NOTED SURGEON ADVISES
BOYS—"Keep yourselves free from all entangling habits. We have tried to give you a field free from the barricades which used to be set up by the legalized liquor traffic. "It is through the boys of today that we hope to see a sound and everlasting exhibition work-

ed out in this country. "You will hear on every side men bewail the loss of their drink, of their personal rights, but the rights of the few who can not see ahead or have the future of their nation at heart must be regulated to safeguard that great body of future citizens who are now ready to step into the ranks. You boys have some-

thing ahead of you in the problem of preventing the return of liquor. "It is the brain that counts, but in order that the brain may be kept clear you must keep the body fit and well. That can not be done if one drinks liquor." Dr. Charles Mayo, noted surgeon, at Y. M. C. A. convention, Rochester, N. Y.

Gifts that Last

"Pay Us as You are Paid"

The real reason for the success of the Burnett Jewelry Stores is not hard to find! It's because the Burnett Stores really help people.

Instead of asking for "Cash Down" as in the good old days—we offer a year's time to pay.

Our losses are very very small. Once in a blue moon we lose a little—but the majority—the great majority, of the American people are honest.

Therefore we invite you to come to the Burnett Jewelry Store and to open an account. There is no red tape connected with the transaction. No fuss. It is just as confidential, just as "proper" and a whole lot easier than if you borrowed the cash at your own bank and paid cash for all your gifts. Indeed—in this new and better way—the Burnett Jewelry Store becomes Banker and Jeweler—both in one!

We take the broad stand that everybody is entitled to Credit unless they themselves have shown that they are Not.

We guarantee—not only the lowest cash prices—but the easiest terms. Money back if you can do better anywhere else!

How To Invest Wisely?

The answer is simple. Apply the following tests:

First—Make your investment in an enterprise known to be thoroughly responsible and which has a good reputation to protect.

Second—Is it an essential business?

Third—Be sure that whatever you invest in is at least a fairly large and comprehensive organization and engaged in a business that is essential and of universal demand.

Fourth—Make sure that the management of the enterprise that you invest in knows its job and has proved its fitness for running the business; through wars, panics and the complexities of a rapidly changing world.

Fifth—Invest preferably in a Home Institution managed and operated by your friends and neighbors, whose property devoted to public service can be inspected and investigated by you at any time. In other words, invest in a proposition where you can see your money working for you any time you want to.

We have no hesitancy in saying that the Portland Electric Power Company will pass any and all of these sure tests, and that you will make no mistake in increasing your holdings in our securities to whatever extent your finances and habit of thrift will permit.
