MR. CHARLES KADDERLY from Cribben & Sexton, makers of the nationally-known Universal Ranges and Air-Blast Heaters, will be in the Stove Section every day this week to point out, with our own experts, the advantages of cooking with a Universal and heating with a Universal.

THERE are many reasons why you should buy your Universal Range or Air-Blast Heater this week—all styles are here, you can take advantage of the free silverware or dinner set offer, pay as little as \$10 down and make your own terms in reason on the balance.

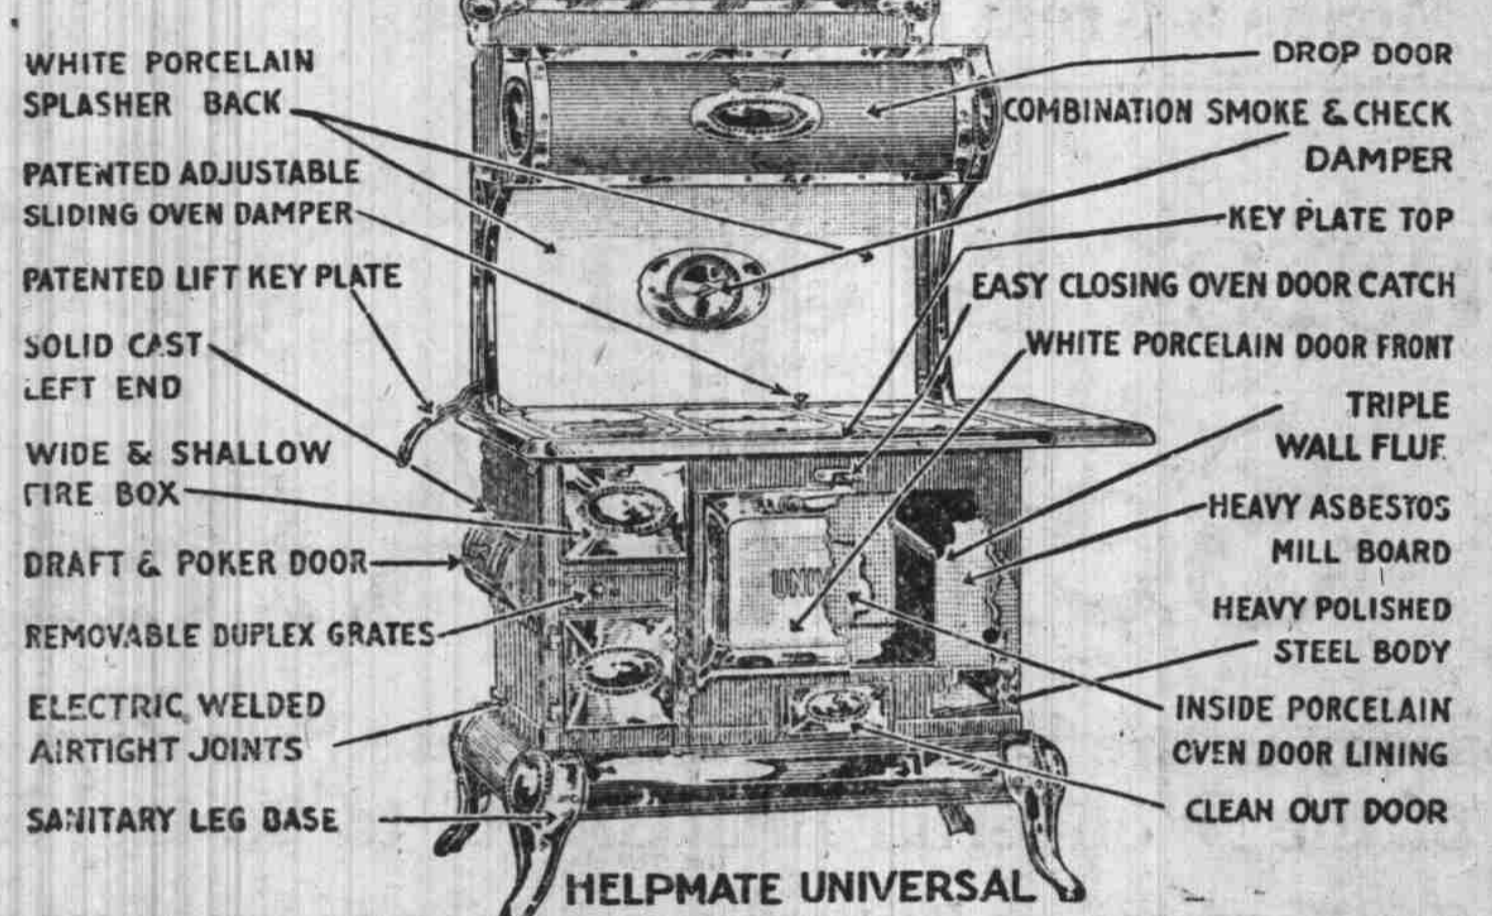

UNIVERSAL CAST RANGE

Nothing to rust out, the fire boxes have Duplex grates which use hard coal, soft coal or wood with equal satisfaction. All of these ranges can be furnished with seven-gallon copper-contact reservoir and water front or water coil.

There are blue or grey porcelain ranges, semi-porcelain ranges with nickel trimmings or plain, cast steel ranges—all with or without hot water connections.
