It Would Be Hard

to say just what feature of our splendid home is most appreciated by those who have had occasion to use it, but we would venture to guess that the family room is as much appreciated as any other one feature.

It affords complete privacy for the family during the services, and is, therefore, much to be desired.

Four Year Mathematic Course Is Advocated

If all does not come to naught, four-year courses in mathematics will be established in the Salem high school for the next semester. In a communication to the school board last night Miss Beryl Holt, head of the mathematics department, suggested the establishment of an advanced algebra class to care for students who are planning entering the engineering profession.

Several students are enrolled at the high school who have requested that the higher math be taught in order that they might continue with their studies. Consequently, with the sanction of the school board the subject of pediments, variations series, logarithms and the theory of equations will be taught Salem high pupils.
