

STATE HIGHWAY DEPARTMENT REPORTS ON ROAD CONDITION

The following is the condition of main traveled roads in Oregon, according to the report of the state highway department for this week:

Pacific Highway
Portland, Oregon City, Salem, Albany, Harrisburg, Junction City, Eugene, Cottage Grove, Roseburg, Grants Pass, Medford, California state line: Paved entire distance except between Harrisburg and Junction City which is good macadam. Free county ferry across Willamette river at Harrisburg.

Albany-Corvallis Highway
Albany-Corvallis: On account of concrete paving operations the west side route is closed to all traffic. Take east side route crossing Willamette river at Corvallis. Macadamized and in good condition.

West Side Highway
Portland, Newberg, Lafayette, McMinnville, Amity, Rickreall,

land, Rainier, Clatskanie, Astoria, Seaside: Paved entire distance, Roosevelt Coast Highway—Clatsop and Tillamook Counties.
Astoria-Seaside: Paved.
Seaside-Cannon Beach Junction: Under construction. Rough but passable, subject to short delays.
Cannon Beach Junction-Miami: Graveled road.
Miami-Tillamook-Hebo: Part paved; balance good macadam.
Hebo-Neskowin: Good macadam to half mile north of Neskowin. Balance under construction.
Roosevelt Coast Highway—Columbia River
Lakeside-Houser: Earth road. Open for summer travel.
Houser-North Bend: Graveled road in fair condition.
North Bend-Marshfield-Coquille: Paved.
Coquille-Bandon: Twelve miles macadamized. Balance earth road in good condition.
Marshfield-Bandon (via Seven Devils route): Open and in fair condition.
Bandon-Port Orford-Arizona

Inn: Fair macadam.
Arizona Inn-Gold Beach-Brookings: Mountain road in fair condition. Drive carefully.
Brookings-California state line-Crescent City: Graveled road in fair condition.
Coos Bay-Roseburg Highway
Pacific highway-Camas Valley-Myrtle Point-Coquille: Macadamized and in good condition.
Willamette Valley-Florence Highway
Low pass road open and passable to a point three miles west of Blachly. Closed beyond this point.
Corvallis-Newport Highway
Corvallis, Philomath, Wren, Eddyville, Toledo, Newport: Macadamized entire distance. Fair condition to Wren; balance good condition.
McMinnville-Tillamook Highway
McMinnville-Sheridan: Paved. Sheridan, Willamina, Grand Ronde, Hebo, Tillamook: Part paved; balance good macadam.

1925 Sport Model Oldsmobile on Display at F. W. Pettyjohn Co.

Front View of Coupe Showing New Radiator Design

Refined
OLDSMOBILE SIX

The Oldsmobile was introduced in its refined and beautified 1925 costume today by the Olds Motor Works, Lansing, Mich. Fundamentally the car remains the same as it was when it was introduced nearly a year ago and at which time it created a sensation in automotive circles as the lowest priced six cylinder car in the world. For the coming year it will add to this proven automobile refinements in line and mechanics.

The most striking changes in the design of the radiator shell and hood. The radiator shell is nickled and follows the most approved and advanced designs in both European and American car construction. It has a graceful double curve at the top with a slightly curved peak downward in the center which acts as a base for the long known Oldsmobile oval emblem.

Extending downward the radiator shell follows slightly concave lines, broadening outward at the base, which continues the easy curves that are features of the design.

The shell is somewhat higher than the previous style, which makes possible an almost level stream line hood extending back to the rear of the cowl. The hood follows the double curve of the top of the radiator shell, adding distinctiveness.

The refinement of the front lines is further added to by the use of new bell-shaped head and cowl lights, which are standard on all models. These lights are of a heavier and more substantial design than were the drum type formerly used, and their curving lines harmonize perfectly with the new design.

Durable Duco satin finish is used on all models. The standard models are finished in Oldsmobile blue, a rich, dignified shade, trimmed with ivory striping on body and wheels. The sport models continue to use the weathered bronze-green that has proven so popular during the past season. These are striped with black and gold. Throughout the line, even including the upper sections of the closed models, Duco is used, thus insuring a really permanent finish and one that can be economically and quickly repaired in case of mishap.

The full line of eight body types is continued. These are the touring, sport touring, roadster, sport roadster, two passenger business coupe, four passenger coupe, sedan and De Luxe sedan. The touring and roadster are upholstered in black fabricoid, while the open sport models have the heavily grained brown Spanish type upholstery. A new striped velour of a brown-taupe shade trims the interior of the closed models. These are also equipped with metal sun visors covered with black fabricoid. All closed bodies are Fisher built.

The new radiator lines have been featured in a rearrangement of the operating instruments. These are grouped in a nickled rimmed oval in the center of the instrument board. In circles at each side are the ammeter and oil gauge. Nearer the center are the speedometer and the ignition and light controls, both enclosed

in miniature reproductions of the radiator shell. In the center at the bottom is the choke and above it the Oldsmobile emblem. In the Sport and De Luxe models a gasoline gauge replaces the Oldsmobile name-plate. On the same models also are used nickeled steering columns and large sized steering wheels with aluminum spiders Gear shift and emergency brake levers are nickeled on all models.

