Ceremonial and Initiation  
 Staged Last Night By  
 Several Posts

Representatives from nearly all  
 the Veterans of Foreign War posts  
 in the state, including a delega-  
 tion of about 35 from Portland,  
 gathered here last night for a  
 huge ceremonial and initiation. A  
 class of 18 candidates was initi-  
 ated.

The drill team from World War  
 Post No. 907 had charge of the  
 active work. This team has par-  
 ticipated in other ceremonials  
 throughout the northwest.

Included in the list of visitors  
 are the departmental officers, J.  
 W. Jones, state commander; B. H.  
 Yeomans, quartermaster, and L.

**Beauty**

A Gleamy Mass of Hair  
 35c "Danderine" does Wonders  
 for Any Girl's Hair

Girls! Try this! When comb-  
 ing and dressing your hair, just  
 moisten your hair brush with a  
 little "Danderine" and brush it  
 through your hair. The effect is  
 startling! You can do your hair  
 up immediately and it will appear  
 twice as thick and heavy—a mass  
 of gleamy hair, sparkling with life  
 and possessing that incomparable  
 softness, freshness and luxuriance.  
 While beautifying the hair,  
 "Danderine" is also toning and  
 stimulating each single hair to  
 grow thick, long and strong. Hair  
 stops falling out and dandruff  
 disappears. Get a bottle of de-  
 lightful, refreshing "Danderine"  
 at any drug or toilet counter and  
 just see how healthy and youthful  
 your hair becomes.—Adv.

**FOSTER-MOTHER OF MILLIONS**

She is the American dairy cow,  
 one of the greatest benefactors  
 of human kind from infancy to  
 old age. She feeds the multitu-  
 de, and with most nourishing  
 and life-sustaining of foods. It  
 is meet that she should receive  
 recognition and credit for the part  
 she has filled in the long march  
 of civilization. This tribute to  
 her by the Outlook is food for  
 thought.

"Looking at her as she stands  
 in the fresh grass by a brookside,  
 placid, fawn-eyed, unpretentious,  
 one would never suspect that she  
 has saved the lives of 12,000,000  
 children. She is the best friend  
 that war-worn Europe found in  
 the world. She relieved the suffer-  
 ing of today; she saved the men  
 and women of tomorrow.  
 Without her, the slow wasting of  
 war's aftermath would spread a  
 more terrible devastation in 1940  
 than the red carnage of the bat-  
 tle-front ever brought in the fren-  
 zied years of conflict. She over-  
 came the enemies that walk in the  
 wake of war—famine, and pesti-

lence, and children dwarfed and  
 imbecile. She is the American  
 dairy cow. She stands in the  
 stanchions of the United States,  
 23,000,000 strong. Every two  
 dairy cows in the United States,  
 on the average, have saved one  
 child's life in Europe in addition  
 to doing their duty at home.  
 "Secretary Hoover paid the cow  
 this tribute when he addressed the  
 World's Dairy Congress in  
 session in Washington. The feed-  
 ing of these masses of under-  
 nourished children demonstrated  
 from the outset," he said, "that  
 there was no substitute for milk  
 and that, while a wide range of  
 alternatives existed among other  
 foodstuffs, this commodity was  
 essential for their restoration to  
 health and strength. It could  
 well be said that the saving of  
 these millions of children was ac-  
 complished only by virtue of the  
 strength of the American dairy  
 industry."  
 "That ought to settle the age-  
 old argument as to which of the  
 domestic animals is man's best  
 servant. Much poetry, eulogy,  
 and fine sentiment have been  
 written around the horse and the  
 dog. The cow has been compar-  
 atively little on the printed page  
 and hardly at all in the history  
 of wars. Hers is not the heroic  
 role of the soldier's mount, of the  
 police dog among the tangled  
 wires, not even of the braying  
 mule in a pack-train moving  
 through the mud. She is one of  
 those who, when fifes scream and  
 battle-flags fly, stay behind and  
 do a homely duty. Yet without  
 her the world were lost."

