A weird looking home-made still, apparently made from a collection of castoff household utensils, was taken into custody last Wednesday, together with the alleged owner of the apparatus, it was announced by county authorities yesterday. The theory has been advanced that A. Henry, the arrested man, upon whose place the still was found, was merely made the goat by other bootleggers, but authorities are investigating to see if this theory has any basis in fact. The raid was made by Deputy Sheriffs Bert

Smith and Roy Bremmer. The still was found, together with about 200 gallons of mash, in the Rosedale district about 10 miles south of Salem. A wash boiler, an old teakettle, a piece of copper pipe and a water bucket were the principal objects of which the still was composed. No actual liquor was discovered.