Improvements that make the oiling system as near perfection as is mechanically possible have been included. These are a check valve which insures the oil pump holding its prime under all conditions, and a suction pipe lead so placed that it will catch the oil even when the car is on a considerable angle, thus totally eliminating any chance of the oiling system pumping air even under the most extreme conditions.

The same complete equipment, with several refinements, is included on the Sport and De Luxe models. These are equipped with nickeled double bar bumpers in front and nickeled fender guards in the rear. Aluminum trunk rails of special design are backings for the new metal trunk. This has a gracefully rounded top, is black enameled to match the fenders and is equipped with two heavily nickeled catches and locks. Other equipment includes rear vision mirrors, motometers, disc wheels, aluminum scuff plates, nickeled robe rails and on the open sport models, wind shield wings.

Nebraska to Have Share Of Midsummer Politics

LINCOLN, Neb., Aug. 16.—Nebraska University's new half million dollar memorial stadium will be the scene of two important political gatherings the latter part of August. On the 18th Governor Charles W. Bryan will be formally notified of his nomination as the Democratic candidate for vice-president, and on August 29, Gen. Charles W. Dawes, a former resident of Lincoln, will open his campaign as the Republican candidate for vice-president.

Both speeches will be broadcast and outdoor amplifiers will make them audible to all in the two gigantic concrete stands on either side of the speakers' platform.

Pershing will be given a dinner when he retires to private life, and we hope they have hardtack for dessert.

CHILDREN OF KANSAS ERECT MEMORIAL TO PRESIDENT HARDING

HUTCHINSON, Kas., Aug. 9.—A memorial of granite with a bronze tablet, set in a little park surrounded by a three-foot stone wall, marks the spot on a farm near here where the late President Harding shocked the grain under a brooding sun in June 1923, when on the trans-continent trip that was brought to an end by his death. The memorial was dedicated August 2, the anniversary of his death.

It was on the Chester O'Neil wheat farm, eight miles west of Hutchinson, that the late President shocked grain in the "Ohio way," as he expressed it to Senator Arthur Capper and Gov. Jonathan M. Davis of Kansas, who previously had showed the Kansas way of doing it. Then Mr. Harding drove a harvesting machine several times about the field so the "newspaper boys could have a story," as Mrs. Harding said.

The president and party had been greeted at the entrance to the farm by a little group of country folk, among them several children. With them the President and Mrs. Harding chatted freely, the president taking some of the children in his arms. These children and others of Reno county, by contributions of nickels and dimes, raised the fund to erect the memorial.

A bit of ground at the entrance to the field was donated by Mr. O'Neil and a pretty little park was laid out, with shrubbery, blue grass and a surrounding stone wall. Here on the top of Rayl Hill, where thousands of tourists pass on the paved highway that is a part of the New Santa Fe trail the memorial will stand. Atop a flag staff the American flag will fly daily, for the children of the Rayl school have obligated themselves to be custodians of the colors, to see that the flag is raised and lowered each day.

VISIT THE NEWPORT BEACHES
And use this road log. It will tell you the exact condition of the highway from Salem to Newport

LEAVING Salem you follow the Pacific Highway to Jefferson which is 18 miles from Salem, then on to Albany 10 miles farther. This portion of the trip is all on paving and the streets of the towns are plainly marked with highway signs so you cannot miss the road.

The bridge at Albany is closed, so you turn to the left at the foot of the bridge and take the east side route to Corvallis, 27 miles from Salem. This is an excellent gravel road.

Follow the Newport highway signs out of Corvallis and you will find a gravel road taking you into Philomath, 45.5 miles from Salem.

LUNCHES
Confectionery, Fountain Drinks, Milk and Cream
Bakery with home-cooked products, pies, cakes, and other good things.
POLLYANNA CAFE
Philomath, Oregon.

After leaving Philomath the road is slightly rough for the first few miles but one is comfortable at a speed of about 25 miles. About 12 miles from Philomath proceed more carefully, as there is a rock crusher and a bridge under construction, both requiring short detours of a few feet on a rather narrow road.

After these detours the road is excellent and fairly straight into Eddyville, which 75.1 miles from Salem. This portion of the road follows in succession the Marys, Little Elk, and Yaquina rivers. Anyone wishing to tarry and fish for a short time should stop and ask Mr. Mauch, proprietor of the service station and store in Eddyville to direct them as there is excellent fishing.

EDWARD MAUCH
Service Station, Garage, General Merchandise
C. T. C. & Goodyear Tires
Eddyville, Oregon
The halfway station between Corvallis and Newport

From Eddyville to Toledo which is 93.2 miles from Salem, the highway is freshly graveled and a wonderfully scenic trip. The fact that there are numerous curves and rather heavy traffic requires that you exercise caution.

On reaching the outskirts of Newport, if you wish to go to Agate Beach turn to the right at the first service station that you reach and follow the plank road for three miles. If you wish to go to Nye Beach follow the highway into town until you reach the stage terminal, 100 miles from Salem, then turn to the right and follow the plank, or if you wish to go to the downtown section turn to the left at the terminal and follow the plank.

Carrier Pigeons Prefer Ships To Flight Across Channel

BREMERHAVEN, Germany, July 21.—American ships seldom make the trip between Bremerhaven and Southampton without having carrier pigeons as passengers. The crews of the shipping board vessels have made a practice of supplying the tired carriers with food and water, and they seem to have learned to identify the American flag and make for
