Defence Guns Should Be Placed on Coast

WASHINGTON. Jan. 2-Modern coast defense guns out rang-

ing those of any existing battleship should be installed to protect American coast cities of great wealh and population and at strategic points of our insular possessions, such as the Panama Gen. Dennis E. Nolan, deputy

chief of staff of the army, testieighth round of a scheduled 12- fied before the sub committee round match. De Foe was badly which considered the war depart-"We know that fleets cannot fenses where there is anything like a parity of armament, and to be safe the wise thing will be to outrange the guns on the Appropriation of \$500,000 ships," declared general Nolan. Possibility of use of long range railway artillery in this connection he added, is being given every consideration. Many years of

planning and intensive study. General Nolan said were represented in the plans for coast defense fortifications which are "on to the protection of larger sea-

ports. Major Robert W. Crawford, in charge of fortifications and construction in the office of the chief of engineers, explained to the committee that one big gun position in the vicinity of Los Angeles, is to be used for a 14 inch railway gun of the latest model. He said the war department desires to conduct firing tests against coast defense targets under war conditions to determine the feasibility of the guns' movement in-

Major Crawford asid the army's big gun project called for 28 16insular possessions of which 16 are to be in this country.
