Of much interest in Portland is the marriage of Miss Ina McCoy, daughter of Mr. and Mrs. Newton McCoy of Salem, and Harvey Thurston of Denver, which took place Thursday afternoon at 3:30 o'clock at the Episcopal church in Seaside. Miss McCoy and her parents formerly resided in Portland, but have been making their home in Salem for the last two years. They had planned a larger wedding to take place here, but because of illness in the family, it was decided to have a more simple ceremony at Seaside, where they have been spending the summer.

On attractive display in the windows of the Salem Electric company are 20 varieties of choice gladioli from the garden of Mrs. W. W. Rosebraugh, 1422 State street. Many passersby stopped during the day to admire the unusually lovely stalks of blooms. The varieties exhibited include: Butterfly, Prince of Wales, Orange Glory, Jack London, Jennie Lind, Schwaben, Canary Bird, Golden Princess, Marshall Foch, McKibben, Helena Todd, Evelyn Kirkland, Yonk avorite, Pride of Goshen, Anallin Queen, Rouge Torch, Tyrian Beauty, Purple Glory, Golden Measure, Mary Fennel, and Mona Lisa, and Black Pansy.

Mrs. Rosebraugh has altogether more than a hundred different varieties of gladioli, which this year began to bloom on June 25. They will continue in season through the summer till frost. Monte Brecla is used for the most part in the planting as a border to keep down the growth of the outer gladioli stalks. Beds of new seedlings add interest to the garden. Mrs. Rosebraugh has secured her varieties largely from Diezier in California and Kundard in Indiana, both famous producers. It was Kundard who originated the ruffled-coralia varieties.

Especially distinctive among the bulbs now in bloom is Purple Glory, of a deep royal shade. One of the choicest of the varieties is Golden Measure, the stalks all thickly set with deep, creamy corollas. Rouge Torch is one of the most interestingly marked. The Evelyn Kirkland, with pink blooms, carries streaked corollas. Canary Bird attracts immediate attention for the graceful slenderness of its stems. Autumn Glory is suggestive of the turning leaves while the exquisite contrast variety, Mona Lisa, merges into the lavender.

Mrs. Rosebraugh has grown most of her gladioli from the tiny bulblets, the strength of the bulbs depending largely upon the regular cutting away of the flowers before they fade on the stalk.
