Two months in Salem and such an increase in business that it is necessary to not only double, but triple, the size of his place of business is the record that has been made by Mr. Renner, who about two months ago engaged in the cleaning, pressing and tailoring business at 152 South Church street.
Mr. Renner is today completing the installation of a prosperly steam pressing machine which is the last word in tailoring equipment. This machine is not only designed to handle all grades of fabrics with equal facility, but it is so designed that it drives live steam through the fabrics thus absolutely melting the dirt in the goods.
The new machine will be installed on Columbia street where all cleaning and pressing will be handled. The building immediately back of the new Elks Temple is being remodeled to house the tailoring department, while Mr. Renner himself will remain in charge of his present quarters where he will maintain his headquarters at 152 South Church street.

policy to the determination of any group of powers. It would not tolerate the making of an agreement for such submission. We would not be willing to enter any organization through which a group of powers would be in a position to intervene or attempt to determine our policies for us.
"We have favored and do favor, the submission to arbitral or judicial tribunals of international questions, that is, the decisions of questions arising under our treaties and under international law because these questions are to be resolved by principles which are commonly accepted.
"But when we are outside the domain of our treaties and are dealing with our own domestic questions, we reserve our freedom to determine our own policies.
"So far as cooperation is concerned in humanitarian endeavors, we now have it and on a considerable scale. We are glad of that cooperation. As I have said, our form of cooperation is suited to the fact."
Mr. Hughes led up to his decision by asking that "if Mr. Davis' criticisms have any significance or point to any definite line of policy, they mean that he would like to renew the controversy over the league."
