MIDDLE WEST IS FINDING RELIEF

Weather Moderating Reports Indicate; Storm Is Moving Eastward

CHICAGO, Dec. 26.—(By the Associated Press).—The middle west, which has been in the grip of near zero weather for most of the week, today experienced a moderation of the cold while the severe cold had moved eastward to the Atlantic seaboard.

While the east did not experience the extreme cold that descended on the west and middle west, zero blasts may yet attack discussing typhoid germs with Breidigan, explaining that he was a chemist and druggist and was interested in clinical routine.

On three occasions, he said, a woman introduced to him as "Mrs. Shepherd," accompanied the man, but she did not enter the laboratory. The last time he saw the couple, the statement said, was at the funeral of Dr. Olson, but he added that he did not know where they lived.

William D. Shepherd now is on his way back to Chicago from Albuquerque, N. M., where he and Mrs. Shepherd went to rest after young McClintock's death. He is expected to arrive here tomorrow morning, and Robert E. Crowe, state's attorney, has indicated that Mr. Shepherd, who was a druggist and chemist, will be questioned at once about young McClintock's death.

Joseph Savage, assistant state's attorney, said that his office had not determined as yet what significance might be attached to Mr. Breidigan's statement, which came to the office from Judge Olson. Commenting on the investigation, he said:

"Our investigation is including all possibilities of the case, not excluding that of typhoid inoculation and the possibility of improper treatment of the patient, such as the feeding of solid foods. Our examination of Dr. Rupert Stoip, attending physician, today failed to elicit any confirmation of the possibility that McClintock's death had been hastened or his illness intentionally aggravated.

The man known as Shepherd, Breidigan said, came to the laboratories several times with Dr. Olson and later made three or four trips alone.

During visits to the laboratories Breidigan said, the man known to him as Shepherd, watched his work and expressed particular interest in bacterial cultures; also

NEW LAMP BURNS 94% AIR Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 per cent common kerosene (coal oil).

The inventor, V. M. Johnson, is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

PPAAVO NURMI, WORLD'S GREATEST RUNNER, HERE TO MEET AMERICA'S BEST

Nurmi the Finnish star, holds world's records for the mile run 1:50.0 metres, three miles and 5,000 metres and at the Olympic Games last summer he won the 1,500 metre run in the new Olympic time of 3 minutes, 53 3-5 seconds; the 5,000 metres run in 14 minutes, 21 1-5 seconds, also an Olympic record, and the cross-country run in 32 minutes, 54 seconds. He also was a member of the Finland team, which won the 5,000 metre team race. Nurmi is a mechanical draftsman, 27 years old, and in the spring he will return to Finland to take up his work. His first race in this country will be in New York at a Madison Square Garden meet on January 6. He contemplates an invasion of the Middle West and Canada.

RELEASED ON BAIL

HOBOKEN, N. J., Dec. 26.—Capt. St. Clair Tanner and five members of the crew of the British schooner Patara, seized off the Jersey coast the day before Christmas with \$200,000 worth of liquor aboard, were held for a hearing before a United States commissioner today charged with conspiracy to violate the prohibition law. Captain Tanner was released in \$1500 bail and members of the crew gained their liberty on bail of \$1,000 each.

CHINOOK IN EASTERN OREGON

Pass it over the Cascades, or around any way, so it gets here. Yes; this is the year of the long freeze. Youths of today will be old timers in the far future, and make themselves nuisances telling about it.

It will be a colder day than Christmas when Dock Slaughter gets Tom Kay's scalp.

Horses are not to be allowed on the down town streets of Los Angeles after 4:30 in the afternoon. Edison said it was coming—that horses would finally be ruled off of city streets.

A blizzard from the north descending on Great Falls, Mont., was the forerunner of the new cold spell and caused temperatures to drop from above freezing to nearly zero within a few hours. Rotary snow plows were out in this section today and last night battling to keep roads and rail communications open. The last few days of storm and cold also did considerable damage to wire communications in the southwest which had just recovered from the sleet and snow storms of last week.

Sixteen deaths have followed in the wake of the Christmas cold, a check up today indicated. Four lives were lost in Illinois, three in Ohio, three in Colorado, two in Oregon, and one each in California, Texas, Utah and New Jersey.

The proposed new sugar factory at Bellingham, Wash., is spoken of in the editorial corner of The Statesman this morning. One of the main inducements made to the farmers to sign beet growing contracts is interesting to the people of the Salem district. The sugar

company promises to put in a drying plant for the best pulp; each grower of beets to be entitled to dried pulp for his own requirements up to the equivalent of that produced by him. With the growers also having the beet tops, this will wonderfully develop dairying and live stock breeding there. It would here in the Salem section. The growers for the proposed Bellingham factory live right up near the British Columbia line, around Sumas, Lynden, Everson, Ferndale, Acme and other centers. The Salem district can surely grow beets as good, and with as high sugar content, as the farmers up there can.

In the society columns of The Statesman of yesterday morning news of the coming at the Salem hospital of a Christmas present to Mr. and Mrs. Paul Todd was given. The Christmas present was a baby daughter, named Carol in honor of the day and Florette in respect to the names of the maternal grandmothers of the new arrival. Mrs. Todd was Ruth Hodge, a graduate of Willamette university. Paul Todd is also a graduate of Willamette. His father, E. H.
