The occupants of the room, two white men and a Chinaman, thought they recognized the youth and told their story to the officials. Manholes near the Oregon Packing company's plant were partly filled with pumpkin seeds when a strainer on the drain from the plant was found defective. Whether the seeds will prove troublesome in the Bellview sewer, one of Salem's largest, remains to be seen. Minor improvements are being made by the street commissioner and several troublesome catchbasins have been cared for, several others will be modified and trouble from high water will be eliminated.
