GREAT RALLY WEST SALEM

Bishop Johnson Will Hold Rousing Meeting Next Wednesday

On Wednesday evening, August 27, a general rally will be held in the West Salem unfinished Methodist church. This will be the first appearance in Salem of the distinguished Methodist Bishop Eben S. Johnson of Cape Town, South Africa. Bishop Johnson is in the northwest for a few months and will be welcome to Salem on that occasion. The three Methodist churches in Salem will be represented by their ministers and short talks from laymen. There will also be a choir of over 50 voices composed of the singers from all four of the churches. In addition to this district Superintendent E. E. Gilbert will be present and make a short talk. This occasion will be one of the most interesting that could be held.

The Methodists of West Salem under stupendous difficulties have been building a church. They have it under cover and they are ready now to hold meetings in the building. It is occasion for rejoicing, an occasion for felicitating and an occasion that will be fittingly celebrated with the appearance of this great bishop in the pulpit. The new church has been named Thomas Burgess Ford Memorial church and is one of the handsomest smaller structures in the Oregon conference.

The laymen appointed from the other churches are Leslie, H. C. Leavenworth, Jason Lee to be appointed, and the First Church, John L. Brady.

Bishop Johnson has a great spirit. He is described as a speaker of force and certain it is he has a big reputation in religious work. His presence there should result in a big crowd being in attendance. The meeting will begin at 7:30 p. m.

Two Solos By Gingrich Scheduled for Tonight

Two vocal selections will be offered by Oscar Gingrich for the Cherrian band concert in Willson park tonight. The program arranged by Oscar Steelhammer, director, is the same as was given in Mt. Angel last night. Next Tuesday will feature another of the request programs. It is expected that the male quartet and the clarinet duet will appear on the program.

The concert for tonight is as follows: Cavalcade march, Chambers; Medley overture, "In the Shad-ows," Williams; Sunnyland waltzes, Rosner; (Dear California); popular numbers; vocal solos, "For You Alone," and "Why Did I Kiss That Girl?" Oscar Gingrich, the latter number will be sung by request; overture, Morning, Noon and Night in Vienna, Suppe; Humoresque, Dvorak; selection, "Chimes of Normandy," Laurendeau; Apollo march, King; Star Spangled Banner.

Last of Green Prunes To Move Over Week-End

Last of the green prunes will be picked and shipped over the week-end and probably wind up the season, is the consensus of opinion of a number of growers and shippers. Operations at present are almost at a standstill. Fruit received during the last day of two has been cracked by the rain to such an extent that one packing plant had to put on an increased force yesterday to sort the prunes. Picking was called off yesterday by Young & Wells, though it was said the lay-off would be temporary and the order issued to relieve congestion at the warehouse.

Astonishment is the emotion experienced by your relatives when you make good.

VOLUNTEER ROWS TO RESCUE OF FAMILY IMPRISONED BY WORST POTOMAC RIVER FLOOD IN YEARS

Thousands of persons were made homeless in the valley of the Potomac, and the damage amounted to hundreds of thousands of dollars.

Several Hearings Set By Service Commission

Hearing of the application involving an extension of the Portland Railway, Light & Power company's lines on the Sandy boulevard has been set for September 4 in Portland. Other hearings set by the public service commission yesterday follow:

September 5, Salem, reappointment of costs of overhead crossing at Oakland.

September 5, Salem, reappointment of costs of overhead crossings at Wilbur and Sutherland.

September 9, Salem, suspension of Salem street railway tariff.

September 9, Salem, suspension of Eugene street railway tariffs.

September 16, Salem, demurrage recovery sought by Silver Falls Timber company from Oregon-Washington Railroad & Navigation company.

DOCTOR SCOTT LEASES MACHINE

A Wonderful New Invention Promises Great Changes

Dr. O. L. Scott has just leased a new machine called the Neurocalometer, a highly sensitive instrument for allocating spinal trouble by heat variations. The invention was made after years of study by Dr. G. B. Palmer and Dr. D. D. Ewins of the Palmer School of Chiropractic. "The Neurocalometer," stated Dr. Scott in discussing the invention, "is based on several fundamental facts in the theory of chiropractic. Chiropractic rests broadly on four premises. We believe that disease can be traced to subluxations of the vertebrae, to nerve pressure and to barriers in nerve transmission. A subluxated vertebra is one partially dislocated—'sub' because the dislocation is a minor one or is incomplete. A pressure on a nerve center causes a positive barrier and a negative nerve transmission, which we seek to remove by an adjustment of the subluxated part; in order to bring about a negative pressure and a positive transmission of nerve messages. "When nerves are pressing against one another we have what might be called a short circuit or a hotbox," explained Dr. Scott. "The same thing occurs when vertebrae are subluxated, inflammation and heat being produced at these points of resistance. The purpose of the Neurocalometer is in being able to detect these minute differences in heat created by crossed nerves, and recording them." When the Neurocalometer was first presented to Chiropractic, tests were made by the United States bureau of standards at Washington, and the report was returned by experts that it accurately registered thermal differences of 1-100th of a degree centigrade. Dr. B. J. Palmer has now applied for six patents on the invention in 17 countries. All are now pending.

