New Method Eradicates Wrinkles Like Magic

It has been found that a simple tar-ketroot mixture, spread over the entire face acts almost magically upon even the deepest wrinkles and crowfeet. It produces the natural rejuvenating effect of massage, only to a more marked degree. The danger of loosening the skin of the face, as in unscientific or too frequent massaging, is eliminated, no rubbing being necessary. On the other hand, the skin and underlying tissues are invigorated, they become much firmer, and the skin's texture is so changed it again assumes its original clear, smooth, velvety appearance.

If you will procure a package of powdered tar-ketroot from your druggist, mix a spoonful with a spoonful of lemon juice, apply with the fingers, and sit down before your mirror, you will see the wrinkles and sag disappear, in less than 15 minutes! You will be amazed to say the least. Tar-ketroot of course is perfectly harmless. And certainly it is inexpensive; a treatment costs less than three cents!

They also expect the journey to Boston from Pictou to be made in one jump.
