STUDENTS TO HEAR ABOUT MAN-EATERS

Noted Traveler to Give Illustrated Lecture at Waller Hall January 13
Students and friends of Willamette university are to have the opportunity of hearing an illustrated address by A. H. Kingsbury, noted traveler and explorer. An amazing series of adventures among the head hunters and cannibal tribes of the Upper Amazon basin, South America, encountered while the lecturer conducted a party of missionaries in South America will be depicted in Waller Hall Tuesday evening, January 13. The party was conducted across the Andes and down the Amazon and during this trip, many adventures befell the party, by which they nearly lost their lives. Fully 600 miles of the way was traversed on foot, miles down the Rio Napo in Indian dugout canoes, and 200 miles on a raft. The party had to keep sharp vigilance for the crocodiles and vampire bats which would attack the party. It appears that the crocodiles found the raft a very delightful place to be and tried to force the members of the party into the water. The vampire bats would attack sleeping members of the party and suck their blood, and in this way lower their vitality and subject them to the diseases of the country.

Mr. Kingsbury has spent the last 19 years in South America as an explorer. During the World War he served the United States government as a naval pilot. Last year, however, he conducted a party of missionaries from the source to the mouth of the Amazon river and through the Orient country, which is just east of Ecuador. This country is peopled by wild savages, which had caused six other parties to be abandoned. The lecturer's knowledge of tropical diseases and his ability to cure many of the fevers that attacked the Indians won him their favor and as a consequence he was allowed to take the party safely through. The savages were not the whole of the perils that the missionaries had to contend with. They practically had to make their living from the country, as only 12 cases of provisions could be carried inland.

In their journey the missionaries encountered a tribe of head hunters, who to this day use a process in curing the heads of their victims. The head is shrunk to the size of a large orange and is hung to the rafters of the victor's hut. It is said that no white man knows the process by which the human head is shrunk.

The natives in the jungles of South America are continually at warfare. It is the custom for the visitors to eat the bodies of the men and boys over 10 years of age and to make slaves of the girls and women.

Liver Trouble Now Known as Cause of Premature Old Age

Diseases of heart, kidneys, blood vessels due to body poisons

Medical science knows that poisonous waste in our bodies would actually cause death in a few days if not eliminated by Nature's processes. Because it destroys these deadly poisons, the liver is our most important organ—the body's wonderful purifier.

The liver prevents the formation of body poisons that cause diseases of the heart, kidneys, blood vessels and are chiefly responsible for premature old age.

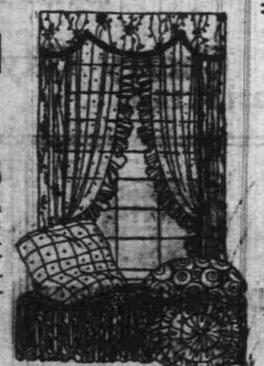

When the liver becomes weak, the poisons are sucked up by the blood and health is broken down. Physicians know that the liver cannot be regulated by drugs, but a safe Nature substance has been discovered which will at once increase the vital bile supply. The discovery is purified ox gall.

Get from your druggist a package of Dioxol. Each tablet contains ten drops of purified ox gall. In 34 hours the poison toxins will be removed. Your liver will be regulated. Blood purification will begin. Sallow skin will clear. You will feel so much better you will know you have found the cause of your ill health. Dioxol tablets are harmless, tasteless and cost less than two cents each.

These genuine ox gall tablets are prepared only under the name "Dioxol." If any tablet is offered you under another name, refuse it. Accept only Dioxol in the original, genuine package.—Adv.

HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance this simple mixture was applied with wonderful effect. By asking at any drug store for "Wysht's Sage and Sulphur Compound" you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says everybody uses Wysht's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two it is restored to its natural color and looks glossy, soft and beautiful.—Adv.