**County Court Places \$2400  
 In Budget for Health Work**  
 The county court has placed on  
 the ballot for November 4 a pro-  
 posed budget for county health  
 work. This is the first time the  
 court has placed before the people  
 the question as to whether they  
 are interested in the health of  
 their children.  
 During the past six months  
 health work has been going on  
 among especially the children of  
 the rural districts. This has not  
 cost the county a dollar. All ex-  
 penses have been made by women  
 who feel a deep interest in the  
 health of the growing child.  
 Every dollar needed for the work  
 of the past six months has been  
 provided by women from the sale  
 of tuberculosis stamps.  
 These women, who are not as-  
 sured of a fund for keeping up  
 this work, are appealing to the  
 women of the county, and the  
 fathers as well, to vote in favor  
 of this proposed budget of \$2400  
 a year. They claim that a county  
 that is assessed at more than  
 \$43,000,000 and really worth  
 more than \$100,000,000, can af-  
 ford to spend \$2400 a year in  
 looking after the health of its  
 children.  
 The women who have secured  
 funds necessary to keep up the  
 child health work the past six  
 months are appealing to the voters  
 of Jefferson precinct to help in  
 keeping up the good work, as  
 funds will not be available after  
 the first of the year.  
 Reports from all parts of the  
 county show a growing interest  
 in health work among children.  
 Marion county, the second richest  
 county in the state, has been one  
 of the most backward when it  
 comes to child health work. The  
 county court has not on its bud-  
 get a dollar to spend in county  
 health work.—Jefferson Review.

 which they had apparently held in  
 reserve, after finding that they  
 were able to stem the opposition  
 attack and prevent their goal line  
 from being crossed in the earlier

**2500 New Freight Cars  
 For Great Northern RR**

SEATTLE, Oct. 10.—Directors  
 of the Great Northern railway  
 have authorized Ralph Budd, pres-  
 ident, to purchase 2500 freight  
 cars costing \$5,500,000, accord-  
 ing to advices received here today  
 by railroad officials. In addition  
 to these, the Western Fruit Ex-  
 press company is building 3500  
 refrigerator cars for use by the  
 Great Northern.  
 Between eight and ten million  
 feet of lumber is to be used in  
 constructing the freight cars and,  
 in accordance with the Great  
 Northern's policy, the lumber will  
 be purchased from mills on its  
 lines.

**CUCUMBER PICKLES**

In the Ladies' Companion for  
 1859, is the following recipe for  
 pickling cucumbers:  
 Pick the small green cucum-  
 bers. Turn on boiling water and  
 in 4 or 5 hours stake them out  
 and put them in cold vinegar, with  
 a spoonful of alum and a tea-  
 spoonful of salt to every gallon of  
 vinegar from the cucumbers; scald  
 and skim it; then turn it on the  
 pickles, and scald them without  
 boiling a few minutes. Then put  
 them hot in the vessel for keep-  
 ing. To make them brittle, scald  
 several times. Put in a few peppers.

**Truthful Radio Amateurs  
 To Be Given Certificates**

CHICAGO, Oct. 10 (AP)—An-  
 other innovation in the radio  
 world will be launched Oct. 14,  
 when a score of the leading broad-  
 casting stations of the United  
 States and Canada will begin the  
 issue of engraved stamps, each  
 bearing the surcharge of the in-  
 dividual station, to listeners who  
 submit reasonable proof they  
 have actually heard a station's  
 program.  
 It is planned to give radio fans  
 another sport in stamp collecting  
 as well as make bona fide the re-  
 ports of long distance radio re-  
 ception. The idea, conceived by  
 Towner K. Webster, brother of  
 the novelist, has been adopted by  
 stations in virtually all the larger  
 cities of the country and later is  
 expected to be universally in  
 vogue.

The stamps bear upon their  
 face a picture of an eagle stand-  
 ing between two aerial towers of  
 a radio-casting station, the one  
 emblematic of the king of the air  
 and other signifying the king of  
 the ether. Below the pictured de-  
 sign of the two kings are the sta-  
 tion call letters and in the corners  
 are the letters EKKO, selected to  
 identify the stamps from spurious  
 issues which might be put out.  
 An album has been prepared for  
 the stamps, with pages arranged  
 by states and provinces. For the  
 luckier fans is a page for stamps  
 for the more powerful foreign

