Strong Foreign Demand and Domestic Inquiries are Showing Increase

With a strong foreign demand and domestic inquiry on the increase, the situation in the prune market is very promising, according to Robert C. Paulus, local fruit broker.

The French prune crop is not so large this year, but the quality in general is very good. For this reason, French producers are unwilling to put their goods on the market at the prevailing low price.

A telegram received Tuesday from H. R. Jones, of the Drager Fruit company, indicated that a number of concerns were quoting prunes at a lower price, just at a time when conditions seemed to be favorable for even a rise.
