking. It be rebuked, demagaguery can not asserts that people of active mentality generally live longer be prevented, communism can not than people of low mentality-that when they have no more be forestalled and folly may be exphysical aims to live for people of low mentality rapidly decline. while people interested in intellectual life often are reborn. To prove its point it cites a number of notable instances. Statesnen, artists and writers, it finds, live-much longer, generally, than do mere butchers, mere manual laborers or even mere farmers
