## STOCK MARKET IS RISING STEADILY

Marked Increase Shown in Public Buying; Standard, Railroad Gain

NEW YORK, Jan. 9.—With a marked increase in public participation, stock prices today continued to move to higher ground under the leadership of the standard industrial and railroad shares. The demand for stocks which was spread over a broad list was preceded upon the continuance of easy money rates and reports of further improvement in the steel and other important industries. United States steel common touched 124 1/2, the highest price since 1917, and Baldwin closed 23 3/8 points higher at 135 1/2, after selling at 126 1/2, the highest price in over a year. American Can touched 166 and then slipped back to 163 5/8 for a small fractional gain on the day. Studebaker the other member of the so-called "Big Four" moved within a narrow range and closed fractionally lower at 45.

High grade rails were in good demand throughout the session. The sharp rise in several specialties, more than a dozen of which advanced 3 to 5 1/2 points, was directly traceable to individual influences.

Heavy liquidation of the motor and rubber stocks was apparent in the late dealings. Call money held steady at 2 1/2 per cent.

Time money rates showed a tendency to sag when offerings increased, plenty of 60 day funds being available at 3 1/2 per cent with borrowers indisposed to bid more than 3 1/4. The longer maturities moved at 4 1/4 to 3 1/2 per cent. Establishment of another new high by sterling exchange around 4.79 and a rise in the Norwegian and Danish and Serbian currencies was the feature of foreign exchange market. Other European rates moved within narrow and fractional limits.

It's real funny how some people won't discuss religion until they get drunk, and then won't discuss anything else.

## DEMAND FOR FLOUR SHOWS AN INCREASE

Foreign Trading Accompanied By Upturn in Wheat Prices, Report Says

CHICAGO, Jan. 9.—Upturns in the price of wheat today accompanied indications of a lively foreign demand for flour. A bulge in wheat quotations at Liverpool helped to stimulate wheat buying here. Closing prices on wheat were unsettled, 1/2 to 1 1/2c net higher, May, \$1.79 1/2 to \$1.79 1/2, and July, \$1.83 1/2 to \$1.54, with corn 1/4 to 1/2c up; oats showing 1/2 to 3/4c gain, and provisions unchanged to 1/2c lower.

Persistent assertions that buying of flour for Russia was in progress on a large scale and that Japan also was figuring on making liberal purchases of flour gave the wheat market a tendency to climb throughout the day. At the same time the effect of the Liverpool wheat advance was heightened owing to notable strength in sterling exchange and Liverpool advance came in the face of enlarged shipments of wheat from Australia and Argentina. Signs of improved domestic milling business were likewise apparent.

Corn and oats owed their gains chiefly to wheat strength. Demand for corn and oats was slow with corn receipts liberal. Provisions averaged lower and sustained support was lacking.

## New Fruit Pool Will Be Opened By Drager Today

A new prune and loganberry pool, operating under a new basis, never tried in this locality before will be opened today by W. F. Drager, who has agreed to sell pool member's crops of prunes and loganberries. The minimum prices are to be used as a basis and the grower is to pay Drager \$1 per ton for all prunes and \$2.50 per ton for the logans disposed. If Drager fails to sell the fruit he receives nothing for his work. Contracts have been made and up to the present time several growers have signified their intention to sign them. It is said by several growers the price the man has agreed to pay for the fruit delivered to the warehouse is in excess of any that has been paid on the crop for a number of seasons.

## United Outing Store Man Is Now Owner of Business

C. L. Newman, former manager of the United Outing stores, 189 North Commercial, has become proprietor of the business by right of purchase, and will continue to operate the business. However, in the future the Army and Outing store will be the new name. A full line of merchandise for the needs of the workman and the camper are carried. Before coming to Salem Mr. Newman was manager of the United Outing Stores at Corvallis. He was transferred to this city recently and through purchase of the good will and stock of the firm here has become manager of the new business.

## BLAST HURTS TWO

LONGVIEW, Wash., Jan. 9.—James C. Johnson and George Martineau, engaged in blasting stumps on the right of way of the logging road at Ryderwood were seriously injured and perhaps blinded for life when some dynamite prematurely exploded today. Johnson is near death. Martineau will recover it was said.

## BUSINESS CHECK NOT UNNATURAL

Slight Falling Off Expected at This Time of Year, Dun Report Shows

NEW YORK, Jan. 9.—Dun's tomorrow will say: "There has been a recent slackening of demand in certain quarters, but it is neither unnatural nor indicative of a check to progress. The attention of various interests has been centered largely on inventorying, as usual early in January, and a falling off in commitments is to be looked for under the conditions.

"With relatively small stocks of goods, the rule, it seems logical to expect that purchasing will soon increase in lines where a lull has lately prevailed and the large

Golden West Coffee

Time always tells

From mother to daughter to granddaughter has been the proud dependency of Golden West Coffee in thousands of families since its first appearance as the standard of good-coffees 42 years ago.

In all that time it has held these friends—and made countless more—by improving with age—getting richer, mellower, rarer in flavor—as experience and science and special processes have combined in the selective choice of only high-grown berries, in blending, roasting, steel cutting and vacuum packing.

You, too, will say—"no other coffee will do."

## NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 55 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).

The inventor, V. M. Johnson, 161 North Union Ave., Portland, Ore., is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.—Adv.