HAZEL GREEN

Mrs. N. P. Williamson and daughters, Mildred, Bertha and Rosalie and son Will, spent Thursday in Portland, shopping. Mr. and Mrs. Edward Dunigan, Sr., spent the week-end at the coast. Max Woods is at the Hot Springs. Miss Fay Spaulding and friend, Miss Young, of Salem, visited the neighborhood Tuesday to plan for class in music to begin in October. At quarterly meeting W. A. Dunnigan was elected delegate and G. G. Looney, alternate to the annual conference to be held at Portland in September. Mr. and Mrs. Archie McCorkle and daughter Velma, and Claude and Frank Lucanbeal have returned from the coast. Helen Davis is suffering from sore throat.

FIELD DAY TO FINISH SEASON

North Fourteenth Street Playground to Close With Appropriate Event

Plans are being made for a huge field day program to be held late next week at the North Fourteenth street playground as a fitting close of the summer playground season, which will end a week from Friday. The playground, as well as the South Salem playground at the Lincoln school, was opened June 29. During the two months that the play has been directed under the supervision of trained workers, hundreds of Salem youngsters have visited the grounds, taking part in the athletic games, swimming events, races and story telling hours.

Just how many youngsters were on the grounds this year has not been ascertained as a complete check has not yet been taken. The South Salem playground was added this year, under the supervision of Miss Adna Robbins, a student at OAC, and has had a daily attendance of between 50 and 75 youngsters. The North Fourteenth street playground, an established institution, had more to offer in amusement as a special swimming pool had been constructed. The work here was in charge of Miss Grace Snook and Leslie Sparks. Cool weather and a ban upon the pool for nearly a week tended to cut down the attendance this year and the other playground attracted many that had gone to the North Salem playground in previous years. The attendance however, was more than 100 each day, on an average.

With fruit picking in full swing and the hop yard attracting many families, the work is being wound up for the year, as the youngsters are accompanying their families to the orchards and hop yards.

Road Bonds to Be Retired By Treasurer's Payment

Jefferson Myers, state treasurer, yesterday was authorized by the state highway commission to pay out of the state highway fund the amount of \$100,000 in retiring an equal amount of road bonds which mature Sept. 1, 1924. These securities are a part of the cooperative bonds issued in the year 1917 to match federal appropriations for post and forest roads. There has previously been retired \$365,750 of the bonded debt of the state on account of highway bonds. No new highway bond obligations have been incurred during the current year.

ADVENTISTS MAKE REPORT

FOREST GROVE, Or., Aug. 21.—The annual conference of Seventh-Day Adventists here today devoted considerable time to its routine business. President Norwood's annual report showed that substantial gains had been made in each department. E. W. Nelson, business manager of the sanitarium, a conference institution, gave his annual report, which showed the institution to be in a prosperous condition. The total number of patients admitted for the fiscal year ending June 30, 1924, was 2160. The charitable work done and the discounts allowed, amounted to more than \$6000. A new unit, 43 feet square is being added, one floor of which will be used for an assembly room. At 7:30 p. m., Elder G. W. White, pastor of the Tabernacle church, Portland, spoke on "The Second Coming of Christ—the Hope of the World." "The alarming crime wave, the increasing divorces, the horrifying suicide rate, the prevailing unrest, earthquakes in divers places, famines, floods and tidal waves, and superabundance, are God's great warning cry to a sin-sick world that deliverance draweth nigh," declared Elder White. "The hope

Prune Shipments Cease From Dallas

Shipment of green prunes for the eastern market will come to a sudden halt in Dallas today. Deeny & company gave orders Wednesday morning by telephone to the local plant authorizing them to notify all growers to cease picking and to stop packing operations Thursday.

Cracking of prunes from the recent rains was assigned as the cause for the move. The decision, to cease shipment came like a bolt out of the blue for yesterday buyers were at work among the growers and notification was sent to prune men to pick their prunes as fast as possible, notwithstanding the rain. The cracking has been slight and is of no consequence whatever so far as drying is concerned, local prune men state. A continued rain will have a bad effect, however, as the fruit is ripening rapidly.

The dropping out of the green prune shippers at the height of their season means that a larger amount will be dried here than had been anticipated. The packers shipped out between 40 and

of the world in this trying hour, when God's prophetic alarm clock is about to call the Savior back. He is in the acceptance of Christ." He declared that Christ's return promised by him in Matthew xxiv will be in this generation.

Opinions differ here as to the time the drying will start. It is probable, however, that some fruit will have to be cared for by September 1, or possibly a few days earlier.

No brown rot has developed in the prunes taken in here, and a very careful check was kept on this during the operations of the green fruit packers. It is entirely possible that something other than the cracking of the prunes has caused the cutting off of the shipments. It was predicted on the start from many points that prunes were being taken too green and it is possible the condition of the first cars at the market had something to do with the fear of the effects of the rain.

The prunes handled this week have been of much better quality, aside from a small percentage of cracked ones, than had been handled earlier.

Marcus is Improving—Rapid progress toward recovery is being made by A. F. Marcus, of the Doughton & Marcus hardware firm, who suffered a light stroke of paralysis on June 28. Mr. Marcus and his family are now at Neskowin and it is expected that he will be able to return
