

CHERRIAN EULOGY OF GEO. RODGERS

Salem's Uniformed Boosters Pay Tribute to Their First King Bing

(The following expression of respect honoring the memory of the late Cherrian was adopted at the meeting of the Cherrian organization. A copy of same was ordered sent to the family.)

The untimely death of our

A CAUSE OF WOMEN'S ILLS

WOMEN OFTEN THINK THEY HAVE HEART TROUBLE, INDIGESTION, NERVOUS PROSTRATION, ETC., WHEN IT'S SIMPLY IRON STARVATION OF THE BLOOD.

Many women believe they are weak and nervous as a result of age, worry and overwork; they think their "disturbed digestion, headache, heart palpitation, shortness of breath, pains across the back, etc.," are due to some serious disease instead of the real cause—iron starvation of the blood. This is proven by the fact that when many of these same women take organic iron for awhile all their alarming symptoms quickly disappear and they become strong, robust and healthy. Iron is absolutely necessary to enable your blood to change food into living cells and tissue. Without it nothing you eat does you the proper amount of good—you do not get the strength out of it.

If you are not strong and well do not wait until you go to pieces and collapse in a state of nervous prostration, but take some organic iron—Suxated Iron—at once. But be sure it's organic iron and not metallic iron which people usually take and which is made merely by the action of strong acids on small pieces of iron. Organic SUXATED IRON is like the iron in your blood and like the iron in spinach, lentils and apples and it often increases the bodily and mental vigor of weak, worn-out women in two weeks' time.

Beware of substitutes. Look for the word "Suxated" on every package and the letters N. I. on every tablet. Your money will be refunded by the manufacturer if you do not obtain perfectly satisfactory results. At all druggists.—Adv.

esteemed fellow-member, George F. Rodgers, has come to us with a great shock and will not only be deeply felt by this organization but also by the community and state at large.

As first King Bing of the Cherrians he exerted the energy and enthusiasm that was so essential in making our organization a success from the very start. Whenever time and opportunity offered thereafter, he gave the Cherrians his fullest and heartiest support. In every sense of the word, George F. Rodgers was a typical "booster," the progress and up-building of his home city being always uppermost in his heart and mind.

His genial and whole hearted nature was always an inspiration to all who came in contact with him, and the deep interest and energy which he showed in all affairs that concerned the welfare of Salem and its institutions assured ultimate success to them.

Those who knew him best will feel his loss the more keenly and realize how difficult it will be to fill the place left empty by his untimely death. The memory of our departed associate and "booster" will always be cherished and kept alive for many, many years in the annals of the Cherrians and the city of Salem.

NEW FREIGHT LINE ESTABLISHED

A Real Benefactor to the People of Salem and Willamette River Points

The boat line on the river is fast being put into shape and has prepared the following announcement to the public which will be very interesting to those who have been following and hoping for river transportation:

Commencing Tuesday, October 21, the Inland Waters Transportation company will inaugurate a river freight transportation service, Portland to Salem and return. The Steamer "Relief" will leave Salem Wednesdays, Fridays and Mondays at 6 a. m., and from Portland Tuesdays, Thursdays, and Sundays. Depending on the support given this new line depends whether or not a daily service can be given.

Desiring to give the greatest assurance for safety to the ship-

pers of freight, we have re-built the Steamer "Relief" to practically a new boat. The operations of this boat will be under the mastership of Captain Fritz Kruse, known by Custom Collectors and government engineers and the river people in general as one of the most reliable masters. In the chief engineer, Robert Kerns, we believe we have procured for this first boat the best engineer on the several Oregon and Washington rivers. Each had previously passed a rigid government examination.

Shipping your freight by the smooth water route, eliminates that rough jar and handling so often complained of and, at a substantial reduction in freight rates, a reduction that should mean much to the consumer of most every commodity shipped into and out of Salem.

We have much faith in the numerous offers of support from Salem and Portland shippers and receivers of freight and because of this have erected a spacious well-built warehouse at the intersection of Court and Water streets to adequately serve our customers. An agent will be on hand all day and will be glad to talk over our service to you. Telephone number 324 for further information. No passengers carried.

Our warehouse facilities at Portland offers unlimited space and the best protection, we having arranged for docking and warehouse accommodations with Albers Brothers Milling company for their Dock No. 3, on which dock we will maintain an office and telephone. Watchmen on duty day and night.

Depending on whether the shipping public will support this new river line to their utmost depends whether or not the public in general will continue paying a tariff that is so unjust to Salem and the
