THE TO SHARE STATE AND A STATE OF A STATE

## CONFERENCE TO OISCUSS PLANS

the conference, might delay its works if discussed on the scene.

Some of the delegates, however, appear pessimistic as to the possibility of settling reparation problems if the question of debts

remains in suspense; consequently they look for at least 'a partial agreement between France and Great Britain in that connection.

The allied debtors, apart from France, are saying nothing. Premler Mussolini of Italy is understood to have instructed his delegates to avoid any mention of the subject. The Belgians are adopting a waiting attitude and the Jugo-Slav and Roumanian delegates are reticent.

There is little expectation here

that the United States could par-

lcipate in any conference on

debts. French politicians have finally come to understand that

the question of debt funding is in the hands of the commission

set up by congress and that there

is nothing to be done except

Installation of Officers and Fine Program Arranged for Tonight

WAR VETS POST

ABRAMS TO HEAD

The Veterans of Foreign Wars are all primed for their big blowout tonight at the WOW hall, when they gather to install officers for the ensuing year. Department Commander Johnny Walker Jones of the Portland post will officiate at the meeting to install Col. Carle Abrams, newly elected commander.

Governor Walter, M. Pierce and Sam Kozer, secretary of state, have been secured as the outstanding speakers of the evening. Officers of the local post have been fortunate in securing entertainment for the evening. They have lined up a 25-piece band from Willamette university. Mrs. Jean Pearcy will render a vocal solo, and the Misses Maxine Myers and Mildred Roberts will be presented in a dance number. The Misses Ruth Bedford, Hilda and Dela Amsler are also to appear in solo numbers.

Other officers who will be installed tonight are Harold Gerver, senior vice commander; Dr. Geo. E. Lewis, junior vice commander, and Dr. Lloyd Ivie surgeon of the post. Officers re-elected for the ensuing year will be installed at the same meeting.

The benefit dance which the local post held recently proved very successful and the funds secured have been used to help in-

The Square Deal Welding works, operated by C. E. Duncan, is fully equipped for electric and acetylene welding, a process which was brought to the fore during the recent World war and has made adrances during the post war period.

The firm is equipped to handle any welding or brazing job that could arise in the city. Cast iron, steel, aluminum, and all metals that are used in machine fabrication can be welded and repaired, thus making them as good as new as far as efficiency in operation is

Concerned. The Square Deal Welding works has a new syphon torch which has been developed from a design sub-mitted by Duncan, the local man-aser. With these torches the pre-heating of repairs can be handled very enally and quickly made. The pre-heating forches are use-ful 'n bringing metal to the proper state of tension after the metal has crustallized. This often hap-

has crystallized. This often happens when steel has been put to of this season at the Eugend Field constant use, or when after it has Auditorium. The play to be given been heated is allowed to cool quickly. With the torches that the company has in Salem the castings and metals that are being treated are allowed to cool gradu-ing part. # The Greatest Historian **Of Them All**

HOMER wove history into his songs. The Pharaohs carved it in stone. Julius Caesar painstakingly penned it on papyrus.

Today, history is written and given to you simultaneously with its occurrence. Every day, the important events of the world are summed up fully and comprehensively in your newspaper. You are able to keep abreast of history in its making.

And not the least important phase of modern history lies in the realm of industrial progress. You find this chronicled in the advertisements.

Advertising is a priceless boon to those who use it properly. It keeps their information up-to-date on the great variety of things that make life what it is today. It tells them of the thousand and one things they need in order to live profitable, happy and useful lives.

The consistent advertiser pays money to tell you about his wares. He knows they are good-he backs them with his money because he is confident that they will satisfy. For only merchandise that is consistently good can be consistently advertised.

Keep up with history. IT PAYS. Read the advertisements.
