Signal Improvements That Accomplish Amazing Results-Found in No Other Car

The Rollin European type, high compression, small displace-ment motor, with its great flow of smooth power, has an efficiency of fuel utilization that permits the remarkable economy

of from 25 to 30 miles per gallon of gasoline. 4-bearing crankshaft, aluminum alloy pistons and connecting rods, balanced statically and dynamically, and precise manufacture make the Rollin practically free from vibration.

A perfected system of force-feed lubrication hrough drilled crankshaft to all important rotating bearings, permits power to be used to full advantage.

Balloon tires "boulevard the bumps." The Rollin was designed specifically for Balloons, and the very highest degree of riding comfort may be expected

And four-wheel, mechanical, internal expanding brakes just double the factor of safety.

Try this car yourself. You will get a new thrill from a ride in the remarkable Rollin-the most advanced car of the season. Touring Car, \$995 Three Sea

Coupe Roadster, \$1195 Five Passenger Sedan, \$1295