**Rough Diners Wreck  
 Table Ware at Wembley**

LONDON, Oct. 9.—(AP)—The  
 average daily crowd of 70,000 peo-  
 ple eating in the numerous res-  
 taurants at the Wembley Exhibi-  
 tion are responsible for the smash-  
 ing of 30,000 pieces of crockery  
 every six days. In an average  
 week the breakages are 761 dozen  
 cups, 345 dozen saucers, 472 doz-  
 en plates and 774 dozen miscellan-  
 eous pieces, according to the firm  
 which has the contract for feeding  
 the visitors.  
 These figures do not include  
 glasses broken in the drinking sal-  
 oons, and it is stated that it is  
 no uncommon thing in a busy  
 week for one bar to smash 1500  
 glasses. As there are some 54  
 bars in the exhibition, it is ap-  
 parent that the number of glasses  
 smashed since the exhibition open-  
 ed in April must be about 700-  
 000.

**LEGION PRIZE AWARD ENABLES  
 ROSEN TO REMAIN IN COLLEGE**

Biographies are replete with  
 the oft repeated story of the poor  
 boy who was determined to obtain  
 an education at all costs, provided  
 the efforts were honorable. You  
 have often read of the struggle to  
 obtain a college education—of the  
 hours of hard work long before  
 the more fortunate student has  
 awoke from a pleasant night of  
 sleep and again of how the stu-  
 dent ceaselessly continued to labor  
 long after his classmates have  
 dimmed their lights at night. It  
 is of such trials and tribulations  
 that is chronicled the story of  
 Harvey Rosen, a student at Willa-  
 mette university.  
 When Hamilton F. Corbett, of  
 Portland, donated \$350 in cash  
 prizes through the Oregon depart-  
 ment, American legion, to be  
 awarded the three winners in the  
 state wide essay contest on  
 "Peacetime Patriotism" it is  
 doubtful that he had little else  
 in mind than stimulating patriot-  
 ism in the minds of the younger  
 generation. At any event it is  
 impossible that he could have con-  
 ceived that the first prize, a  
 check for \$200, would enable a  
 deserving student to continue his  
 course at college for the remain-  
 der of the year and possibly for  
 the next year as well.  
 Harvey Rosen is 21 years old  
 and a student at Willamette uni-  
 versity, in Salem. He was de-  
 termined, as were the young men  
 whom the biographers write about

to fit himself for his future by  
 obtaining a college education. Un-  
 daunted by the inability of his  
 family to give him financial as-  
 sistance, Rosen enrolled this fall  
 with a total capital of \$25, an  
 amount insufficient in itself to  
 pay for more than the entrance  
 requirements. He immediately  
 obtained a job and went to work  
 outside of classroom hours.  
 Just what were his sensations  
 when he learned that his essay, in  
 competition with others had been  
 adjudged the best in the county  
 and then had been awarded first  
 place in the state contest, are un-  
 known. His parents are un-  
 doubtedly filled with pride at his  
 achievement. His fellow stu-  
 dents should receive added stim-  
 ulus and a greater realization and  
 appreciation of their opportunities  
 and others be thrilled by what he  
 has accomplished.

Aside from the pleasure of hav-  
 ing written the best essay in the  
 state, there is the financial as-  
 pect. The money came as a  
 Godsend, for with it and economy.  
 He will be able to continue his  
 studies this year. Summer vaca-  
 tion will arrive and an opportu-  
 nity to provide for more funds.  
 Careful husbandry of the money  
 will permit him to enroll as a  
 student again last year.

George P. Griffith, state com-  
 mander of the American legion  
 and Clifford Brown, chef in care  
 of the Societe des 40 Hommes et  
 8 Chevaux, invited Rosen to  
 drive to Roseburg, his home town,  
 with them. The check was tak-  
 en along. Umpqua post of the  
 American legion had arranged for  
 fitting ceremonies. Rosen's father,  
 mother and little sister were  
 present when Commander Griffith, in  
 the name of the state department,  
 presented him with the little slip  
 of paper that meant so much. A  
 simple ceremony, yes, but never-  
 theless impressive.  
 Peace time patriotism? If there  
 be such, then Harvey Rosen surely  
 deserves the distinction of being  
 a peace time patriot.

As to unconscious humor, there  
 is the rumor that Dempsey will  
 marry and retire from fighting.
