Texas has over 2000 miles of state highways under construction according to the reports received by the U. S. Bureau of Public Roads. This includes 146 miles of concrete and brick pavements, 425 miles of asphalt pavements, 1190 miles of gravel and macadam roads and the remainder sand-clay, shell and earth roads. This large program is estimated to cost about \$28,700,000 of which \$13,300,000 is to be paid by the state and federal government, leaving about \$15,400,000 to be paid by the counties and road districts.

Last year 1078.5 miles of state roads were completed in Texas at a cost of \$19,657,821.47 but this year's work is expected to exceed these amounts by at least 50 per cent.
